

# General Debility

Day in and out there is that feeling of weakness that makes a burden of itself. Food does not strengthen. Sleep does not refresh. It is hard to do, hard to bear, what should be easy,—vitality is on the ebb, and the whole system suffers. For this condition take

# SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the bowels, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S. S. S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system A CONSTANT BRAIN EFFLUENT. When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing, and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbot, LeRoy, N. Y., writes: "Six years ago my leg from the knee to the foot was so sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been perfectly well ever since."

S. S. S. is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised, or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

# ONE GREAT NOVELIST.

VARYING CAREER OF JAMES FENNIMORE COOPER.

Unpromising Youth of This Recognized Genius—His Long-Dormant Powers—Change from Popularity to Unpopularity—Foremost American Novelist.

James Fenimore Cooper, the dean of American novelists, holds a position in our native literature at once unique and distinctive.

It matters but little now that his literary genius should have remained dormant for so long a time as a diamond in the rough before accident clipped off the crude exterior, disclosing the brilliant luster within. It is of small importance that his early life, spent in aimless pursuits, was wholly without promise of future achievement, and soon but a regrettable memory will also be the fact that during the last few years of his life through misunderstandings and misrepresentations his breast was filled with feelings of deep rancor toward men who should have been his friends and who in turn denounced both him and the products of his pen. These circumstances, the inevitable contradictory accompaniments of recognized ability, have varied indistinctly into a hazy background, against which stands boldly the undoubted truth that the author of "The Spy and The Pilot" is justly worthy of all praise that has been or may be accorded him.

The life of this varying popular and unpopular author had its beginning September 15, 1780, at Burlington, N. J. His parents were both of Quaker extraction. Soon after the close of the Revolutionary war the Cooper family established a household within the borders of New York State near the headwaters of the Susquehanna River. They encouraged the populating of this vicinity and subsequently laid out the site of Cooperstown. The Cooper family decided to make their permanent home in the town founded by them and in 1799 completed the erection of a spacious manor house, known as Otsego Hall, which was for many years the most commodious and stately private residence in central New York. To every reader that has been charmed with the spell of Cooper's Indian romances, the surroundings of his boyhood days are significant. During those years the foremost pioneers of emigration had barely begun to push their way westward through the Mohawk Valley, the first available highway to the west. Out of the forest that bordered Otsego Lake Indians came for barter, or possibly with hostile intent, and from these no doubt Cooper drew

enemies among men who could not understand his nature. He made frequent visits to England, during which his company was sought by the most distinguished men of the time, and during one of these visits he was unwillingly brought into a controversy over the economy and efficiency of the United States government. His utterances on this subject were misconstrued and his published letters brought forth what now seems an altogether unexplainable bitterness against their author.

As one of the most successful of authors, Cooper's fame is assured. His libel suits and controversies are forgotten, his offensive criticisms are seldom read, and he is remembered only as the most brilliant and successful of American novelists.

COMING TO AMERICA. M. Paul Deroudele, Noted and Eccentric French Agitator. The announcement that M. Paul Deroudele, the French political agitator, is coming to this country to live has caused no little interest among people conversant with French politics. Deroudele has been prominent in his country for more than three decades, as dramatist, hero, poet, agitator, duelist and deputy. He had gained some fame as a dramatist when he went into the Franco-Prussian war. He was wounded at Sedan and was made a prisoner, but escaped from Breslau and joined the army of the Loire, with which he fought throughout the campaign. In 1882 he founded the "Ligue des Patriotes," to keep alive in the breasts of Frenchmen hatred of the Prussians. When Gen. Boulanger came to the front, Deroudele was his most enthusiastic supporter. He became a member of the Chamber of Deputies in 1889.

and the next year was forcibly ejected, though but temporarily. As an anti-Dreyfusard, he was a leader in the crisis of 1898 and 1899. His daring was illustrated when at the election of Emile Loubet to the Presidency he insulted the presiding officer and disturbed the ballot. The same night he tried to have the President kidnaped, his purpose being, if he succeeded, to himself occupy the Elysee. He was almost successful.

The populace has idolized him. When the deputies drove away from Versailles on the day of the last Presidential election, Loubet was greeted with yells of "Resign! Resign!" Waldeck-Rousseau, Brisson and Depuy were saluted with some manifestation of respect. Only Paul Deroudele was cheered. His eccentricities and the knowledge that he was an enemy of Dreyfus are not likely to make him popular in this country. A Franco-Canadian steamship line is to be created. It is said, and he is to be the New York agent of the company. Levi P. Morton's son-in-law, the Duc de Valencay Perigard, made him the offer of this position.

He Made No Mistake. "I shoo'd did see Marse Tom's ghost last night," said the old family servant. "Are you sure of that?" he was asked. "Yes, sub—sho—'er you stan'in' dar! I couldn't make no mistake, kaze he gone straight to de sideboard, whar de ol' jimmyjohn stay at, en de fust word he say wuz: 'Dam dat nigger ain't been drinkin' my lickin' ag'in!'"—Atlanta Constitution.
