Itching Skin

Distress by day and night—
That's the complaint of those who are so unfortunate as to be afflicted with Eczema or Salt Rheum—and outward applications do not cure. They can't.
The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear. Accept no substitute.

Bee Exhibit at World's Fair.

Mayor Swink, of Rocky Ford, Colo., who has perhaps the largest bee plant in America, is going to take his bees to the World's Fair at St. Louis, and they will work there from the time the exposition opens until it closes. Mr. Swink is willing to construct of bee hives a miniature of the Colorado State House at Denver. This will require about 640 hives, and in all about 5,500,000 bees will work.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Infelicitous.

A correspondent of the Boston Journal declares that he heard of a young clergyman the other day who startled his hearers by beginning his address at a funeral thus: "While there has been something discovered to relieve the pain of having teeth extracted, there has been nothing discovered as yet to allay the pain of parting with friends by death.

Filth in Public Places.

A writer declares that there is more filth, squalor and general slovenliness in public places and works, in streets, squares, river-sides, docks, roads and bridges in the United States than in any other country of the first or even the second rank. He says that in this respect we rank with Turkey rather than with England or Germany.

Met Their Fate.

"Are you ready?" asked the first man.

"I am," came the answer in a firm tone.

"Then come. We may as well know the worst."

Closing the door behind them, they resolutely descended the stairs.

Uncle Hezekiah on Golf.

"I don't see why they call golf a royal and ancient game," remarked the Cohoes philosopher. "I never heard of it till two months ago, an' my folks has lived right in this here country for sixty years. An' as fer its bein' royal—it ain't played in a court like tennis—I don't see where thet comes in. An' if it is, it's agin the constitution and the flag.—Judge.

"And now, George," said the blushing and practical maiden, "since everything is settled and I have consented to share your lot—"

"Yes, darling!"

"Perhaps you'd better see about having a house on it."

Enormous Consumption of Cheese.

Great Britain and Ireland import about 265,000,000 pounds of cheese annually. Canada supplies about 60 per cent of the whole.

ECZEMA'S
ITCH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—MRS. L. B. JACKSON, 1414 McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

SSS cures Tetter, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

GOOD Short Stories

The Living Church quotes this extract from a Connecticut woman's diary, dated 1790: "We had roast pork for dinner, and Dr. S., who carved, held up a rib on his fork, and said: 'Here, ladies, is what Mother Eve was made of.' 'Yes,' said Sister Patty, 'and it's from very much the same kind of critter.'"

General Horace Porter, the American minister to France, says that when he departed for his post five years ago, his parting words to Mark Twain, as he was about to board the steamer for the other side, were: 'Mark, may the Lord be with you." "Yes," the humorist replied, with a slight cough, "and I hope He may occasionally find a leisure moment to pay some attention to you also."

An unlettered Irishman applied to the Philadelphia Court of Naturalization the other day, when he was asked: "Have you read the Declaration of Independence?" "No, sir," was the reply. "Have you read the Constitution of the United States?" "No, sir." "Have you read the history of the United States?" "No, sir," he repeated. "No," exclaimed the judge in disgust; "well, what have you read?" "Oi have red hair on me head, your honor," was the innocent reply.

In a series of sketches, entitled "Lights and Shadows in a Hospital," Mrs. Terton tells of a melancholy man, depressed with rheumatism, in her cottage hospital, whom she wanted to cheer by reading. Ordinary hospital literature was no good. At last, said the nurse: "I shall read him 'Three Men in a Boat,' and if that doesn't amuse him, I shall give him up as hopeless." So she read, till finally "a reluctant smile came over his face, and he said, with slow satisfaction: 'I do think they be three rum 'uns.'" That was the turning point in his illness. He recovered completely, and left the hospital a bright and cheerful man.

It is said that Senator Jones, of Arkansas, dropped into Mr. Hoar's committee-room to see what the Massachusetts Senator thought of Governor Davis' act in pardoning a negro on condition that he go to Massachusetts. "Why, I accept the governor's compliment for State," Hoar is reported to have replied; "while the negro was looked upon as a criminal, it seems that Governor Davis regarded him as a fit subject for Arkansas. But when he found that the negro was innocent and capable of good citizenship, he was directed to go to Massachusetts, where we have only good citizens. Please convey to the governor my thanks for his compliment to Massachusetts."

Senator Perkins says that once when he was a sailor, a tremendous storm came up, and it looked as if the vessel were doomed to go under. In the midst of the excitement a minister, who was one of the passengers, asked the captain if he could have prayers. "Oh, never mind about the prayers," said the captain; "the men are swearing too hard to stop for prayers, and as long as you hear them swearing," added the captain, "there is no danger." The minister went back to his cabin. A little while later, when the storm grew worse, the preacher went on deck to see what the sailors were doing. Then he went back to his wife. "Thank God!" he said, fervently, "those men are still swearing."

M'KINLEY'S DOCTORS

Have Never Rendered Any Bills for Their Services.

Not one of the seven local doctors who performed services in connection with the McKinley tragedy in this city last year, says a Buffalo correspondent of the New York Tribune, has received any compensation thus far. Neither has any of them any official or direct knowledge that he will get any compensation. Notwithstanding statements to the contrary, none of the physicians ever submitted bills for services, and the entire subject of compensation was left wholly to the Government. In the long time that has elapsed no Government official has ever consulted any of the doctors on the matter. The local physicians who were in personal attendance upon the President, or who were called into consultation in the case, were Drs. Matthew D. Mann, Herman Minter, Charles G. Stockton, Roswell Park and Eugene Wasdin, the latter being in the United States Marine Hospital service. Drs. Henry R. Gaylord and Herman G. Matsinger performed the autopsy, assisted by some of the doctors named.

"None of the local physicians who attended President McKinley or who performed the autopsy have received any compensation," declared Dr. Mann this afternoon. "Neither has any of them been consulted in any way on the subject. It was agreed when the question of compensation was first agitated that no bills should be submitted, and the agreement was observed. The doctors simply permitted the Government to follow its own course. In consequence none of us know officially what has been done or what will be done. All we know is that an item of $45,000 was put in the emergency bill. That information was derived from the newspapers; in fact, all that we know about the entire matter from the time our services were performed until now has been learned through the newspapers."

"Has any arrangement been made to divide the compensation if it is allowed?"

"None whatever. We assume that, if the Government allows any money, the Government will arrange the apportionment among the physicians. As I understand it, Dr. Wasdin, because he is in the Government service, will not be included in this division. We are leaving everything to the Government."

SILK MANUFACTURE.

France First, United States Second in Value of Product.

With the prominence that is being given in many quarters to the subject of child labor it is interesting to note that in 1870, according to the last census, 20.8 per cent of all the operatives of silk mills in this country were children, while in 1900 the unmber of youthful workers had diminished to 9.8 per cent. The decrease took place between 1870 and 1890. Since the latter year there has been a slight increase. New Jersey shows the greatest falling off of child employes, having dropped from 32.1 per cent to 5 per cent. In contrast to this, the proportion of child operatives in Pennsylvania has grown greater during the entire period, reports the New York Tribune.

America is second to France in the annual value of its silk production. In 1900 70 per cent of the silk used in this country was manufactured here—an increase of 57 per cent since 1890 and of 15 per cent since 1890. America now produces 85 per cent of the silk ribbons annually sold here. The goods now principally imported from Europe are high-class novelties, hand-made silk velvets and hand-made silk laces, which are not produced here to any appreciable extent, but which will, without doubt, be made in due time. Habutai and Kaika silks, which, by reason of their extreme lightness in weight, are so popular for summer wear, come from Japan. In 1900 the value of the imports of silk manufactures was $26,803,549; of the domestic product, $107,256,258.

There is very little competition from abroad with domestic manufactures of sewing silk and machine twist. In fact, the United States product is universally acknowledged as superior in finnsh of purity and dye to that of any other country, because only the best Japan and China filatures, dyed unweighted, are used. It is noteworthy that at the Paris exposition of 1900 the grand prix d'honneur, the highest award given, was awarded to an American exhibitor of this class of silks.

More raw silk is sold annually in New York than is consumed in France, which is the largest raw-silk consuming country of Europe. As to the selling value of the product, the United States ranks second, being surpassed by France, which still dominates, without serions competition, the world's markets in church ornaments and chasubles and Parisian specialties representing the supremacy of Paris fashions for women's wear. Many of these are made on hand looms, the quantities required in different patterns and styles being so limited that their production in the United States by power loom weaving would not be profitable.

A Question of Conscience.

"Some folks," said the store clerk, "are too honest. Now I've had somebody come in to me when the boss was standing by, somebody that had bought something of me the day before, and hand over two cents and say:

"You gave me two cents too much change yesterday, and I've brought it back.'

"He couldn't rest, you see, that man, until he'd got that two cents off his conscience and returned it. But in getting rid of that load himself he simply shifted it onto me. Here's the boss standing by when that two cents is returned; and the boss says to himself, with his eye on me:

"'Hm! If you make a mistake of two cents, you'd make one of two dollars;' and so you see, that super-honest man's return of that two cents may do me a lot of harm.

"The meaning of which is, if I can make myself clear, that we don't want to be too blamed honest. A man can be too honest and worry himself over trifles that he ought not to bother over.

"I should say that if the honest man must bring two cents back let him turn it in some time when the boss wasn't 'round."—New York Sun.

Edison's Quick Repartee.

There is a sparkling, even dazzling, quality in Edison's repartee, which is usually a surprise to strangers. People generally approach the heavy, self-contained looking figure expecting replies of ponderous technical importance; hence their surprise.

The wizard was approached the other day by an enterprising lightning-rod agent anxious for some word of praise for his wares from the great man. Edison was non-committal.

"Well," said the lightning-rod man at last, "do you approve of lightning-rods, anyway?"

"It depends upon the building," said Edison.

"But is it any good in any case? Would you advise their use on churches, forinstance?" ventured the rod man.

"Well," replied Edison, with a twinkle "they might be of use on churches. It does look as though Providence were a bit absent-minded at times."—Boston Journal.

King of Rats.

Rats proclaim their monarch on account of his gray hairs—he is always an ancient and wise-headed warrior. He fights his way to the front; but it is not only that that gives him the throne—it is his cunning. The rat tribe celebrates his coronation in an almost human way. The whole tribe of the house or granary gathers, and the big monster steps out and sniffs the air. He grates his teeth wickedly, daring any rival to come and try his luck; and, if none offers, he is thenceforth given the lead in all matters. If a house is unsafe or a ship unfit for sea, the king it is who leads the tribe away in time; and his subjects never molest him when he helps himself to the pick of the food or the best nesting place, and his family enjoys the same distinction.

How He Celebrated.

As an instance of the overpowering strength of the human desire to make a noise somehow during times of rejoicing a story is told in London of a commonly sane and sober citizen who, upon hearing of the recent declaration of peace in South Africa, went outside his house and violently rang his own door bell until he felt calmer.

AN ITALIAN CAPTAIN

Cured by Pe-ru-na of Catarrh of the Stomach After Doctors Failed.

CAPTAIN O. BERTOLETTO.

Captain O. Bertoletto of the Italian Barque "Lincelles," in a recent letter from the chief office of the Italian Barque Lincelles, Pensacola, Fla., writes:

"I have suffered for several years with chronic catarrh of the stomach. The doctors prescribed for me without my receiving the least benefit. Through one of your pamphlets I began the use of Peruna, and two bottles have entirely cured me. I recommend Peruna to all my friends."—O. Bertoletto.

In catarrh of the stomach, as well as catarrh of any other part of the body, Peruna is the remedy. As has often been said, if Peruna will cure catarrh in one part, it will cure catarrh in any other part of the body.

Catarrh is catarrh wherever it is located, and the remedy that will cure it anywhere will cure it everywhere.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Mitchell Wagon.

Best on Earth—

Because it is made of the best material possible to buy. The manufacturers absolutely pay 25 to 35 per cent above the market price of best grades of wagon timber for the privilege of culling over and skimming off the cream of the wagon stock, which is carried for 3 to 5 years before making up, which means an investment in wood stock of nearly one million dollars.

DEATH

begins in the bowels. It's the unclean places that breed infectious epidemics, and it's the unclean body—unclean inside—that "catches" the disease. A person whose stomach and bowels are kept clean and whose liver is lively, and blood pure, is safe against yellow fever, or any other of the dreadful diseases that desolate our beautiful land. Some of the cleanest people outside are filthiest inside, and they are the ones who not only "catch" the infections, but endanger the lives of all their friends and relatives. There's only one certain way of keeping clean inside so as to prevent disease and that is to take CASCARETS. Perfect disinfectant and bowel strengtheners. All diseases are
