egram Florin Fuchs has purchased a
hotel at Cottage Grove, at a cost of
\$7750. The building is of brick and is
reported to be a good property.
B. S. Cook and family who have been
spending several weeks recreating at
Newport, visited Sunday and Monday
with relatives in Newberg, leaving Tues-
day morning for their home at Prosser,
Washington, where Ben is engaged in
the real estate business.
Miss Lola Fishburn, at one time a
student of the Academy here, and who
conducted a kindergarten in Newberg a
few years ago, was married in Portland
Wednesday afternoon of last week to
Rev. Robert A. Crichton, Dr. Alfred
Thompson, pastor of Trinity M. E.
church officiating. Mr. and Mrs. Crichton
will make their home at Peay, Mon-
tana, where the former is pastor of the
Presbyterian church.
Mr. and Mrs. Elmer Hall arrived Sat-
urday evening from Skye, some miles
northwest of Vancouver, Washington,
driven out of house and home by the
forest fire raging about them. For
days the smoke was so dense they could
scarcely see their eyes and the morning
they left the red glare from the raging
conflagration was so pronounced as to
make the light from their lamp appear
colorless and scarcely noticeable. So
far as they know all their property was
lost save the clothes they wore away.

way the wind blows. Will take no

G. EVERETT.
It is a long admitted fact that a very
large per cent of clothing is made of old
cast off garments remitted and processed
in such a way that even the expert is
often deceived. The guaranteed cloth-
ing at Hodson Bros. clothing store is
equal to the homespun garments made
by our grandmothers. Be sure to get
one for the boy. It will hold him.
A. C. Pool, who has been clerking
for several months in Parker & Pool's
general merchandise store, has given up
his position and went down to Portland
Monday morning with the intention of
taking a place as salesman in Olds,
Wortman & King's department store.
If he is satisfied he will remain in Port-
land. Otherwise he will return to his
home in the East.
A stranger accosted Marshall Woods
a few days ago and asked if there was
any place in Newberg where he could
get a drink of beer and the marshal an-
swered that there was no such place
in town so far as he knew, when the
stranger said "Well now don't that beat
the devil." The situation may be a lit-
tle trying to the prince of darkness and
some of his followers but it is quite sat-
isfactory to the majority of the people
of Newberg.
It is well known that some water con-
sumers are utterly ignoring the regula-
tions for use of water, as published in
these columns by the city authorities
some weeks ago and complaint has been
made accordingly. This is not only un-
just, from the fact that the consumers
in question are using more than their
pay for, and take advantage of their
neighbors who try to abide by the rules
but it is also perilous to the town. In
case of fire, the lack of what water is
thus wasted might mean serious loss.

Jasper Bales was in Portland a few
days ago looking for a good job.

Center returned to Monmouth this
week and resumed her work in the
State Normal.

on Prince's new fruit evaporator at
Dundee last week but is still at work in

died at her home on the mountains
northwest of town Monday and was
buried Wednesday in the West Cheha-
lis cemetery. The deceased was
eighty-four years of age.
Ceil Hoskins has taken hold of the
work in the county recorder's office as
deputy since the departure of his brother
Hervey for Haverford College. Ceil
had already been "broken in" to a
good degree and will take up the work
with little difficulty.
Public sentiment seems to be growing
in the belief that the time has about
come when the town cow should be shut
up. The way in which one or two pub-
lic places in town have been made regu-
lar barn yards, has aided in modifying
some people's convictions on this much
discussed municipal question.
N. G. Maris of Heppner, who for
some time has been traveling over the
state and writing for the Rural Spirit,
visited at Newberg the latter part of
last week with his mother Mrs. Julia
A. Maris. After attending and writing
up the state fair for his paper he will
return this way for a further visit.
Robert Jones came back from Scap-
oose last Friday near where he has
been located as fire warden this sum-
mer. He has had little or no trouble
in his district with forest fire, but
said that when he left Scappoose near
the noon hour the smoke was so dense
that the lights in town were turned on
as at night. Robert left on Monday
morning for Milton, Umatilla county,
where he began his school work Wed-
nesday as professor of mathematics in
Columbia College, a new institution of
learning under the supervision of the
Methodist church. His friends wish
him success and believe he will achieve
it.

Bent having moved to Highland, Clack-
amas county.

nounces that there will be no preaching
in the Presbyterian church next Sun-
day afternoon.
Mr. and Mrs. Wm. Rice drove down
from Rosedale the first of the week and
made arrangements to send their son to
Pacific College this year.
Atkinson Bros. have a car load of the
best live stock from their place on ex-
hibition at the state fair. A good share
of blue ribbons is a foregone conclusion.
As the local passenger train was
rounding Elk Rock Monday evening, a
passenger on the steamboat Pomona
which was steaming up the river raised
a rifle and fired at the passing train.
The bullet struck the fireman, Hugh
Farrell, in the hand and the injured
man was compelled to stop off at Oswego
and have the wound dressed.
E. R. Horton took possession of the
Friesell property the first of the week.
D. H. Turner having changed to the
James Harris property. Mr. Horton
has also bought the west part of what is
known as the E. H. Woodward land and
also a part of the L. F. Hall land, mak-
ing altogether about one hundred acres.
E. H. Weatherhead will probably use
the land for dairy purposes.
Elmer Cummings, aged about 21, and
son of Samuel Cummings, living north
of town, broke his ankle on Wednesday
morning while wrestling with another
man heavier than himself. The unfor-
tunate young man was a student at the
college last year, and is quite an
athlete. George Cone found a
meteor in his wheat field recently, which
will be exhibited at the coming festival.
It is about 8x12 inches in size, and very
light in weight. It has every appear-
ance of having been hurled through
space at white heat. Mr. Cone found it
in harvesting, and knows it was not
there when he plowed and sowed the
land. Dr. Goucher says he believes he
saw the meteor fall about two months
ago. He was traveling near North
Yamhill late at night. The ball of fire
looked almost horizontal course in its
flight, and was lost to view east of Mc-
Minnville at about the location of Mr.
Cone's farm.—Reporter.
