

THE NEWBERG GRAPHIC.

G. H. WOODWARD, EDITOR & PUBLISHER. W. C. WOODWARD, ASSOCIATE EDITOR.

Entered as second-class matter at the postoffice at Newberg, Oregon.

ISSUED EVERY FRIDAY MORNING.

FRIDAY, OCTOBER 31, 1902.

Congratulations to the patrons of the new rural mail delivery which is to be started Saturday. Uncle Sam is a pretty considerate and accommodating old relative.

President Roosevelt has designated Thursday, November 27, as a day of National thanksgiving. He pertinently suggests that we should manifest a spirit of thankfulness not only by words but by doing our duty both to ourselves and fellow men.

Hoch Der Kaiser! The German Emperor having seen fit to wear a monocle, all his satellites are slavishly following suit. "Rata" is about as expressive as any comment by which an independent American can express his disgust of such sycophancy.

In the death Sunday of Elizabeth Cady Stanton, the country loses one of the illustrious women who have done much to shape its thought and custom. While she did not live to see the full fruition of her hopes and labors, few are the activities in women's sphere which her life has not touched to lighten and enrich.

The Supreme Court of Oregon holds that a saloon keeper is liable to prosecution in selling liquor to a minor, though in ignorance of the age of the purchaser, and even though the minor misrepresents his age. This is hard on the dispenser of fire water but good people are not losing any sleep over this new anxiety which confronts them.

The Quinquennial Conference of the Friends Church held at Indianapolis, Indiana, this week, has taken an advanced step toward securing unity of action on the part of the Christian organizations of America against the liquor evil. It invites the governing bodies of the various denominations of Christians in the United States to appoint delegates to represent them in a conference to be held in the city of Washington, to begin on the second Wednesday of March in the year 1906, at which it is hoped that some plan for concerted action can be agreed upon.

The Rev. Dr. Henry Van Dyke in giving his farewell address after a pastorate of twenty years of the Brick church on Fifth Avenue, New York, gave his people the following advice which should be received as a message by the whole Christian church. "Make your life more simple, even if you have to make it less fashionable. The world wants to see a real difference between Christians and other people in their attitude toward money. A Christian can use money as a servant, but if he makes it the ruler of his life, his practical God, then his Christianity is a lie. Men blame the church for paying too much reverence to wealth. It is not the church that is at fault; it is the people who make the church."

The Oregon City Enterprise says that it looks like a prosperous winter for the dairy industry. Higher prices for milk, butter and cheese seem to be favored. There never was so much reason for taking the best care of dairy stock, grading up herds and feeding with the utmost care. Some progress has been made in recent years in organization of milk producers. Yet it remains with the individual farmer to keep up with the procession, both by making milk of the best quality and at the lowest cost, and by enthusiastically supporting his cheese factory, creamery or milk producers' union. Progress along best lines is feasible throughout the dairy world, and it behooves our farmers to improve the present situation to the utmost.

The complaint is often made that the government is wasting time and money in maintaining its system of Indian schools, inasmuch as the average student on leaving school relapses at once into his former state of semi-barbarism. New regulations prepared by the Commissioner of Indian Affairs will no doubt tend to lessen this objection. Students are not to be enrolled for less than three years term, and are to be enrolled for four or five years if possible, and are not allowed to go home for vacation except by special permission from the Department. These regulations apply of course only to non-reservation schools. It is a hard matter to accustom the Indian when he is continually being brought into contact with old associations. The transformation cannot be wrought—while you wait. It takes time.

The story is that nearly all the big belts of timber in Oregon are swiftly passing into the hands of three Eastern syndicates, says the Corvallis Times. The statement that such is the case, and that the syndicates have practically acquired all of the available supply, was recently made in Corvallis by a Portlander who ought to know. He said that Oregonians had reacted secretly and unconsciously in the belief that all the big forests were their own, while the big awake men from beyond the Rockies had stolen in and cornered the precious timber. In a few years, he said, the Easterners will be selling this same timber to Oregonians at prices that will startle the latter. Continuing, he said that the timber land laws were particularly favorable to the grab, and that their hold was so strong as their profits

would be great. The only question in the matter is, what are people going to do about the bar door, now that the horse is gone.

Take a stroll about the city and notice, if you will, how much prettier are the houses that have neither pickets, hedges nor board fences around them. The residences appear more imposing, the shrubbery, flowers and lawns show off to better advantage and such property attracts more attention than does the one that is copped up with a high fence that enjails what otherwise would be a very pretty residential picture. Eugene is becoming metropolitan enough to do away with fences altogether. It would add 50 per cent to the beauty of Oregon's city of homes.—Eugene Register.

The above reads like a fairy tale to the residents of a town where, to say nothing of fenceless yards, the very gates have to be wired and spiked to restrain the "unbridled" impulses of the town cow.

The sentiment of this paper is so clearly expressed by a brother editor that comment upon the following would be an act of supererogation: "A few days ago a business man told a friend of ours that he would have advertised in this paper, but we had never hustled him. We do not make it a practice of bedeviling advertisers until they give us something to get rid of being bored. Neither do we get in debt to business men in order to hold their trade. When we want anything we buy and pay for it. When the business man does not know the value to him of advertising, his patronage is not satisfactory to him or us. We can bring trade to anybody who wants to increase his business. If he doesn't want it he doesn't have to buy it, and if over persuaded he is never satisfied. We fully appreciate the patronage given us but do not like to beg or tease for it. If you want an ad in this paper, come and get it, and we shall treat you to the best in the shop."

Geo. Mitchell, Al Rees and Walter Macy, who are working for the land department of the Southern Pacific, got home Saturday evening, but on Monday received orders to start out on another cruise in the Cascades out beyond Lebanon and left again Tuesday morning.

A couple of days ago a new corner stepped into the Graphic office, plunked down the price of a year's subscription, handed in a news item, and remarked that when he had any news he would bring it around. As a ray of cheer that was better than a beam of sunshine which can hardly penetrate an average print shop window. May his tribe increase among us.

A part of the one thousand dollars which the college received from Francis White of Baltimore some days ago was being judiciously expended in some much needed furnishings for the school in the way of chairs and instructor's desks for the different recitation rooms. The sum of one hundred dollars has recently been received from an Eastern friend for the purpose of furnishing the new society hall, and with these and other improvements yet to be made, the college young people will feel pretty well prepared for the state Y. M. C. A. convention which is to meet here in December.

Some serious illness from dysentery is reported in the Springbrook neighborhood. Grant Heiser's oldest child is dangerously ill. Mrs. Benjamin Heiser has been quite sick but at last account was considerably better.

Parker & Pool seem to be very fortunate in buying what the people want. The latest arrival is a line of manufacturers samples of waists, fascinators, and outing flannel gowns—no two alike. They are about 25 per cent cheaper than the usual price of such articles.

Several heavy "booms" which came up from toward the river in quick succession Wednesday evening might easily have given one the impression that the peaceful Quaker town was being cannonaded by some attacking fleet. It was learned however that the people at the sawmill were responsible for the racket, they being engaged in blowing open some of the saw logs too large to be handled.

The Spaulding Logging Company has sufficient timber on hand to run the sawmill until the middle of November, when the mill will be shut down and some improvements made in the way of putting in new machinery, and increasing its capacity somewhat. The machinery added will be such as can be used in a new mill when the company is ready to put in a larger plant. By the time these changes are made it is expected that the rains will have raised the streams so that more logs can be brought down and sawing begun again.

The West Form.

Multitudes are singing the praises of Kodol, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red blood that makes you feel good all over.

Mr. Cranfill, of Troy, I. T., writes: "For a number of years I trouble with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat. Caldwell & Co.

Keeps Like Hot Cakes.

"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for consumption, coughs and colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from throat and lung diseases, who could get no help from doctors or any other remedy." Mother's rely on it, best physicians prescribe it, and F. H. Caldwell & Co. guarantee satisfaction or refund price. Trial bottles free. Reg. size 50c and 1l.

McMahon, Hampton, Ga: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." Caldwell & Co.
