THE NEWBERG GRAPHIC.

E. H. WOODWARD, EDITOR & PUBLISHER.
W. C. WOODWARD, ASSOCIATE EDITOR.

Entered as second-class matter at the postoffice at Newberg, Oregon.

ISSUED EVERY FRIDAY MORNING.

FRIDAY, NOVEMBER 14, 1902.

This issue rounds out fourteen years of existence for the Graphic, twelve years of which have been under the present management. During this period Newberg has grown into one of the best home towns with fewer vices than any other town in Oregon. The measure of influence the Graphic has exerted in helping to bring about these conditions our readers will be left to judge, but had a more compromising course been taken it is but reasonable to conclude that results would have been different. Newberg is going to continue to build up and improve but there is no reason why the better element in society should not continue to wield the greater influence here and keep out the more objectionable things that somebody is always ready to bring in, if the press and the more influential people will speak out in no uncertain tones and not flinch, when an effort is made to insert the introductory wedge which in time will help bring about the wide open policy. This is the course the Graphic has always taken and no backward steps will be taken as long as the paper remains under the present management. In the future as in the past our intention shall be to give just as good a local paper as the patronage we receive will justify. The local field will be well covered and we shall endeavor to make the editorial page well worth the perusal of our readers. If this should be read by any whose names are not on our subscription list an invitation is extended to all such to drop in the office when in town and leave a dollar for a years subscription. We will give you the worth of your money.

It is presumed that there will be no Halloween nonsense next year as the newspapers have been publishing arguments against "such carryings on" and telling naughty boys that in playing silly Halloween pranks they are indulging in relics of a lower state of civilization. In the face of such a grave charge boys cannot be expected to be boys any longer.

The Medford Success was launched at the Jackson county metropolis last week. It is not a large sheet but it shows a nice clean print, it is exceptionally well edited and the news columns are well filled. The name of Charles Meserve, who has had several years experience in newspaper work in Oregon, appears as editor. He was at one time connected with the St. Helens Mist and was also editor of the Oregon City Enterprise for several years. He always puts out a nice, clean, newsy sheet.

The beginning of the rainy season again brings the subject of good roads and how to attain them, to the fore. The Oregon Agriculturist speaks to the point when it says: "Enterprising cities, towns and villages in Oregon can do much to help along the movement for good roads by putting the main roads and streets within their corporate limits in first class condition. When this is done it will pay them to help the farmers along the main roads leading to the towns in the work of making these roads first class. This has already been done at some places and with very satisfactory results." It is gratifying to note that this all important subject is receiving more attention of late than ever before.

The Portland papers go into ecstacies over the announcement that the Multnomah delegation had held a conference and had decided to stand as a unit in asking for an appropriation of $500,000 for the Lewis and Clark fair. Well whoever expected that the Multnomah delegation would do anything else but stand pat for the appropriation? Newberg would stand solid for a $20,000 appropriation for a county fair, provided of course that the fair was to be held at Newberg, and we would not expect anybody to pat us on the back for doing it either.

Primitive journalism still obtains and flaunts furiously the red flag over in Tillamook by the sea. For years the respective editors of the Headlight and Herald hated each other with the most cordial of hatred. Some time ago the Herald man, R. M. Watson, heeled it out for other fields, and on returning some days ago with the intention of starting another paper, he received so warm a welcome from his erstwhile enemy that he has seen fit to enter suit for six thousand dollars damages. Mr. Watson evidently considers his reputation pretty badly bruised, and as such highly flavored journalistic tidbits are fast becoming a rarity, except in Kansas, it may not be out of place to reproduce for scrap book purposes the meat of the offending article. Here it is: "We would suggest that the new newspaper be called the 'Baby Act Graft,' and should give a graphic account of Watson's last bout with his wife, going home drunk, running into debt and borrowing money from his son-in-law, an honest, hard-working boy, and suddenly skipping out without paying the same; also the tight place Watson found himself in when he had to clear out of Elma or commit suicide, which he threatened to do. These reliable facts will make the 'Baby Act Graft' exceedingly interesting to those who allow the man who has guzzled down whisky enough to float the Sue H. Elmore to tap them again. We have a spark of sympathy, however, for Watson, for it is distressing to see a man at enmity with his own relatives and headed for the asylum."

A change in time for the morning and evening train has been expected for several days as such a rumor has been in the air but so far no official announcement of a change has been made. Several Newberg people have expressed considerable dissatisfaction with the proposed change.

H. R. Cobb has a patch of potatoes that is apparently trying to head off the gophers. He brought in a vine Wednesday that had been eaten off just below the surface of the ground by a gopher but six small potatoes had grown along the vine a few inches apart after the vine had fallen on the ground.

The annual meeting of the Oregon and Idaho Young Mens Christian Association will be held in Newberg the first week in December and this announcement ought to cause an awakening among our people and a general desire to clean up and repair sidewalks and streets and make things presentable. A special effort along this line should be begun without delay.

The vote at the city election on Monday was not as large as people had reason to believe it would be and yet 320 is a pretty fair representation of the city's voting strength.....The county court has under consideration the calling of a meeting of road supervisors and others interested in the subject of good roads. If such a meeting is called it will probably be held sometime about the first of the year. This is a splendid idea. Let the meeting be held.—Register.

Wanted.

Editor Graphic:—

Any resident of Newberg who is a close observer might, after having taken a stroll about town, sit down and write out a long list under the head of "wanted" and figure out a great many things that are within the grasp of a progressive people, and which, with the proper effort, might be "brought to town," but there are two things that are badly needed here and we ought to have both of them before the passing of many more moons. One is a new depot at the railroad station and the other is a hotel that would be a credit to the town. As for the first named, it is generally conceded that the railroad people are not likely to build a new depot on the sight of the old one for the reason that is is on a grade and a curve and consequently very unsatisfactory. Whether this is true or not the fact remains that the Southern Pacific is asking Newberg to put up with very poor accommodations, and in face of the fact that this point furnishes more passenger traffic than any other point on the line, and if the old site is not satisfactory a new one should be chosen and a new and up to date depot with a commodious waiting room put up. The chances are that if the people would make a united effort and present the matter to the railroad officials it would be given favorable consideration. It is certainly worth the effort and no time should be lost in making a move in this direction.

Put the question to any of the men who spend the greater part of their lives away from home and they will tell you without any hesitancy that Newberg's greatest need just now is a good hotel, and everybody acquainted with the facts knows this to be true, although it is a condition our home people don't like to face. We all know that something ought to be done but what is that something going to be? Probably the easiest way out of it would be to get some good hotel man with sufficient capital, to put up a new building and operate it, but if the man can't be found then it looks like it was up to the citizens who care for the best interests of the town to form a company, put up a creditable building and get a competent man to operate it.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. An ideal remedy for children. Caldwell & Co.

The late A. R. Burbank of LaFayette left a portion of his estate as a trust fund for the orphans' homes at Portland and Salem. The estate is valued at about $31,000.....It is estimated that 1000 homeseekers have come to the Willamette Valley from the East during the month of October. The big immigration will come in the spring, and it will be people who read the pamphlet issued by Yamhill county. Don't forget it.—Reporter.

Will Investigate.

A remarkable case comes to light at Elizabeth, W. Va. An old man there by name of T. W. Roberts had long suffered with incurable cancer. Everybody believed his case hopeless until he used Electric Biters and applied Bucklen's Arnica Salve. The treatment cured him completely. Now everybody who knows of it is investigating Electric Bitters. It exerts a mighty power to expel biliousness, kidney and liver troubles and it's wonderful tonic for run down systems. Don't fail to try it. Only 50c Satisfaction guaranteed by Caldwell & Co. druggists.

Disastrous Wrecks.

Carlessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds, even the worst cases can be cured and resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass. is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by Caldwell & Co. druggists. Price 50c, and $1. Trial bottles free.

An exchange says that when a pretty girl pins a flower on a young man's coat, she always lifts her chin and takes a look at it sideways, and the fellow who doesn't tumble then had best stay in doors when a funeral is passing for fear of being run over by the hearse.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect pill. 25c at Caldwell & Co's drug store.
