Rev. Jonathan Ballard who has been pastor of the Friends church at Tonganoxie, Kansas, for the past seven years, and who has been visiting a son at McMinnville, attended Friends quarterly meeting here last Saturday and Sunday and preached very acceptable sermons at the different sessions. George E. Hammerly, editor and publisher of the Gold Hill News was in town last Monday. He is on a trade with the Charles boys and he came up to take a look at Newberg and the property that was being considered in the trade. He said he found a much better town than he had expected and seemed well pleased with what he saw. If the contemplated trade is made the Charles boys will become the owners of the News which is said to be very good property. The Graphic wishes the boys the greatest success possible.

Mrs. J. C. Hodson entertained a small party Tuesday evening in honor of the birthday anniversary of Prof. J. C. Hodson and Mrs. F. A. Morris. The entertainment, directed by the hostess, assumed a literary form, prizes being awarded to the best conversationalists. A dainty collation was served and the guests departed wishing their host many happy returns of the day.

The revival meetings at the Baptist church continue with increased interest. Evangelist W. G. Silke is a preacher and teacher of the Word of superior ability. The simple gospel from his lips is clothed with new beauty and power. The afternoon meetings are especially helpful to those who would be better Christians. Those who attend are furnished a treat in spiritual things. All are invited to attend every service. F. C. Stander.

Arthur Austin returned from Ione, Morrow county, some days ago where he made good wages during the summer and fall. He will spend the winter on his father's mountain ranch on the Little Nescocoma and take a home course in civil engineering. When asked why he was going over into that lonesome country he said he wanted to get away where no one would interrupt him. He is certainly headed in the right direction to accomplish the object named.

A small company of friends witnessed the ceremony. The young couple left the first of the week for Woodlawn, where they will make their home.

A reader of the Graphic and one who always takes a great interest in Newberg said recently, "Can't you say something in the paper that will arouse a renewed interest in the matter of setting out shade trees about town?" Well there are some people who will not shade trees and engage in little matters of home adornment and then there are others who seem to consider the house where they stay just a place in which to eat and sleep and let it go at that. However the Graphic will say as it has said over and over again that an investment made in shade trees is the best investment that can be made about a home and just at this time is the season when the work should be begun. Even the traditional "town cow" appreciates a shade tree, especially if it is young and tender, and this a reminder. A few years ago some very nice trees were set along a certain street in town but the trees were not properly protected and they are now only sprouts about a foot in height. Young trees left to the mercy of the town cows don't thrive well, and so long as old Butt is allowed to run at large shade trees must be well protected while they are young.

C. is holding down the position of secretary of the Blue Bird mining company of Sampter. He says he notes some improvements about town than he has ever seen during any other period of absence.

With the completion of the Dunker or Brethren church Newberg will be pretty well fixed for meeting all shades of belief regarding the matter of water baptism. If a man so desires he may go there and they will put him down three times face foremost, or he can attend the Baptist church where one single plunge is enough; he can go to the Methodists and get a little water sprinkled on the head or drop in at the Friends church and leave the water off altogether.

Justin Haworth, Aaron and Zim Mills and Abner Cook arrived home Saturday from their trip into the coast country of the southwest part of the state, where they went preparatory to making some investments in the public domain. A. Mills filed on a homestead claim, while J. L. Haworth and Zim Mills picked out some school lands to their liking which they supposed still open, but when they stopped at the Land office at Salem on their return found that other parties had already secured most of their intended purchases. They saw the timber(?) lands for locating which thirty-six parties in Portland paid one hundred dollars each to a "promoter," to find out afterwards that they had paid dearly for the discovery of a district abounding chiefly in timber borries and rocks—anything but timber. The boys saw plenty of "it might have been" opportunities for making a stake had they been a few years earlier, but think it rather slim picking now. They did some successful hunting while gone and on their return remembered their friends with some remission.
