## HODSON BROS.,

Clothiers and Furnishers.

### Local Events.

The Douglas Studio for photos. Free dishes at Wilson's Grocery. Orchard and apple boxes for sale by C. B. Wilson.

A cottage for rent. See Mrs. Mary Morris, northwest of depot. You will always find a complete line of fresh vegetables at Wilson's grocery. Elmer Armstrong went to Salem on Wednesday on business connected with the Salem nursery.

Go to T. H. Cummings for furniture, paints and oils. A full line of undertaking goods kept in stock. Mrs. Frank Harris of Lakeview, Southern Oregon, is here visiting her sister, Mrs. W. C. Kruger.

The ladies of the Friends church cleared in the neighborhood of one hundred dollars last week from their rummage sale and supper.

Mrs. W. W. Nelson has been enjoying a visit this week from her sister, Mrs. Eva H. Millap and son, and a friend, Mrs. J. C. Allen, all of Lebanon.

The well known oculist, Dr. C. W. Lowe, will be in McMinnville in Dr. Wright's office, November 24, 25 and 26. If you need glasses don't fail to see him. For a complete and up to date line of shoes for children, misses, boys, ladies and men, Parker & Pool are the people. And their prices are the lowest too—every pair warranted.

J. C. Baird who came down from Hood River Tuesday says the weather up there has been anything but pleasant, there having been a mixture of sun and rain that sent a chill chasing up and down the spinal column.

The Spaulding Logging Co. started the Steamer Grey Eagle out Wednesday on a cruise up the river to look after their logging interests about Corvallis. There will be no shortage of logs from lack of water from this time on.

The first issue of the Gold Hill News published under the proprietorship of Leiber and Woodard Charles is at hand and is certainly in every way a very creditable publication. The boys make their bow to the public in the most approved style and take hold of the paper like veterans.

Oscar Allen arrived in town Monday evening and on Tuesday he again took his place at the wheel on the Steamer Yonoma. After closing his prune evaporator here he went to Eastern Washington and Idaho where the Allens are operating several large evaporators. The season's run has been quite satisfactory and they think they will ship about fifty cars of the dried product as a result of their work in the upper country. The evaporators are now all closed down but it will require a month or more to pack and ship the fruit and put the plants in condition for leaving.

All kinds of empty barrels for sale at Wilson's Grocery.

Born to Mr. and Mrs. Scott Livengood of Dundas on Sunday, a son.

Born to Mr. and Mrs. H. C. Johnson of Chehalis Center on Wednesday, a son.

Complaint has been entered that obstructions have been placed on the sidewalk in a certain part of town until people can scarcely pass that way. It is well to remember that sidewalks are not built so much for private convenience as for public service.

Jo Ego has sold his place in the Chehalis Center neighborhood to C. Jacobson who recently came from South Dakota with his wife and three children. Mr. Ego contemplates going into the southern part of the state with a view of buying a stock ranch.

Mr. and Mrs. Fred Vinton who have been out from Iowa three or four years are making good progress in their development as webfooters. The weather becoming too dry to suit them during the past ten days they went down to Portland Tuesday to attend the big irrigation meeting.

Arthur Kirk, who has been suffering for some time from pulmonary trouble, went down to Portland last Saturday to be examined by Dr. Woods Hutchinson. The latter advised him to remain here a time that his case might be studied more thoroughly, suggesting that a little later on it would probably be advisable for him to go south to spend the more rigorous part of the winter season.

A. C. Martin, carrier on R. F. D. No. 1, has not been getting the full benefit of the new top recently put on his cart, during the moist weather of the past week. A granger on the route had piled a lot of cabbages at the roadside, the appearance of which did not exactly suit the horse he was driving and as a result of the little unpleasantness the cart was tipped over, the top demolished and the carrier used all the same as a mud boat for a distance of several feet along the highway. But it all comes out in the wash.

The need of another primary teacher in the McMinnville public school becoming too great to be ignored, the directors have fitted up a room in the Cook building and employed Miss Fern Stout as teacher. The Rev. J. F. Claycombe of Kentucky has accepted the call of the Cumberland Presbyterian church of this city and is expected to arrive here with his family between the first and fifteenth of next month. Farmers' mutual telephone lines are being established quite rapidly in this vicinity, the circuits being connected with a general switch board in town, the expense of maintaining which is borne pro rata by all connected therewith. It will be only a matter of a few days when the switch board will be in place and then you can "hello" all over the country. Register.

Leave your order at Wilson's Grocery for Thanksgiving turkey.

Fresh bread at A. B. Cooper's, first door east Hollingsworth's furniture store.

Chas. Haworth of Pendleton came down last week and has been visiting friends in this vicinity.

A drop in undertaking goods at T. B. Cummings & Co. Call and get prices before buying elsewhere.

H. Cooper made a trip over into Washington this week in the interests of the Yamhill Coal & Oil Company.

The metal stands Hodson Bros. are giving with \$15 cash purchase are models of beauty and an ornament to any home.

K. C. Eldridge was down from Independence last Friday on business. He is establishing a creamery at Jefferson but will continue to operate the one at Independence.

Emmor Ware, a half brother of Mrs. Edwin McGraw, arrived Saturday evening from his home in Southern Indiana. He is making his home with President McGraws and is attending Pacific College.

"Why, that looks like city work—That's different from what you see in most country offices," remarked a man the other day who has been about a good deal, on seeing a letter head printed at the Graphic office. The Graphic job department always endeavors to turn out work worthy of such a compliment.

A. W. Rees, George W. Mitchell and Walter May who have been engaged in the land department of the Southern Pacific for some time returned from a trip into the mountains last week, the weather having become too bad to remain longer in the lumber. Mr. Rees went to Portland the first of the week with the expectation of doing some inside work for the company while the weather is bad.

John Hutchinson has been up from California during the week looking after some business interests. For some time he has been pulling down the top notch in the way of salary in drilling for oil but the company lowered the wages and he concluded to take a lay off and run up here. Since coming away he has received a call from the old company at the old scale of wages and he will return in a few days.

Call at Elmer Bros. store on Wednesday and examine Miss Flora Bell's line of Portland millinery.

Call and see our magazine clubbing list. Quite a few magazines at half price. C. F. Moore.

Al McCully, engineer, came up from Butteville Tuesday and resumed work on the Steamer Grey Eagle.

N. C. Marks of Heppner visited in town with his son Owen, who is in college, Tuesday night. He expects to leave for Indiana in a few days for the purpose of selecting a car load of Short Horn cattle which he will bring out. A banker of Pendleton named Wade will go with him.

The little gale of last Monday made Ervin Scott's ride over R. F. D. No. 2 rather exciting. His route lies mostly through a timbered district and he had to keep his weather eye sharply on the lookout to escape falling limbs and crashing trees. His nearest escape was when a dead tree fell across the road only a few feet ahead of him.

A. M. Hoskins wheeled it over from Medford Sunday and visited in town a few days with friends. C. E. Hoskins received a letter a few days ago from a party in Yamhill county stating that a small colony from that section would be here in a few weeks to spy out the land with a view of looking in this part of the country.—Gold Hill News.

A peculiar condition in river navigation exists. When the water reaches 4 1/2 feet above low water stage, the locks at LaPayette are inoperative, yet the water is not high enough to permit boats to go over the dam. When the water is high enough to grant the latter privilege it is so high that the boats cannot go under the bridges. It catches an "uncouin' and goin'", as it were. Taking last summer as a criterion, we cannot have navigation at the period when these other conditions do not molest, because the engineers go on a strike. The repairs to the locks last summer also drained the water out of the stream so that it did not fill up sufficiently to float boats during the fall.—Reporter.

[If a suggestion from this direction would not be termed impertinent, suppose that our friends up stream fence in the creek next summer and practice economy at the low water stage. The fact is there is not water enough in the classic Yamhill to satisfy the demands of navigation and to allow "old Pds" to make a summer thirst, in conjunction.]

Chas. H. Graves, Ph. D., D. S. T., etc., etc., of this place has recently added to the scientific thought and literature of the day by the publication of a brief treatise on "The Power of Suggestion," in which he treats such subjects as the "Psychology of Disease" and "Therapeutic Suggestion." Dr. Graves confides to a credulous public that "Suggestion is the law of the subconscious mind made manifest in all its operations from the movement of the planchette to ecstatic religion. Suggestion has been

denuded of all uncanny mysticism, amplified and reduced to a science both logical and tangible." This sounds a little hard to the uninitiated and the phobians will probably want to "be showed," but the doctor explains how it will cure most any old thing from the liquor habit to that chronic tired feeling vulgarly known as laziness, hence it must be an unqualified success in the hands of Dr. Graves who says he has devoted years to the study of human nature in all its phases. Dr. Graves is better known through his investigations carried on in the world of phonology, but as indicated above, having entered new fields of applied science he will now be known as "Doctor of Suggestive Therapeutics." The public anxiously awaits the results of the wide practice for which Dr. Graves is industriously waiting.

Fine chocolate creams and bon bon bears, 18 months old. Price, 43c. Must be sold by Dec. 5. E. S. Craven.

The down train Tuesday morning was delayed at Elk Rock until two o'clock in the afternoon. During the night a big rock fell from the cliff above and smashed the trestle so badly that more than a half days time was required for making the repairs. The prospective bridge can't be built across the river above this treacherous point any too soon to please the traveling public.

Monday was something of an eye opener to new comers who had been given to understand that in Oregon the moisture is precipitated in homoeopathic doses and the wind bloweth not where it listeth. The assurance of the first inhabitant that he had never seen anything like it before did not quite satisfy and the tenderest now view with suspicion the signs of the weather gods. It was rather blustery for a foot.

If you are billious and seeking advisers Take DeWitt's Little Early Risers. Just before going to bed. You will find on the morrow. You are rid of your sorrow—That's all; just enough said.

These famous pills do not gripe, but move the bowels gently, cleansing the liver. Their tonic effect gives strength to the glands, preventing a return of the disorder. Caldwell & Co.
