CATARRH THIRTY YEARS.

The Remarkable Experience of a Prominent Statesman—Congressman Meekison Gives Pe-ru-na a High Endorsement.

Congressman Meekison, of Ohio.

Hon. David Meekison is well known not only in his own state, but throughout America. He was elected to the Fifty-fifth congress by a very large majority, and is the acknowledged leader of his party in his section of the state.

Only one flaw marred the otherwise complete success of this rising statesman. Catarrh with its insidious approach and tenacious grasp, was his only unconquered foe. For 30 years he waged unsuccessful warfare against this personal enemy. At last Peruna came to the rescue. He writes:

"I have used several bottles of Peruna and I feel greatly benefitted thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison, Member of Congress.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

OPERATORS REPLY

COAL BARONS HOLD THAT MINERS' DEMANDS ARE UNJUST.

Leader of the Mine Operators Claims the Average Earnings of the Men Are Not Less Than in Other Callings Requiring Equal Skill and Training—Eight-Hour Day Impracticable.

Washington, Nov. 13.—President Baer, of the Philadelphia & Reading coal and iron company, has filed with the anthracite coal strike commission the reply of that company to the statement made by John Mitchell, president of the Mineworkers of America, concerning the points involved in the anthracite coal strike. Following is the text of Mr. Baer's statement:

"To the anthracite coal strike commission: The Philadelphia & Reading coal and iron company replying to the demands of John Mitchell, representing certain anthracite mineworkers, says:

"That it owns 37 collieries situated in the counties of Schuylkill, Northumberland and Columbia, and that it did operate, previous to the strike inaugurated by the United Mineworkers of America, 33 collieries and four washeries and that at that time it had 26,829 employes in and about the mines.

"The demand for '20 per cent increase upon the price paid during the year 1901 to employes performing contract or piece work' is arbitrary, unreasonable and unjust. This company denies there is such similarity between the mining of bituminous and of anthracite coal as to make wages paid in one a standard for the other.

"This company denies that the present rate of wages is lower than is paid in other mines in the same locality and controlled by like conditions. This company is not informed as to the average annual earnings in the bituminous coal fields, but it avers that nearly all of its former employes who during the past five months worked in the bituminous mines have returned to the anthracite coal regions, preferring to work in the anthracite mines.

"This company denies that 'the rate of wages in the anthracite coal fields is insufficient to compensate the mineworkers, in view of the dangerous character of the occupation in relation to accidents, liability to serious and permanent disease, the high death rate and the short trade life incident to this employment.'

"This company further denies that 'the children of the anthracite mineworkers are prematurely forced into the breakers and mills instead of being supported and educated upon the earnings of their parents, because of the low wages of such parents,' or that such wages are below the fair and just earnings of mineworkers in this industry.

"No boys are employed in and about the mines and breakers in violation of the statutes fixing the ages of employment. In addition to provisions for education, ample hospitals for the care of the sick and injured are maintained in the anthracite coal regions. This company avers that there is not anywhere else in the world a mining region where the workmen have so many comforts, facilities for education, general advantages and such profitable employment.

"In general we deny, in so far as relates to anthracite mining, 'that the 10-hour day is detrimental to the healthy life of the mineworkers; that shorter hours improve the physical, moral and mental conditions of the workers, and that shorter hours increase the intensity and efficiency of labor.' We admit that the tendency of national and state governments and of labor organizations is toward shorter hours, but deny that a working day of less than 10 hours will be of real advantage to the workmen engaged in and about the anthracite mines and collieries. In exhausting work a day of 10 hours is too long, but there is no exhausting labor which justifies a reduction of hours of work in the anthracite coal mines."

PORTO RICANS IN HAWAII.

Claim They Are Badly Treated on Plantations—Dole Denies It.

Washington, Nov. 13.—Secretary Hitchcock has received from Governor Dole, of Hawaii, a statement denying reports of ill-treatment of several thousand Porto Ricans. The laborers went to Hawaii at the solicitation of the Sugar Planters' association, and the complaint was made by Pedro J. Agostini, faher of one of the workmen. The governor says, after an investigation, that the desire of some of the laborers to return to Porto Rico results from homesickness, influenced by imaginative persons, and will subside with time, and that the condition of the industrious Porto Ricans is satisfactory and their health improved.

British Naval Station in Pacific.

San Francisco, Nov. 13.—Advices received from Fiji state that the British government is preparing to establish a naval coaling station on the island of Suwarrow, in anticipation of the construction of the isthmian canal. Suwarrow island is to the eastward of Samoa and north of the Cook islands.

The government of Fiji will this year import into these islands 729 East Indians as contract laborers for the sugar and other industries there, applications for that many having been approved.

Working on Cuban Report.

Washington, Nov. 13.—General Wood returned to Washington today, and at once resumed work on his report of the occupation and government of Cuba. He says he has been absent too long to speak with any actual or direct knowledge of present conditions in Cuba with the prospects of the island. He has not yet seen Minister Quesada, nor has he had opportunity to discuss the situation with officials of the United States who are fully informed.

THANKSGIVING PROCLAMATION.

Governor McBride, of Washington, Asks People to Observe Nov. 27.

Olympia, Wash., Nov. 14.—State of Washington, Executive Department, Olympia, Proclamation by the Governor:

"Whereas, the president of the United States, following a time honored custom, has designated Thursday, the 27th day of November, 1902, as a day of festival and national thanksgiving for the manifold blessings of the past year, now, therefore, I, Henry McBride, governor of the state of Washington, in accordance with custom and by virtue of the power vested in me by law, do hereby appoint Thursday, the 27th day of November, 1902, as a day of thanksgiving and prayer throughout the state of Washington, and do earnestly recommend that the people, in grateful recognition of the many blessings we are now enjoying, cease from their usual avocations and dedicate this day to deeds of charity and brotherly love, and in their churches and their homes reader praise and thanksgiving to the Giver of all good.

"In witness whereof I have hereunto set my hand and caused the seal of the state to be affixed, this 12th day of November, A. D. 1902.

"HENRY McBRIDE."

REFORM PHILIPPINE FINANCES.

Vice Governor Wright Discusses Situation and Makes Suggestions.

San Francisco, Nov. 14.—Luke E. Wright, of the Philippines, speaking of financial affairs in the islands, said in an interview that the money market is continually fluctuating.

"A bill to afford the necessary relief was presented to congress, but not passed," said he. "I think that for the benefit of the commerce the matter should again be taken up at the next session of congress. It has been suggested that a Filipino dollar of silver should be introduced into the islands. This dollar should be worth actually 50 cents of our gold money. I think such a coin would remedy the present financial situation. Such a monetary system would be similar to the one now in use in Japan."

"It has been suggested that a limited number of Chinese—say 100,000—be allowed to land in the Philippines. Do you think their presence would relieve the present labor shortage?" was asked.

"I would not like to see the doors thrown open to the Chinese. Skilled labor, yes, if limited, would certainly prove beneficial. Some of the Chinese are very clever, and they would be able to teach the Filipinos many of the industries."

Governor Wright, accompanied by his wife, left for the East Thursday night.

POLITICS IN HAWAII.

Republicans Win a Sweeping Victory All Through the Islands.

Honolulu, Nov. 7, via San Francisco, Nov. 14.—The elections yesterday resulted in a victory for the Republican ticket. Prince Jonah Kuhio Kalanianole, the Republican nominee, is elected as delegate to congress, and the legislature will be Republican in both houses, in spite of five home rule senators holding over from the last legislature, to three Republicans.

The result of the election, it is thouht by Republicans, will be the end of the home rule party. A division of the voters along the lines of Republicanism and Democracy, as on the mainland, is now expected. It is also regarded as disposing largely of the race issue and the issue of royalism in Hawaiian politics, for the campain of the defeated candidate, Delegate to Congress R. W. Wilcox, was largely based on his record as a royalist and on race feeling.

Will Search for Lost Treasure.

San Francisco, Nov. 14.—The Chronicle says that there is no longer any doubt that the object of the schooner Louisa D., about ready to sail for the South, is to attempt to recover a part of the treasure lost in 1862 by the burning of the Pacific Mail steamer Golden Gate off Manzanillo, on the Mexican coast. The wreck of the Golden Gate caused the loss of 200 lives and a property loss of $1,750,000. Much of this amount was in the form of bullion, and a considerable quantity of it was never recovered.

Big Chinese Fire.

Victoria, B. C., Nov. 14.—Mail advices from China report a fire at Kweilin Kwang Si, causing great loss of life and property. The fire, which originated in a firecracker shop, spread and burned several hnudred houses. Many Chinsee were burned to death. The fire burned houses all around the Christian Alliance mission, which was unscathed. The result of this freak of the fire is that many Chinese have come since to the mission building to be baptized.

Little Hope of Finding Egan.

Spokane, November 14.—The hopes of finding Superintendent Benjamin F. Egan, of the Great Northern railway, continue to diminish. All the larger searching parties have come in without finding trace of him. Some experienced woodsmen under pay of the railway company are expected to keep up the search for eight or 10 days more, and there are also individuals who are searching in the hope of gaining the reward offered, but hope is small.

Pennsylvania Mine on Fire.

Shamokin, Pa., Nov. 14.—The Burnside shaft, which employs 700 men and boys, was discovered on fire today. All of the employes got out in safety. The mine is owned by the Philadelphia & Reading coal and iron company. The flames were extinguished this evening, and the mine will resume work tomorrow.

Fresh Corn.

Would you like to know, in the middle of the winter, what fresh corn is like? If you would, get a can of Monopole Corn, and, if it were not for the season, you would probably not know the difference. Monopole Corn is canned where it is grown, only the best and tenderest ears being used. It retains the natural freshness and flavor of the vegetable, and you won't find it half so good if you ask for any other brand. Your grocer doubtless handles Monopole groceries and can furnish you with them. If he will not, write us direct and we will advise you of one who will. Wadhams & Kerr Bros., packers, Portland, Ore.

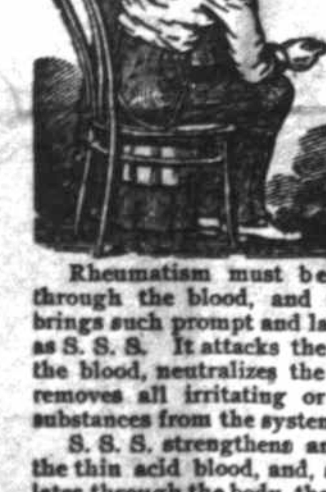
RHEUMATISM
CANNOT BE RUBBED OUT



But a good liniment or plaster will often give temporary relief because it produces counter irritation or reduces the inflammation and soreness. But no sort of external treatment can have any effect whatever upon the disease itself, for ***Rheumatism is not a skin disease,*** but is due to an over acid condition of the blood, and the deposit of irritating matter or Uric Acid salts or sediment in the muscles and joints, and no amount of rubbing or blistering can dislodge these gritty particles or change the acid blood. Rheumatism often becomes chronic, and the muscles and joints permanently stiff and useless and the nervous system almost wrecked, because so much time is lost in trying to cure a blood disease with outside applications or doctoring the skin.

Rheumatism must be treated through the blood, and no remedy brings such prompt and lasting relief as S. S. S. It attacks the disease in the blood, neutralizes the acids, and removes all irritating or poisonous substances from the system.

S. S. S. strengthens and enriches the thin acid blood, and, as it circulates through the body, the corroding, gnawing poisons and acid deposits are dislodged and washed out of the muscles and joints, and the sufferer is happily relieved from the discomforts and misery of Rheumatism.

Louisville, Ky., March 27, '02.
Gentlemen:—I am glad to say that S. S. S. has cured me of Rheumatism. About two years ago I suffered from Rheumatism in my knees and feet, my ankles swelling so that I could not put on my shoes. This continued for several months, during which time I was applying liniments and going by my physician's directions, but derived no benefit. I was told of S. S. S. and tried it. I immediately got relief, and continued the medicine until I was entirely well.
2106 Floyd St. D. J. DUANE.

External remedies are all right so far as they go, but they don't go far enough, and you can't depend upon them to do the work of a blood purifier, and those who pin their faith to liniments and plasters as cures are bound to meet with disappointment, and will be nursing a case of Rheumatism the greater part of their lives.

SSS

S. S. S. is a purely vegetable remedy, does not contain any Potash or mineral of any kind, and can be taken with safety by old and young.

Rheumatic sufferers who write us about their case will receive valuable aid and helpful advice from our physicians, for which no charge is made. We will mail free our special book on Rheumatism, which is the result of years of practical experience in treating this disease. It contains in a condensed form much information about Rheumatism.
