The Newberg band is rapidly coming to the front as a musical organization, and the people are glad to see it. It will be a good advertisement for the town. Miss Minnie Newby, who is serving as missionary with Mr. and Mrs. Silas Moon, at Kank, Alaska, has written an interesting letter of her work there. They have organized a large Sunday school among the natives, her class numbering nearly one hundred. She likes the work very much and hopes to justify the hopes of those who sent her to Alaska. She says the Indians seem to be very patriotic as most all are raising flag poles, each one trying to get the highest. At the time of writing some cold weather was being experienced.
There being but one ticket in the field there was little interest manifested in the city election Monday. If the cow question had not been up the vote would have been decidedly light. In the last issue of the Saturday Evening Post appears an interesting story entitled "A Measure of Wheat," from the pen of a Yamhill county boy, Edgar L. Hampton, now editor of the Seattle Mail and Herald. It is a story of how a young man won a wife and incidentally a fortune on a strike in wheat speculation, and the scene of the tale is laid in Old Yamhill, near Sheridan. Newberg is mentioned in the story as are two or three other Yamhill towns.

It is a very practical Christmas present, though a little delayed, which Mr. and Mrs. J. D. Tarrant of Chehalis Mountain are soon to enjoy, from their son-in-law and daughter, Mr. and Mrs. Jack Smith. Near the Tarrant home is a fine spring of water, and here a hydroelectric dam is to be placed and water piped a distance of some five hundred feet up to the house, at the expense of the Smiths. The improvement will be greatly appreciated by Mr. and Mrs. Tarrant, especially as heretofore they have had to haul or carry water from the spring.
"Happy Ever After."
A romance of some ten years duration, was brought, as the college orators say, "to a dramatic climax and conclusion" last Friday evening when Miss Helen Chamberlin was united in marriage to Rollin W. Kirk. The ceremony was

performed in the presence of relatives and a very few friends, at the groom's home on Meridian street, President McGraw officiating. The event, though not made the occasion of any display was beautifully solemnized and withal was a very pretty wedding.
The bride was very becomingly attired in a gown of cream tulle, trimmed with medallions of satin ribbon and Valenciennes lace. To set the public at rest as to the groom's habiliment we hasten with the assurance that he was "conventionally" dressed in "black."
After congratulations, and the viewing the many bridal gifts tendered, light refreshments were served. At this stage of proceedings some of the professor's students started to attest their appreciation of the situation by turning loose a young charivari, when two or three of the guests slipped out and captured a couple of the young gentlemen—in short "went out into the by ways and hedges and compelled them to come in to the wedding feast," somewhat to their chagrin.
Aside from the fact that it is good form to say nice things of newly married people, Prof. and Mrs. Kirk are deservedly popular wherever known, on account of their worth as much as social graces.
The bride is a young lady of culture and accomplishments, while the ability of the groom, a graduate of Pacific College of the class of '98, is witnessed by the responsible position he holds—the principalship of the Newberg public school.
The fact of the public interest in their happiness is amply attested by the zealous way in which it has tendered suggestions and long manifested "a concern" in the happy conclusion. In the poetic expression of the old autograph album of childhood's days, "May their joys be as deep as the ocean and their sorrows as light as its foam."
SWEET IS REVENGE
Newberg 42—McMinnville 2
This is a very short story but a very sweet one to the supporters of the off gold and navy blue. It tells better than words can do the story of the basket ball game played here last Friday night between McMinnville College and Pacific College. In the face of the returns, few words in comparison of the teams or team work are needed. If it was really a "kindergarten" McMinnville ran up against, as some of the visitors were heard to insinuate on arriving in town, it puts them in status quo as uncertain as it is embarrassing. It is hard to classify that which falls several grades below "kindergarten." McMinnville herself might help in the classification however, as in the past she has been partial to the term "swaddling clothes" when referring to a younger institution.
When the game was called at 7 o'clock, a good audience had arrived to see the sport. McMinnville College was well represented by rooters or rather would be rooters. The team which did towns up the valley are preparing to do the same. No co-operative project has ever been taken hold of all over the country, with such celerity and enthusiasm.
