A school meeting will be held at the public school building this Friday afternoon, at four o'clock, to vote a tax to cover the expenses of the coming year. The directors will find it necessary, at the close of the school year, to finish and fit up the eighth and last room of the building. To cover this, in addition to the running expenses, it will require a levy of a seven and a half mill tax. Some are in favor however, of voting a four or five mill tax, and selling bonds to meet a part of the outlay.

The heavy rains of the past week and more have sent the Willamette and tributary streams on a big tear. The most damage resulted up the river in the vicinity of Eugene where the rainfall was heavier. At this point the river rose over forty feet, covering the warehouses and floating the big scow which is being built by the Spaulding Logging Company. Some passing drift wood tore into a boom of the company's logs Monday night, breaking it up, with the result of a loss of logs to the extent of about two hundred and fifty dollars.

The Mutual Telephone Co.'s line washed town Monday. It has been stretched down Fourth street, and necessitated cutting the tops of the big maples surrounding O. H. Adams' residence, which was luck for that gentleman, as he was wanting the trees trimmed to let in more sunshine. The boys about town are still persisting in shooting promiscuously in the western suburbs. Mr. Maris keeps cats in his garden farm to keep down the moles. Two of these have been shot since the calf Mrs. Emmet was shot in that vicinity, and John White, who owns a vacant house near by, says his windows have been shot through eight times. Parents should look after their ambitions before they go as far as to be arrested for damages.—Reporter.

Dr. Harry Littlefield, lately returned from the Philippines, arrived in Newberg last Friday evening and was accorded a warm welcome by friends and relatives. He does not look nearly so robust as when he left here and he shows the bronze of the Philippine climate, but a good Oregon atmosphere will doubtless bring him to himself again. It is understood that he will at once engage in practice in Newberg again.

People along the line of the Yamhill division of the Southern Pacific railroad are talking of petitioning the company for a morning passenger train out of Portland. Such a train would prove a great convenience, and would put the town along the Yamhill division on an equal footing with the towns between McMinnville and Portland on the West Side. The movement to secure the improved service has taken no definite shape as yet.—Observer.

Dundee takes a front seat when it comes to matters pertaining to the interests of its public school. There is an indebtedness of some two thousand dollars hanging over the Dundee school house and at a school meeting held the first of the week, by a vote of thirty-three to one there was voted a seven-mill tax that the debt might be lifted at once. So far as known this is the highest tax voted in any district in the state.

An Oregon man spending the winter in Kansas writes back that they are not holding any religious revivals in that state this winter. "Owing to scarcity of fuel the whole state is shivering and they have lost their fear of going to a warmer place. . . . Constable John Baldwin of this city is a grandson of the originator of the Baldwin Apple. The first tree grew on the old Baldwin farm in Kentucky across the river from Cincinnati and from it the apples as well as the Baldwins have spread all over the country. John thinks they are all alike good and nobody will dare to question it or he may run them in.—Forest Grove Times.

A Jersey heller calf for sale. Jos. Hall.

As a result of the unavailing state of the Willamette, Oscar Allen is getting a vacation which he has been spending with his parents in Newberg.

From now on the ringing of a new church bell in Newberg will call people to divine worship. The brethren put a sweet toned bell into their new church this week.

The machinist of the American Type Foundry Company, named Smith, of Portland, was in town Monday. In appearance, he is somewhat the double of Dr. Harry Littlefield, whom he took a good deal of pleasure in impersonating about town.

W. C. Kruger writes John Dunston from Los Angeles, that southern California is benefiting the health, but that when it comes to buying property he finds that the real estate dealers are inclined to make a false put up pretty heavy for the climate.

The press was purchased of J. C. Hayer, publisher of the Dallas Observer. Fred Elliott, the capable foreman in the Observer office came down Tuesday morning and put the press in position.

Dayton has the honor of being the first town in Oregon to inaugurate the Rural Telephone system. The system has become so popular that it is spreading like wild fire all over the state, to the dismay of old companies, who, like telegraph companies, have coined money from the people, by iron bound rules of conduct—granting no accommodations except when dearly paid for. Salem will soon be connected from all sections by rural telephones, when business men and citizens generally learn the benefit of the system.—Herald.

The basket ball boys accompanied by Prof. F. K. Jones, Emmer Newby and the writer, went to Monmouth last Friday evening, where the cleanest and most hotly contested basket ball game of many a day, was played, Monmouth winning by the score of 17 to 15. Albany who was to play Newberg here this Friday evening has forfeited the game. Monmouth has forfeited a game to Albany, and this leaves three teams, those of Monmouth, Dallas and Newberg still in the for the penultimate.

The people of this vicinity should be looking forward with pleasurable anticipation to the date of February 12th, as the time of holding the primary oratorical contest, that will choose Newberg's representative for the state. The contest is going to be a hot one. Aside from entertaining orations, there is promised some exceptionally good music in the way of quartettes, glee clubs and orchestra selections. The contest will probably be held in the Friends church where there are good seating accommodations for all.

At the board meeting of the college last Wednesday, H. L. Boardman tendered his resignation as president of the college, to take effect at the close of the present college year. Mr. Boardman has been offered a larger salary than he is receiving from the college and he feels that his resignation is strictly a business proposition. However, his resignation has not been accepted, and same was referred to a committee of five who will take the matter under advisement and make a strong effort to retain Mr. Boardman as president.—News.

The relatives of Earl Hanson received the welcome news here a few days ago that he had been cleared of the charge of horse stealing brought against him a few months ago. It will be remembered that in company with two or three other young men, he brought a band of horses from Eastern Washington, and while selling them near Eberwood was arrested on the above mentioned charge. Here is what the Prosser, Washington, Bulletin has to say of him: Earl Hansen returned to his home in Prosser last Wednesday night, after a confinement in jail lasting nearly four months. He was arrested about four months ago on a charge of horse stealing and he returns to Prosser absolutely cleared and vindicated of the serious charge. Since his arrival he has been the recipient of almost universal congratulation and to say that the young man was pleased falls to express it. "I never had any doubt of my innocence," said Earl, "and the truth cleared me." Mr. Hansen will stay right here in Prosser and grow up with the town. He speaks in the highest terms of his lawyers Messrs. Englehart and Graves and says both these gentlemen had faith in his innocence, and that their hearts were in his cause. The Bulletin is glad to see the innocence of this young man established before the world.
