Mr. Koehler expressed himself as very favorable to the proposed change.

Passengers to Portland on Monday's train, if they had only known it, might have left town singing the refrain, "We won't go home until morning." The freight got off the track in a mild wreck near Oswego, so effectually blocking the way that the evening passenger train did not get by until quite late, arriving here about 11:30. Some of the passengers were fortunate enough to get next to a good oyster supper at Oswego.

The primary debate was held at the college Saturday afternoon for the purpose of choosing the team which will meet McMinnville in the near future. Those chosen to constitute the team were Calvin Blair, Chas. Clark and Elwood Minthin. A second team composed of Carl Nelson, Miss Edith Pugh and Lewis Saunders, was also selected to do service in getting up argument on the other side of the question and in giving the college debators some hard nuts to crack. Before the intercollegiate contest it is the plan to hold a public debate between the two college teams in Newberg, and test the mettle of the boys who are to do battle for Newberg.

The Indians who came to Sheridan about three weeks ago after the coffin for an old man who was almost dead, took the coffin to the sick man's house and set it up in the corner. The old man got out of bed, went into the room where the coffin was, looked it over thoroughly and nodded his head in approval and went back to bed satisfied with the selection his friends had made for him and he was fully prepared to enter the "happy hunting ground." But from that time on he began to get better until now he is up doing his own chores; but he has the satisfaction of knowing that when his time comes to die, his coffin is already bought. The old man is 106 years old and his people were participants in the French and Indian war about 1812, and says he was quite a large boy then, and during that war he saw the white man for the first time, and it was there that he saw and hard the first gun fired.—Sheridan Sun.

They are James C., of Prineville; Wm. T. and Bruce M. of Oakesdale, Washington; Richard J. of Moscow, Idaho; John D. of Schools; Mrs. E. R. Steigleder of Portland; Eva, Geo. F. and Chas. V. Wilson of Newberg.

The following from Saturday's Telegram indicates what disposal Sam Hess has been making of his money since selling his little place: "Sam Hess, of Newberg, was taken to the Good Samaritan hospital this morning for treatment of troubles alleged to be due to too much whiskey. Incidentally Hess complains to the police that his friend Charles Dante robbed him of his money his clothes and his hat. He said he had a pair of shoes left. The Newberg man came to Portland some two weeks ago with something like $200. He at once went out for a "good time," and seems to have continued along the same line until today, when he was compelled to go to the hospital."

About two months ago a traveling animal and snake show visited this city, and pitched its tent between the postoffice and Mrs. Chace's store building. While here a porcupine escaped from its cage and was never recovered by the owners. Assistant Postmaster Fred Toner had noticed of late that some animal had been meandering around the postoffice building during the night time, and he proceeded to set a trap for it. On his arrival at the office Tuesday morning he went to the trap and found it sprung, and in the box was a life-size and angry porcupine. We understand it is Mr. Toner's intention to have the animal shipped to Portland and placed in the city park.—Polk County Observer.

The remains are to be brought to this county for interment, and arrive at Dayton Friday or Saturday. He leaves a mother and sister to mourn his loss. Young Mellinger was the democratic candidate for county clerk in this county in 1900, and ran well. He was a most estimable young man.—Register.

Prof. Hunt, the proprietor, advertises his fifteen educated dogs and monkeys as the most intelligent little animals on the American stage. Other features of entertainment are Gonzolas, the human snake, Lexort, the wonderful trapeze performer, Romanda, prince of magic, Tomey, the funny man, and Trexel, king of slack wire. The performance is billed to conclude with a roaring farce. General admission 15 to 25 cents, reserved seats 35c.

When on the way up the Yamhill river Saturday evening, the O. R. & N. Co's steamer Elmore, loaded heavily with lumber and general merchandise, struck a snag and sank. The curve called Pikepole bend was the scene of the accident, the river being very narrow at that point, the current swinging the boat around so that she rested with bow and stern on either bank. The passengers and crew escaped dry shod. The Elmore was beached the following day, and the steamer Ruth, accompanied by a barge, was sent up from Portland to her relief.

The county treasurer's statement for the month of January shows receipts amounting to $7183 49 and disbursements to the amount of $1,601 55 leaving the bdlance on hand of $5,281 94. K. C. Loop of this city will probably be carrier on the new route when established, and he is one of the busy workers for the success of the telephone line.—Reporter.

A state of belligerency which has existed between a few west end youths, developed into a pitched battle Monday, the casualties being so heavy that Dr. Clough was called to the scene of carnage to minister to the wounded. An air gun, that little implement of the devil's particular handiwork, the source of small boys' joys and sorrows, and of other peoples' consternation and terror—just an every day, pestiferous little air gun caused the hostilities. The way the story goes is that two small boys made a trade of guns, which proved unsatisfactory—to the boy who considered himself cheated in the deal. From the time of the trade "bad blood" existed between the traders, and the passion for a sanguinary settlement was kindled in their savage little hearts. Now most boys would have amply satisfied their "honor" by calling each other a string of naughty names, unusually naughty, or at most by engaging in a few zealous fisticuffs. Not so, these sons of conflict. They went after each other in true gentlemanly style, a la Kentucky, with guns they knew were loaded. The principals in the little affair of honor were Jay Smith and Harrison Sivyer, and they were the whole thing, "seconds" and all. Stationing themselves in their adjoining back yards, they lay low, each waiting to pick his adversary off in an unguarded moment, Filipino fashion. The suspense became painful. Master Sivyer became curious, and his curiosity was his undoing. He "peeked" to see what Smith was doing, whereupon Smith proceeded to do a plenty. He drew a quick bead, and pulled the trigger, the shot taking effect on young Sivyer's cranium above the eye, and putting that young hopeful out of business. Dr. Clough was called and cut out the shot. As would be supposed, the affray caused some bitter feeling between the families concerned, and there were rumors of the case being carried into court, but the officers discouraged this mode of procedure. The best settlement would have been effected had the mothers in the case instituted a little Hague tribunal of their own, turned the youthful belligerents over their knees, and arbitrated with a good quality of shingle.

The people of Newberg and surrounding neighborhood are called to meet on Friday afternoon of next week in a "good roads" meeting. The people of Oregon are finally waking up on the public highway question, and such meetings are being held all over the country to devise means of making better roads. The question should interest all alike, business men of the town and farmers of the country. The citizens generally should take sufficient interest to be in attendance at the meeting, Friday afternoon February 20.

The big barge which the Spaulding Logging company has been building here has been completed and is being launched as the Graphic goes to press Thursday afternoon. It will first be taken up the river and will be engaged in carrying stone from the mouth of the Luckiamute river to the government revetment at Independence. After that work is accomplished it has the little stint of transporting some eight thousand cords of wood from up and down the river to the Oregon City pulp mills. The logging company contemplates building another barge soon similar to this one.

Basket Ball.

The college boys got it waxed to them in basket ball at Dallas Friday night by the score of 19 to 8. Aside from the score they are only fairly well pleased with the game, as they look upon Wilson, the main standby of the Dallas College team and at the same time its coach as a professional. Here is the Dallas write-up of the game: The contest for league honors between Dallas and Newberg basket ball teams at the gymnasium here Friday night, was beyond all doubt the most exciting and hotly contested game ever witnessed in the Northwest. The building was packed to the doors, many being unable to obtain admission. All sections of the league were represented and many outside colleges, among which were Willamette and Corvallis both teams having many supporters. The first half was notable for the tremendous rush on the part of the Newberg team, which was able to keep the ball in its own territory, but the splendid work of the Dallas boys prevented a score. Intense excitement prevailed and the "gym" rang with the yells of the different rooters. At the end of the first half the score stood 3 to 5 in favor of Dallas. Kramien, the Newberg center is a host, and was a match for Poling the Dallas center. At the end of end of the game the score was 8 to 19 in Dallas' favor."

This game gives Pacific College the middle position in the championship game, she having defeated McMinnville and Albany and been defeated by Monmouth an Dallas. Had the game with Monmouth been played here as by rotation it should have been, Newberg would undoubtedly have won and been one peg nearer the pennant. Considering the fact that they have had no outside training, the boys here have put up good basket ball this season.

The Easy Pill.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. F. H. Caldwell & Co.

Quit the sugar trust—don't get sweet on anybody male or female. Boycott the match trust—don't get married. Quit the whisky trust—drink buttermilk and catnip tea. Quit the oil trust—the next world will be hot enough to make up for any chilliness in this one.

Tendency of Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to it. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by using Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by C. F. Moore & Co.
