

THE NEWBERG GRAPHIC.

R. H. WOODWARD, Editor & Publisher. W. C. WOODWARD, Associate Editor.

FRIDAY, MARCH 13, 1903.

The Telephone-Register has blossomed out into magazine form. Success to Mr. Harding in his determination to be thoroughly progressive.

The man who on every occasion which offers, makes it a point to tell the people how fast the country is going to the dogs, may consider himself a reformer of a certain type.

In line with its progressive policy of advertising the state, the Southern Pacific company has gotten out a valuable folder, giving a comprehensive description of Oregon—her resources and industries, climate and general advantages.

Stock Farms For Sale.

390 acres—This land fronts on the Willamette river, about three miles south of Newberg, one mile from R. R. station; about 200 acres in cultivation—will make a fine dairy farm.

147 acres—This is a very desirable farm two miles from Wapato on the R. R. four miles from North Yamhill, on county road. 100 acres in cultivation, well fenced, fair buildings, good orchard and plenty of water.

166 acres—Two miles north of North Yamhill, about all in cultivation. Has a fine prairie orchard of 25 acres in full bearing, fair house and barn, but needs some repairing. Good new fruit dryer, and the fencing all in good condition. Good spring water.

We call attention of home seekers to the above described farms from the fact that these places have come into the hands of the present owners through the foreclosure of mortgages.

The prices at which they are offered are much lower than the prices at which similar lands are held by private owners in the same district. Call on, or address me and get prices.

Disease Viewed From Two Directions.

In affirming that disease is in origin a perversion of blood supply or some interference with nervous mechanism, the Osteopath is defining disease from the standpoint of its causes, whereas, the science of medicine, from time immemorial, has been accustomed to view disease and treat it wholly as an effect.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated in the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of my cough, strengthened my lungs and restored me to my normal weight, health and strength."

The Benefit of Change.

We are like house plants: We need a change of soil now and then—to be replanted. New scenes, new experiences, new surroundings—a change of climate, dry air instead of moisture, sunshine in place of cloud. This is sometimes essential to health. These are conditions near at hand. Take a month or two in California. Plant yourself for a while where there are no irritations, where the hotel is beyond criticism, the landscape pleasing, and where warm sunny weather invites to walks and drives. Pure dry air, and the increased electric influences of sunshine are vastly helpful.

You can make this trip at very little expense, and enjoy a ride over the scenic Sitkyou and Shasta mountains, which, at this time of the year with their snow covered peaks, are unsurpassed for their grandeur.
