Hood's Sarsaparilla

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." SUSIE A. HAIRSON, Withers, N. C.

Hood's Sarsaparilla promises to cure and keeps the promise.

Pride.

Pride does not consist in imagining yourselves better or cleverer than other people. It is, rather, shown in a sensitive, irritable temper toward others and an undue anxiety as to their opinion of you.—Rev. W. E. Bentley.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

RHEUMATISM

An All the Year Round Disease.

Rheumatism does not come and go with winter time always; in fact some suffer more during the Spring and Summer than at any other season. When the blood is charged with Uric Acid, Alkali and other irritating poisons, then the system is in the right condition for Rheumatism to develop, and an attack is liable to come at any time, Winter or Summer.

Rheumatism, because it attacks different parts of the body, and is sudden or slow in its action, is given various names such as acute and chronic, muscular, articular, inflammatory, mercurial and sciatic, but it is the same old acid blood that causes all. Some are constant sufferers, while others have only occasional spells of Rheumatism but either kind is wearing upon the constitution, and in time produces stiffness in the muscles and joints, and sometimes the acids thrown off by the blood settle upon the valves of the heart and ends suddenly and fatally.

It won't do to let Rheumatism run on. It is a dangerous disease, and you can never tell where it is going to strike. Home remedies, plasters, liniments and such things as produce counter-irritation, are soothing and may relieve the pain temporarily, but the polluted, acid blood cannot be reached by external applications.

Rheumatism must be treated through the blood, and no remedy brings such prompt and lasting relief as S. S. S. It attacks the disease in the blood, neutralizes the acids, and removes all irritating poisons and effete matter from the system.

S. S. S. strengthens and enriches the thin acid blood, and, as it circulates through the body, the corroding, gnawing poisons and acid deposits are dislodged and washed out of the muscles and joints, and the sufferer is happily relieved from the discomforts and misery of Rheumatism.

S. S. S. is a purely vegetable remedy, does not contain any Potash or mineral of any kind, and can be taken with safety by old and young.

Rheumatic sufferers who write us about their case will receive valuable aid and helpful advice from our physicians, for which no charge is made. We will mail free our special book on Rheumatism, which is the result of years of practical experience in treating this disease. It contains much interesting information about all kinds of Rheumatism.

The Barred Road.

"There is only one road to success in life," said the man who had made his lucky and retired.

"And how shall I know the road?" inquired the budding young man.

"Well," replied the man with the lucky, "you go right along this path of adversity until you reach the first turn to the right."

"Yes, yes," "And you'll find a road barred off with a gate and a sign that says, 'No Trespassing.' Well, that's it."

Her Own Idea.

"Your daughter," said Mrs. Oldcastle after being conducted through the newly finished wing of the magnificent palace occupied by the Ballingtons, "has such a splendid vocabulary!"

"Do you think so?" her hostess replied. "Josiah wanted to get her one of them escriptores, but I made up my mind right at the start that a vocabulary would look better in a room furnished like hers even if it didn't cost quite as much."

An Insinuation.

Green—Say, do you know how it feels to be kicked by a mule? Brown—No, I don't—and what's more, I don't want you to show me.

THE THREE GIANTS.

The largest financial institutions in the world are the three great Life Insurance Companies of New York, often called "The Three Giants." During 1902 the combined increase in amount of insurance in force in Oregon in these three companies was \$284,109.00.

During the same time the Penn Mutual, of Philadelphia, made an increase of \$1,028,125.00. There are good reasons for the popularity of the Penn Mutual; send for free copyrighted booklet, "How and Why," Sherman & Harmon, general agents, Marquam building, Portland, Oregon.

The Reason.

Little Rollo—Pa, why does popcorn pop?

Mr. Hennypeck—Because, my son, popcorn, like men, doesn't know any better.

The New Garden Pea.

The illustration shows a pea of comparatively recent introduction, which has been tested by market gardeners in all sections of the country and found to be all that is claimed for it. The variety seems to be well named "First of All." The peas are round with hard shell so that they may be planted when the frost is barely out of the ground and before it is safe to put in the wrinkled sorts. Its main good points as claimed by the introducer are the general excellence of the variety, its heavy yield, size of pod and regularity of ripening. It is extremely early, the peas of good size, well filling the pod and the plant, while a strong

grower, is dwarf. The flavor of the peas is said to be unsurpassed by any other variety. Those who grow peas for market will do well to make a test of this variety and see if it is worthy, with them, of extended cultivation.—Indianapolis News.

Handy Device for Gardeners.

Here is a handy device which may be readily made at home, and one that will be thoroughly appreciated by market gardeners who have large quantities of vegetables to prepare for market. The device consists of a box open at both ends, made of boards a foot long and of any desired width. These boards are used to make the sides and the bottom as shown in the lower part of the cut. To one side board is screwed a section of an old scythe blade, the edge being sharpened so that it will cut readily. Across the top of both side boards, in the center, cut a slit about an inch deep. Lay the string in these cuts and place the vegetables to be bunched on it until the string touches the bottom of the box. When the bunch is of the desired size tie it with the string and then bring the string in contact with the edge of the scythe blade attached to the side board. The work can be done in this way quickly and the bundles

will be neatly and firmly tied. The device costs but a few minutes of time and will pay for itself many times over during the season.

Sheep on the Farm.

A small flock of sheep can be profitably kept on any farm where sheep-killing dogs do not too much abound. Where few, just as where there are many kept, they should be of some recognized breed whose proclivity is for fine wool or fine mutton, or for both wool and mutton, as the farmer may choose. The dual purpose sheep will generally prove the most satisfactory, and there are such that will yield a heavy fleece of good wool and leave a carcass that will make from 75 to 100 pounds of excellent mutton, which when properly butchered ought to bring from \$6 to \$8. There is no live stock, except goats, that can be grown at so little cost as sheep, and there is no animal that exerts so good an influence on the farm as destroyers of weeds and fertilizers of the soil.

The Bees in Early Spring.

In looking over colonies early in the spring choose a warm, sunny day, and be careful not to chill the brood by long exposure. If you open a hive, know just what you want, and do it expeditiously, and close up the hive again. If you have the bees packed in chaff, do not be in a hurry to remove the packing, as the bees spread the brood and arrange matters for the temperature the packing gives, and should you remove the packing too early some brood may be chilled and the colony cannot make headway as rapidly.

Tired Out

"I was very poorly and could hardly get about the house. I was tired out all the time. Then I tried Ayer's Sarsaparilla, and it only took two bottles to make me feel perfectly well."—Mrs. N. S. Swinney, Princeton, Mo.

Tired when you go to bed, tired when you get up, tired all the time. Why? Your blood is impure, that's the reason. You are living on the border line of nerve exhaustion. Take Ayer's Sarsaparilla and be quickly cured.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine. Follow his advice and we will be satisfied. J. C. AYER CO., Lowell, Mass.
