The Board of Trade met Fri-
day evening according to ad-
jourment, but the special com-
mittee which is endeavoring to
arrange right of way for the
proposed switch reported that
some unexpected obstacles had
been met, which prevented a
definite report. An adjourned
meeting was therefore called for
Monday evening, but as the
committee had made little or no
progress in the negotiations, it
was continued, with instructions
to call a meeting when the work
desired had been accomplished.
It is understood that the com-
mittee is getting matters satis-
factorily adjusted, or about so,
and expects to report at a meet-
ing to be held this (Friday)
evening, after having spent the
day in Portland conferring with
Southern Pacific officials.

Coroner T. B. Cummings was
called up to McMinnville Sunday
evening to hold an inquest over
the body of a man named Trip-
lett, who was found dead in bed
at his home near town by a
neighbor. The man had not
been seen since July 6, but as he
was rather eccentric, nothing
was thought of the matter.
During all this time his horse
had been hitched in the stable
without care, but was able to
klick at the first man who
stepped into the stall. The jury
found that the deceased came to
his death by natural causes.
Webb Cummins accompanied
Coroner Cummings to the
county seat and served on the
jury.

the close of the evening, Mrs. J.
C. Hodson, in behalf of the
church, spoke eloquent words of
appreciation of Miss Menden-
hall's service here, response be-
ing made briefly by the pastor.
Miss Mendenhall left on the fol-
lowing morning, first to take a

companied her on the trip up the

WATCH REPAIRING.

If you have a fine watch, be
very careful to whom you give
it to be repaired. Often
there's nothing much the mat-
ter. Maybe the hair spring is
caught; a touch may relieve it.
If cleaning is necessary, the
work is carefully done. Not
infrequently rust has to be re-
moved—as hard to see how
rust comes to the protected
works as to see how dust gets
in; yet both do, especially
dust. Can't tell all the ways a
watch gets ailing. If yours
don't run well, something is
wrong. All machinery re-
quires attention at times.
Bring it in for examination.
Charges are reasonable. We
have correct time ticking here.
Make use of it, or we will
regulate your watch, free of
charge.
