A. B. Parker, of Spokane, Washington, made a visit here with Mr. and Mrs. J. M. Wright, arriving last Friday evening and returning home Monday morning. Mr. Parker formerly resided in Indianapolis, Indiana, but for some time has been jobbing paints from Spokane for the Cleveland Paint Co. for the Pacific coast states.

There are men residing not a thousand miles from Newberg who would feel insulted if they were told that they loved a bottle of whiskey more than they love their families, and yet they spend their hard earned cash for drink when they are well aware their families are in need of the money. This certainly shows a decided preference for the bottle.

If our dead are to be properly cared for in the future, a larger burying ground must be provided at an early day. The cemetery owned by the Friends church is now pretty well taken up, and since the G. A. R. grounds and the Everest cemetery adjoining have been closed against outsiders, some steps ought to be taken soon to provide for the future.

Oliver Cash and wife and the father of the first named are visiting with Herbert Cash on Chehalis mountain. Oliver Cash is in the employ of a Los Angeles company that makes a business of putting up a fruit juice as a popular drink, made from oranges, and he is on his way to Chicago, where he will introduce the goods. The home of the elder Mr. Cash is in England, and he will return to his home soon.

Miss Gertrude Brewer, the Indian maiden, whose home is five miles out from Tacoma, and who visits Miss Sibyl Woodward occasionally, has gone to Chillico, Oklahoma, to engage in work in the music department in the Indian school located at that place, at a salary of sixty dollars a month and expenses. Mrs. Amelia Bashaw died last Thursday, aged eighty-three years. She had made her home with her daughter Mrs. Peter Bashaw for three years, coming here from Wisconsin. Pneumonia was developed some three weeks ago and owing to advanced age the disease made rapid progress. The interment was in the city cemetery, Saturday.

On account of the loss at the college boarding hall, occasioned by the necessity for burning much of the bedding to prevent contagion, some of the ladies have already made several new comforts and raised some money to assist in buying new mattresses. They wish to say to the public that if any one feels like assisting in this worthy cause the help will be appreciated. Donations of new bedding or cash may be left at either of the banks.

Owing to numerous other things to claim the attention of the people, very few responded to the call for a meeting of the republicans on Friday evening. J. C. Hodson was elected president and M. O. Pickett secretary of the club. It looks now like so many people were getting anxious to vote for Teddy that the organization of Roosevelt clubs in this neck of the woods was hardly necessary. Still it may be prudent to provide a way of escape for a lot of enthusiasm that is being bottled up for campaign purposes.

N. C. Maris, of Hot Lake who has been spending some time in Portland lately getting out a catalogue of the Wade herds of Short Horn and Hereford cattle and making arrangements for a public sale of the stock, spent Sunday in town with his sons Paul and Ralph. The sale will be held March 12 at Pendleton. The financial failure of C. B. Wade, of Pendleton, who owned the stock farm, of which Mr. Maris has had charge during the past year, puts him out of a job, but his ability as a manager of blooded cattle is so well known among the cattle men of Oregon and Washington that it is not likely that he will be without a place very long.

McCollum left here Saturday for Grants Pass, where on her arrival, she expected to be married to a young resident of that city whose name the Graphic has been unable to learn. Her sister Miss Della went with her as far as Portland. The home of the newly wedded pair will be in Grants Pass.

January was not an unusually dry month and yet the money paid into the city treasury for water rents amounted to \$232.90 for the month. The number of water consumers is increasing rapidly and the rents amount to a sum that is putting the water fund in good shape. However this increase will surely mean a short supply of water during the dry months next summer when water will be needed most for fire protection and for sprinkling and it behooves the council to take time by the forelock and make provision for the inevitable.
