There will be services at the Presbyterian church Sunday morning in charge of the pastor. Subject of discourse "The historical development of the Kingdom of God."

Dr. H. C. Dixon has fitted up and furnished elegant dental parlors in his new building where he is now located and at work. Carpenters are busily engaged on his new cottage just back of his office.

Mrs. F. A. Elliott and son John started back to Illinois on an extended visit Monday. Frank expects to join them about the first of October, and before returning home they will visit the St. Louis fair.

Housman Bros., of Portland, dealers in gents furnishings, have opened up a store in the Oliver building across the street from the postoffice, and are getting right out after business. See what they have to say this week to Graphic readers.

Mrs. Mary L. Hinshaw, who has spent several months in Newberg during which time she has made some good friends, left Saturday for the home of her brother, E. A. Trueblood, in Portland. She expects to return before long to Whittier, California.

O. K. Edwards' little tads were toddling about playing soldier Monday evening and in their march of conquest ran up against the bee hives. A "hot" skirmish ensued, the little fellows being rescued from the scene of battle with from one to two dozen wounds apiece.

E. A. Ellis, who has the contract for doing the excavating for the new city reservoir, is busily at work with a force of hands, and is rapidly bringing the work toward completion. The excavation is fifty-four feet long, thirty-two feet wide and ten feet deep, which makes a pretty good hole in the ground. Enos can be figured on to get to the front on any job in which a spade and shovel are used.

A mass meeting of "common laborers and all other wage earners" was called for Crater's hall Monday evening for the purpose of organizing a federal labor union. Newberg laborers didn't rally very largely to the call, and by half past eight the only ones who had responded were John Bristow and Uriah Badley. Later in the evening however a small company gathered to which C. H. Gram, president of the Oregon State Federation of Labor, explained the purpose and work of the organization. No local union was organized but Mr. Gram stated later to the Graphic that he expected to return at some future date and effect an organization.

Look over the bargains offered by Housman Bros. in the Graphic this week. Prices talk.

Mrs. Rose Brown of San Francisco, well known here as Miss Brandt several years ago when a student of Friends Pacific Academy, visited in Newberg over Sunday with Mrs. H. B. Clough.

H. R. Satchwell expects to leave with his family the latter part of this week. Mrs. Satchwell and children will first visit Linn county relatives, after which the family will locate at Bend, Crook county, a new town situated in the new irrigating district, where Mr. Satchwell is to engage in the plumbing business with a brother-in-law.

The Chehalem Mountain Real Estate & Investment Co. have located and are now ready to do business in Newberg. They request those who have real bargains in farms or other property to offer for sale, to call and list the same with them for a time. They have no time to spare in trying to sell property for you at a price above the market value, neither have they time to spend upon a proposition that everyone else has. They mean business and are going to please their patrons by selling their property if the latter mean business and give their bedrock prices. Give them a call.

Southern Pacific officials in Portland have evidently heard the general chorus of murmur, which has developed into very audible expressions of displeasure on the part of Newberg people, since carpenters have been patching up the old depot. Agent Cutts is in receipt of a letter from the popular general passenger agent, W. E. Coman, in which he gives assurance that the work which has been done on the old depot, which was an urgent necessity, is merely a temporary makeshift and that the thought of a new depot for Newberg has by no means been given up. Thanks for the assurance, but it is getting to be a case of the driver tempting a horse along at a good gait by thrusting a feed of oats out before the animal's head just out of reach. We've been "going some" in Newberg, with the new depot always just ahead of us and Southern Pacific officials must be charitable if our people are growing a little skeptical. The present depot is so inadequate and the site so undesirable and unsatisfactory, that if the railroad company really wants to put their Newberg patrons in a good frame of mind let it give them an adequate new building on a desirable new site—and for good measure let us have another daily train.
