

NEWBERG GRAPHIC.

VOL. XVI.

NEWBERG, YAMHILL COUNTY, OREGON, THURSDAY, AUGUST 18, 1904.

NO. 40.

Local Events.

Al Craven and son-in-law, Jim McPoland, were up from Middleton yesterday, getting pipe for their new hop house.

Monarch records for the Victor talking machine—10-inch disk, 50c; 7-inch disk, 25c. Call early to get selections. The Victor Junior machine reduced to \$20. Moore's Pharmacy.

Granville Everest, with his family and mother, started for the coast Tuesday morning. Granville expects to spend some time while out in observing and studying the dairy interests of Tillamook county.

Intelligence has been received here of the death of Mrs. R. H. Ellis at Tomales, California, after a very brief illness. The Ellis family removed from here to California a year ago. The deceased was a sister of Miss Viola Patton, a former student of Pacific College.

Probably it would not be good form to suggest that the dust-covered pilgrims who are returning from the beach by the wagon route have something of the appearance of "The Last Rose of Summer," but they do look as if they needed a week off for rest and recovery.

George W. Evans a well preserved Grand Army veteran, who moved here from Montavilla a few days ago, has opened a store on Main street, where he has a stock of plumber's fixtures. He will be glad to figure with those who want plumbing of any kind done. See his card in the Graphic, the firm name being A. B. Evans.

Chris Neuman's wife was up from Selwood the other day and reported how they made a strike when on their recent trip to San Francisco. In some sort of a quasi lottery deal Chris drew the lucky ticket which was good for a house and lot in the suburbs of Frisco, valued at fifteen hundred dollars. It is hardly prudent to report such streaks of luck as this, for the probabilities are that a good deal smarter man than our friend Chris could easily thus spend his last cent and have nothing but tickets when he got through.

Dr. H. B. Clough, who has purchased for a home in Newberg the Satchwell property, two blocks north of the postoffice, now finds himself well located for office quarters two doors west of Moore's drug store on First street, and an examination of his equipment indicates that he is much better prepared for his work than ever before. At Rush Medical College, Chicago, he has this year taken special work in advanced methods of diagnosis, and on his return has added to his office fixtures with a view to practice along advanced lines upon which he has been specially preparing himself. His new equipment includes a fine microscope, a nebulizing outfit for treatment of catarrh and kindred diseases, and instruments for examination by latest methods of eye and ear affections, including the scientific fitting of glasses. He has been to much expense in getting other additions to his office equipment for doing rapid and accurate work.
