THURSDAY, APRIL 27, 1905.

Make Saturday the final rallying day of clean up week. There is plenty to be done and it should be done now.

"Will Newberg make as decided a growth this season as last?" This is a question frequently asked and from the number of buildings now going up over town, it seems that an affirmative answer can be safely given.

It is said that there are nearly twenty saloons within six blocks of the Lewis and Clark fair gates. The good people of Portland should rise up and wage war against such an abomination or send for Carrie Nation. The good name of Portland and the whole state is involved.

The good citizen is the man, whatever his wealth or poverty, who strives to do his duty to himself, to his family, to his neighbor, to the state; who is incapable of the baseness which manifests itself either in arrogance or in envy, but who while defending himself is no less scrupulous to do justice to others. —Theodore Roosevelt.

A bill is to be introduced in Congress making it unlawful for jewelry manufacturers and dealers to signify by tag or by any device that any of their wares are of greater purity of gold or silver than the facts warrant. Such a law would safeguard honest dealers and protect the public. Too bad it can't be put in force in time to reassure June brides.

Ordinarily a great fortune is built up like a stone wall—a stone at a time, says an exchange. The young man who declines to lay the first stone because it comes so far short of a wall, will never make progress in financial masonry. An immense proportion of the people in this country live up to their incomes, laying nothing by for the traditional rainy day. Because they cannot save up \$1000 in a bunch, they save nothing. The greatest financial kings of the world have not been above taking care of the pennies even. The great financial institutions look after even the fractions of pennies.
