

RIOTING IN JAPAN

Mobs at Yokohama Attack Police With Fire and Sword.

TROOPS NOW GUARD THE CITY

Ninety-Eight of the Mob Leaders Arrested—Forty Policemen Are Wounded.

Tokio, Sept. 14.—Advice from Yokohama say that a riot occurred shortly after midnight Tuesday. The mob was made up of two sections, of about 5,500, mostly coolies and outcasts. Eight police boxes were demolished and burned.

The mob directed its attack against three objects, the police stations, the residences of the customs officials and the large commercial houses. Four hundred troops were sent from Tokio on a special train a little before dawn, and soldiers are now guarding the consulates, the warehouses containing explosives and the oil tanks.

During the riot the police used drawn swords, while the mob was armed with pistols and sword-sticks. The casualties among the police were three severely wounded and 37 slightly injured. Ninety-eight of the mob are under arrest.

The mob set fire to the police boxes by soaking hats in oil, firing them and throwing them at the object of attack.

WITNESSES GIVE EVIDENCE.

Testimony of Positive Sort Heard in Federal Court.

Portland, Sept. 14.—Joel E. Calavan appeared in a dramatic role at the morning session of the Williamson trial yesterday, while in the afternoon Henry Hudson, the genial man of Teno-tonic descent, relieved the strain by posing for a time as the comedian of the trial with such success that even the learned judge upon the bench was forced to smile time and again at the unconscious drolleries of the honest but nervous sheep herder from Crook.

Testimony that will at least be construed as damaging to the defense when the government begins its argument was given at the morning session, while Joel Calavan stated that he had been in Portland under subpoena at both the first and the second trials of the case, but that he had not been called to testify by the government, owing to the fact that he had not told them his testimony, or all of it, until he was before the grand jury at the last sitting. He had also been asked by Dr. Genser to testify for the defense, the doctor telling that all he wanted was for him to tell the truth. Calavan had told Genser that he would not be able to do his cause any good, for he would be compelled to tell the truth if he went upon the stand, and the defense had not called him.

WORK ON NEW ROAD.

Regulator Line Carries Construction Supplies Up the Columbia.

Portland, Sept. 14.—Yesterday morning the Regulator Line steamer carried a large consignment of wheel scrapers from Portland that were unloaded at various landings along the Columbia between Washougal and White Salmon for use of construction gangs building the new road along the north bank, over which trains of the Northern Pacific and Great Northern railroads will enter Portland. The same boat carried large quantities of supplies.

Charles M. Levey, third vice president of the Northern Pacific, executive head of the company on the Pacific coast, is expected in Portland within a few days, according to information received yesterday, and may bring official announcement of the definite plans that are taking shape in the Portland & Seattle company to be incorporated under that name as an auxiliary company.

New Cases On Increase.

New Orleans, Sept. 14.—While the fact that there again were a great number of new yellow fever cases did not give the authorities much concern, it has been the cause of much disappointment on the part of the public. The death of Sister Marie at the Mount Carmel asylum calls attention to the fact that the Catholic church has suffered quite severely during the present epidemic. Sister Marie was the second religious to die, and, besides her, the church has sustained the loss of its archbishop and Father Green.

Plot in Balkans Exposed.

Vienna, Sept. 14.—According to telegrams received from Belgrade, a plot has been discovered there and at Sofia to foment a general outbreak in the Balkans, with a view to compelling the interference of the powers in the hope that Macedonian autonomy would be proclaimed. The alleged plot included an intention to assassinate King Peter, of Serbia, and Prince Ferdinand, of Bulgaria. Those engaged in the plot have been imprisoned.

Conspiring Against Germans.

Victoria, B. C., Sept. 14.—Tien Tsin newspapers publish news of a widespread conspiracy in Shantung to rise against the Germans on September 16. L'Impartial says each family is to provide one fighting man, whose equipment will be paid for by subscription.

FREE TRAVELING LIBRARIES.

How Farming Communities and Villages May Secure Good Reading.

The Oregon Library commission created by the last legislature has been given a number of traveling libraries which it can loan to library associations in farming communities and small villages. Each of these libraries contains 50 volumes of interesting and wholesome books. It will remain in a community for six months and must then be returned to the commission, to be exchanged for another.

To secure these libraries the people of the community must first organize a library association which shall include at least ten tax payers. They must elect a secretary, who may also act as librarian, and who shall be authorized to act as the agent of the association in dealing with the commission, receiving and returning the libraries, arranging for its location and for loaning the books.

The secretary and president of the association shall make application for a library on a blank furnished by the commission. The applicant must promise to provide shelves in a suitable place, to circulate the books to all responsible people in the community free of charge; to open the library for circulation of books at least once a week; to take good care of the books, being held responsible for payment for lost or injured books; to pay transportation charges to and from the office of the commission. Libraries will be sent by freight in strong packing boxes.

The money for these libraries has been given to the commission by people who are particularly interested in having them in small places. The first applicants and those which will make the best use of the libraries will receive them. The number of libraries is small and the state large. Therefore early application is desirable. While the number of free libraries is at present somewhat limited the commission will make any place a permanent station to receive two libraries a year for at least five years, if it will add one traveling library to the state system. This means that an investment of \$50 will bring \$500 worth of books, and that the community will have the use of all the libraries given to the commission.

For further information write to the secretary of the Oregon Library commission, at the Capitol, Salem. Remember that this commission was created by the legislature to aid public and school libraries and to manage a system of traveling libraries.

DIRECT TO ORIENT.

New Cable Will Soon Be Extended to Japan and China.

New York, Sept. 15.—Through American enterprise, the way has been won to connect the Western continent by direct submarine telegraphic lines with the empire of Japan. Clarence H. Mackay, president of the Commercial Pacific Cable company, today made the announcement that his company had secured the necessary concessions to enter Yokohama, Japan, and Shanghai, China.

Yesterday the last step in a series of diplomatic negotiations, which were begun at the wish of President McKinley and which have extended over a period of about three years, was taken, when Mr. Takahira, the Japanese minister to the United States, affixed his signature to the Japanese agreement with the Commercial Pacific Cable company for landing rights at Yokohama. An agreement for landing rights at Shanghai was signed by China several weeks ago.

When these new cables are completed, Mr. Mackay said, their length, added to other cables already laid or about to be built, will form part of a system which extends two-thirds of the distance around the globe.

The cable connections with both Japan and China will be made by extending the present lines of the company, which run from San Francisco through the stations of Honolulu, Midway, Guam and Manila. Japan will be reached by laying a cable from Guam in the Pacific ocean direct to Yokohama. The cable to China will be laid from Manila to Shanghai.

Cholera Claims Its Toll.

Berlin, Sept. 15.—The official bulletin issued today announced that 15 new cases of cholera and four deaths occurred between noon yesterday and noon today. Of the fresh cases one each occurred in the districts of Flatow, Stuhm, Obernik, Czarnikau, Wiratz and Bromberg, three in the Marienwerder district, four in the Graudenz district and two in the Schubin district. Four illnesses previously included in the reports of cholera turn out not to be cholera. The totals, therefore, to date are 179 cases and 65 deaths.

Sweden's Designs Pacific.

Stockholm, Sept. 15.—Political circles disavow any desire on the part of Sweden to oppose the arbitration treaty demanded by Norway, but they point out that only the preliminary negotiations in regard to such a treaty can be discussed at present, as the conclusion of a treaty is impossible until Norway had accepted Sweden's conditions and the latter has recognized Norway as an independent state. The Swedish intentions, it is declared, are wholly pacific.

Rebels Drive Out English Oil Men.

London, Sept. 15.—The correspondent of the Times at Baku says that the English oil companies there have been forced to abandon work owing to threats made by the revolutionaries.

General Office, Portland, Or.

KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted from disordered Kidneys disappear, because the cause has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

CURED OF BRIGHT'S DISEASE.
Mr. Robert O. Burke, Elmore, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began I had to get up from 15 to 20 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 50-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefited.

Two Sizes, 50 Cents and \$1.00.
