Hofar can hardly be blamed for deaying the charge that he is managing Tooze's campaign.

In the past it has been easy for the stay-at-home to charge graft and political corruption up to the bosses who made a practice of fixing conventions, but under the new primary law this easy way of shunning responsibility will be denied him, for one vote counts just the same as another. It is up to the voters to do the fixing.

In Tooze's platform he says he favors a law abolishing the use of passes and yet those who seem to know assert that he has been riding all over the country on a pass, and further that he recently solicited certain railroad officials for passes to be used by his campaign speilers but was turned down. It is evident that it will require a few more nails in that part of his platform to hold it together if all reports are true.

In case there is a candidate for office, who is morally unfit to represent the people in the position to which he aspires and some newspaper has the courage to tell the truth and let the people know the facts, there are always a few harpies who cry out "mud slinging." These are the oily fellows who are "all things to all men," and who desire above everything else to make a record for standing pat, in anticipation of the clean-up at the end of the race.

The Canby Tribune, with Geo. W. Dixon as editor and proprietor, is the latest newspaper to enter the field. In outlining the course of the paper in the present political campaign the editor says he is acquainted with the candidates and will tell the truth about them before the primary election comes off April 20. Horrors! What will the bosses say about a newspaper that dares to assert that the truth will be told about candidates who want the votes of the dear people?

The language used by Rev. J. W. Brougher, in a sermon preached at the White Temple in Portland last Sunday, indicated that he had heard Sam Jones quite recently. Just why a preacher should be given license to use coarse epithets in a sermon, such as he would thrash his boy for using in his parlor at home is not quite clear. The language used in the pulpit should certainly be something of an example for the hearers, and beside, buffoonery adds nothing to the force of a sermon.

County Judge Scott of Salem, who returned from a trip to Southern California a few days ago, said in an interview with a Statesman reporter that he was surprised to find so many closed towns in California, and further that they are prospering better than the wide open towns. It is a slow process but it is beginning to dawn on the minds of a good many people that gin shops and all their accompanying evils have nothing to do with the making of the real progress of a town.

Gloves Lost.

MRS. IDA HORTON,

A SPECIAL WORD

Unless the delicate, exactly adjusted parts of a watch are kept clean and lubricated, they are certain to become worn to a greater or less extent and the movement will surely lose its accuracy. Tiny particles of grit are bound to work into the best protected movement; the oil will become gummed in time and these combined will serve to cut and grind the pivots and cause friction.

Every watch should be thoroughly cleaned and oiled at least once in eighteen months, and if yours has not been cleaned within that time, it should have immediate attention.

We will clean your watch precisely as it would be done in the best watch factories—take the movement entirely apart, clean each wheel, cog and pivot separately, assemble and regulate it—and when you get it back you may depend upon it being in "perfect shape."
