C. J. Edwards, proprietor of
the electric light plant, is con-

Britt, Etta McCoy, Olive Strat-
ton, and Maybelle Edwards.

There was considerable un-
easiness felt in town the first of
the week lest we should lose one
of our promising young business
men, as the indications seemed
favorable for his closing out his
interests here at a sacrifice with a
view of going into the poultry
business in Clackamas county.
The unfavorable symptoms were
brought about by a visit to the
home of his parents when his
mother, out of the kindness of
her heart, sacrificed one of her
hens for the Sunday dinner, and
behold, a shining nugget was
found in the craw. On his re-
turn to town Monday the speci-
men was shown to several of his
chums and all that prevented
a veritable Klondike rush to
Clackamas was a visit to a
jeweler whose test was dis-
appointing. It is evident that
some designing person had
"salted" the hen.

tine party last evening to the

ments were served in which the
scheme of hearts figured appro-
priately.

The new machinery was started
up at the Pressed Brick Factory
the first of the week and every-
thing worked nicely. Mr. Ed-
wards says it will be easy work
to turn out 40,000 brick a day
when they get down to business
with a full force of men.

The city council has under con-
sideration the matter of piping
water from the Snyder spring
northwest of town, which was
purchased a short time ago, in
order to increase the supply for

estimates of the cost can be
figured on.

pected down this week to make

water system. They are formu-
lating plans for a new system

rold building is being fitted up
for the Spaulding Logging Co.
where the latter will remove
their offices. The stairway is
being changed to the outside of
the building and the partitions
rearranged in order to make
more room.

Granville Everest is here visit-
ing with his mother, this being
his first trip out from the Nes-
tucca country since he moved
over there early last spring. He
footed it out from Hebo to Sheri-
dan Monday and on Tuesday
morning came down on the
train. He likes the coast coun-
try, though he says he don't like
renting so well as living on his
own land.

A small blaze, caused by a de-
fective flue at the residence of
Mrs. McLeod, near the site of
the old fair grounds, on Thurs-
day evening of last week, gave
exercise to the fire companies
and a large number of the citi-
zens, little and big, who turned
out at the call of the whistle, but
the fire was all out before half
the distance had been covered.
