Jonathan Bourne Jr.

REPUBLICAN CANDIDATE FOR UNITED STATES SENATOR.

Champion of Statement One.

Jonathan Bourne, Jr., candidate before the Republican primaries for the nomination of United States Senator in Congress, for the long term commencing March 4th, 1907, was born in New Bedford, Massachusetts, February 23d, 1855; was a member of the class of 1877 at Harvard University; came to Portland May 16th, 1878; was a Republican member of the Oregon Legislature in the session of 1885 and the extra session of 1886; was one of Oregon's delegates to the Republican National Convention of 1888 and Oregon's member of the Republican National Committee from 1888 to 1892, and a delegate to the Republican National convention of 1892; and was elected as a Mitchell Republican to the Oregon Legislature in 1896.

Mr. Bourne has been more prominently identified with the development of the mineral resources of Oregon than any other man in the state, having expended in the last twenty years over \$1,000,000 of his own money in the acquisition and development of Oregon mines.

While Mr. Bourne has had his residence and main office at Portland since 1878, he has had another office at New Bedford, Massachusetts, and has carried on the business of his father's estate since 1889, which makes him familiar with many of the large interests and leading men of the East. These qualifications, in conjunction with his tremendous energy, originality, executive ability and experience in business and political affairs pre-eminently qualify him for making an able and influential Senator for the State of Oregon.

Mr. Bourne has always favored extending the direct power of the people over their government as far as possible. He was one of the leading spirits in the Initiative and Referendum movement from 1896 until it was approved by the voters at the June election in 1902. In 1904 he was a member of the executive committee of the Direct Primary Nominations League, and holds the same position with the People's Power League at this time. In all these movements he has been one of the few to guarantee the necessary expenses of preparing and proposing their measures to the people.

He says that the choice of United States Senator should be by direct vote of the people, and that the Legislature should be compelled to elect the man the people select. To accomplish this result, he is championing Statement No. 1 of the primary elections law as the only method by which public opinion may be crystallized and made effective upon the Legislature.

"If I am nominated and elected I will, during my term of office, favor:

- Republican Politics.
- Amending National Constitution for People's Election of United States Senators.
- Publicity Political Campaign Expenses.
- National Control of Corporations in Interstate Commerce.
- Rigid Exclusion of Asiatic Coolie Labor; Good Wages make Good Citizens.
- Legal Limitations Labor Hours for Safety on Railroads.
- Parcels Post, including Rural Delivery.
- Pure Food Laws.
- Liberal Appropriations for Panama Canal, Coast Defenses, River and Harbor Improvements, including Columbia and Willamette Rivers, Coos, Yaquina and other Oregon Harbors, Celilo Canal, Government Canal at Oregon City.
- Fair Share of Irrigation Fund for Oregon.
- Loyal Support for Successful Candidates.
- Rigid Enforcement Statement One.
- Roosevelt for Second Elective Term.

I desire that the following statement be printed after my name on the nominating ballot:

I WILL SUPPORT PRESIDENT'S ROOSEVELT'S DETERMINATION THAT JUSTICE BE DONE ALL MEN.
