

OREGON STATE ITEMS OF INTEREST

GROW RUBBER IN UMATILLA.

Colorado Man Says the Climate and Soil Are Good.

Feedleton—There is a prospect that Umatilla county may become the rubber growing center of the Pacific Northwest in the near future. G. T. Douglas, of Durango, Col., representing the rubber trust of the United States, is here for the purpose of looking over the country and making an examination of the soil. He is now looking over the country in the vicinity of Echo, where the soil and climate is similar to that of New Mexico, Arizona southern Utah and southern Colorado, where the plant is grown very successfully. The plant is said to flourish in dry sandy soil, and in semi-arid districts. Mr. Douglas believes this section to be adapted to the successful growing of the plant which he says requires about two years to come to maturity. It can be put in at from \$8 to \$10 per acre and will yield from \$100 to \$200 per acre. Mr. Douglas will make a report of his investigations to his company in a few days.

Sodaville as Seat of Learning.

Albany—Articles of incorporation have been filed in the county clerk's office for the Mineral Springs college, at Sodaville. The college will be opened next fall in the building at Sodaville formerly occupied by the old Mineral Springs seminary, which closed its doors several years ago from lack of financial assistance. It is now planned to establish a school the equal of any institution in Oregon, except those supported by the state. Classical, scientific, literary, normal, business and musical courses will be taught, and the institution plans to give degrees as high as master of arts.

Demand for Labor in Linn County.

Albany—There is no excuse for a laboring man to complain for lack of work in Oregon this year. In Linn county there is a demand for laborers of every sort, and especially those who will do farm work during the harvesting season, and who are willing to work around a sawmill, or in the woods. Farmers in Linn county are looking in vain for needed assistance to garner their crop, and the lumbering mills along the rivers of Linn, Marion and Lane counties are advertising for help all the time. Many college students are spending their vacation weeks at the sawmills.

Labor Famine in Valley.

Salem—As an illustration of how great is the demand for manual and team labor in the Willamette valley, the Willamette Valley Traction company, in commencing work upon the Portland-Salem electric line, was unable to secure men and teams, and employed a steam traction engine to do the ground breaking. It is quite probable that help will have to be imported from other states in order that the company may be able to fulfill its contracts with the city council of Salem—to have the line completed between this city and Chemawa and ready for operation on or before September 10.

Wasco Farmers Begin Harvest.

The Dalles—Haying is well advanced throughout Wasco county, the bulk of the grain hay now being in the stack and the second cutting of alfalfa has begun. More hay has been cut in the county this year than for many years previous. This was owing to so much of the grain having been injured by heat, making it unfit to thresh. Next week cutting of grain will begin in sections where fall grain is raised, and in most sections barley will be ready to cut by the last of the week. Farmers estimate that about half a crop will be harvested. The fall wheat will be No. 1, but most of the spring wheat will be inferior.

Hot Weather Hurries Harvest.

Eugene—The condition of the crops in the Upper Willamette valley, especially around Eugene, during the past week have been excellent, and all the farmers are happy. The haying season is about half over and the crop to be harvested will be one of the largest for years. The warm wave which has extended over the valley has been somewhat detrimental to the wheat crop, which, according to the farmers, has advanced too far. Harvest hands are reported scarce, even with the good wages offered.

Hot Wave Spoils Prospects.

Moro—The hot wave that has prevailed in this section for the past two weeks has materially shortened the very flattering prospect for a big wheat crop. Reports from farmers are conflicting, but there can be no doubt but that all grain is more or less shriveled and there will be not over half an average crop. Many are already cutting their wheat for hay, but at the present price for hay that will bring very satisfactory returns.

Exhibits for Jamestown Fair.

Salem—Jefferson Myers, president of the Lewis and Clark fair commission, and one of the commissioners to the Jamestown exposition, was in Salem recently closing up the affairs of his commission and also consulting with officers of the state fair board relative to the collection of exhibits for the Oregon exhibit at Jamestown. Colonel Myers says that all exhibitors at the state fair will be asked to preserve as much of their products as possible and the commission will purchase such as is meritorious for exhibit at Jamestown.

FOOD LAW QUESTIONED.

Legal Interpretation of Two Words Means Much to Its Friends.

Salem—Upon the legal interpretation of the words "adulterants" and "adulteration" hangs the fate of Oregon's pure food law when it comes up for decision before Judge George H. Burnett, of the Circuit court, for this county in the case of the state vs. George Fendorick, who is charged with selling the state lard that has been adulterated with tallow. Fendorick, who is a meat dealer in this city, is under contract to furnish the state insane asylum with a quantity of lard, and it is charged by the state dairy and food commissioner that the lard furnished contains a certain percentage of tallow. The point at issue is whether an adulterant in foods means the substitution of a substance which is injurious to the human system for a pure article, and if the court holds that tallow is not an adulterant it will throw the whole act open to technical violation in all lines of trade in foodstuffs.

Big Real Estate Deal at Eugene.

Eugene—One of the largest real estate deals ever made in Lane county was consummated recently when Eli Bangs, Eugene's pioneer liveryman, sold a quarter block of ground at the corner of West Ninth and Olive streets to G. M. Bonnett, a farmer of this city, for \$35,000. A two story brick building and a large frame livery stable building are on the ground, and they are included in the sale. Mr. Bangs secures in the deal a 960-acre stock farm in Harney county, which his son, Abraham, of this city, will conduct.

Grocers Not To Buy Infected Fruit.

Salem—County Fruit Inspector E. C. Armstrong has called upon all retail grocers and secured from them an agreement not to buy from farmers any fruit infected with San Jose scale. The dealers were willing to make the agreement and will keep it in letter and spirit. If the retail merchants prevent the sale of diseased fruit to them, the inspector can give his entire time to watching the farmers who peddle fruit about town direct to the consumers.

Construction Slow.

The Dalles—W. F. Nelson, president of the Oregon Trunk road, says construction work is progressing slowly because of the scarcity of laborers. Mr. Nelson expects to secure plenty of laborers after harvest. It is the purpose of the company to push the road on to Madras, a distance of 110 miles from the Columbia, as soon as it can be built, and then to build through Central Oregon and make connection with some southern road.

Treasurer-Elect Files Bond.

Salem—State Treasurer-elect George A. Steel has filed his official bond in the sum of \$50,000, which was approved by the governor. Later he will be required to furnish an additional bond in the sum of about \$500,000, the amount to be determined by the governor.

PORTLAND MARKETS.

Wheat—Club, 71c; bluestem, 73c; red, 69c; valley, 71c.
Oats—No. 1 white feed, \$32; gray, \$31 per ton.

FOLEY'S KIDNEY CURE

Will positively cure any case of Kidney or Bladder disease not beyond the reach of medicine. No medicine can do more.

FOLEY'S KIDNEY CURE

strengthens the urinary organs, builds up the kidneys and invigorates the whole system.

IT IS GUARANTEED

TWO SIZES 50c and \$1.00

SOLD AND RECOMMENDED BY

R. H. CALDWELL & COMPANY.

Passed Stone and Gravel With Excruciating Pains

A. H. Thurnes, Mgr. Willis Creek Coal Co., Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pains. Other medicines only gave relief. After taking FOLEY'S KIDNEY CURE the result was surprising. A few doses started the brick dust, like fine stones, etc., and now I have no pain across my kidneys and I feel like a new man. FOLEY'S KIDNEY CURE has done me \$1,000 worth of good."

No Other Remedy Can Compare With It

Thos. W. Carter, of Ashboro, N. C., had Kidney Trouble and one bottle of FOLEY'S KIDNEY CURE effected a perfect cure, and he says there is no remedy that will compare with it.
