Defines the Court's Duty.

A. G. Jewett, lawyer, politician and man of sarcastic wit, was once trying Me., his home city. The judge presiding, before being called to the bench had tried many cases against Jewett, who did not entertain a very high opin-

ion of his ability. in his closing argument, Jewett, in deflance of the rules of the court, started in to read some law to the jury. The court pounded on the bench and said: "Mr. Jewett, you must not read law to the jury in your closing argu-

ment." Jewett kept on reading, without so much as a glance at the court. The court in thunderous tones ordered him to stop.

Jewett, who had by this time read all he intended to read, turned calmly to the judge and said : "Did your honor address me?"

"I said," roared the judge, "you must not read law to the jury in your closing argument. I will give the law to the jury. What do you suppose the court 's here for?"

"What is the court here for?" responded Jewett in high falsetto. "I Herald.

THE KING OF **BLOOD PURIFIERS**

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT OURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood

and possessing tonic properties that act gently and admirably in the up-building of a rundown, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against dis-

ease, and health is assured ; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of

Gentlemen:-S. S. S. is used as a family medicine in our home. I myself have taken and always found it what it is obsimed to be. It thoroughly cleaness the system of im-purities, increases the appetite, improves the digestion, and builds up the general health. I have given it to my ohikiren with fine results. It promptly restores the appe-tite and clears the skin of all eruptions. It is a very fine blood tonic and has my hearty endorsement. 124 S. 9th St., Lebanon, Pa. P. H. TT P. H. THOMPSON.

some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-

sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anaemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the discase is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S .- and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.
