When you see a neighbor coming up town with a faltering step and bearing the countenance of a man who has suffered the loss of relatives, you can safely put it down that he has been wrestling with the grip. The family that has not had one or more members down with it in the past ten days has been very fortunate.

Miss Etta McCoy contemplates tendering her resignation as teacher in the public school and returning to her home in Kansas. A sister is to graduate from college and a brother is to be married and she wants to be present on both occasions. She has been a very efficient teacher in the Newberg public school for the past three years.

Station Agent James says he has been railroading for twenty-three years and in that time he has taken just seven days vacation. Nothing connected with railroad work save a human machine will stand such wear and tear. Better lay off a half day Saturday, Mr. James, and go fishing.

A slight increase in the much mooted "car shortage" was made here Wednesday by the train crew handling the down freight, while endeavoring to make a flying switch. The brakes on a box car refused to respond to the touch of the man on top and he, acting promptly and with good judgement, leaped to the ground and saved his scalp, while the runaway car went racing down the track toward the station where it entered the switch on the south side, striking another box car with great force. The concussion was so great that many who heard the crash thought an explosion had occurred. Both cars were badly wrecked and kindling was made of the runaway. The demand for brick is away ahead of the supply at the present time and the coming season promises to be a record breaker in the way of building.

Revival services are still in progress at the M. E. church, under the leadership of Rev. C. L. Hamilton, the pastor. Services are also being held at the Friends church each afternoon and evening, led by Rev. Charles Replogle of Everett, Washington. Some might think the two meetings being held at the same time would conflict, but the pastors agreed that there were enough people in town to attend both. Good interest is being shown.
