The Muck-Raker of the Grocery Store.

"The muck-raker of the grocery store—the novelist who will tell the hungry public the horrors of the open box—has not arrived," writes the editor in the June Woman's Home Companion.

"So far we have heard only of corporate plunder. What we need is a humbler genius who will stoop to small things, who will show us that in the ill-kept grocery store are the breeding places of those germs of the air that are more deadly than the beasts of the jungle.

"Our Own Page" cannot do justice to an expose of the uncleanly grocers—the 'germ trust' we might call them. There are a few things, however, that every woman who reads these words can do to make conditions radically better.

"Don't buy out of the open box or the half-filled barrel.

"Refuse to accept without thorough investigation any goods of brands that are unknown to you.

"Always give the preference to goods that are in the original package—these, in almost every case, have been prepared and packed under thorough inspection.

"Where there are two grocers in your neighborhood or town, patronize the man that keeps the cleanest store and gives you the goods you know about and want.

"From time to time I shall have more to say about why these courses of action are the wise ones, why they must inevitably produce the same salutary effect on this vital everyday business, as we have seen result from the more spectacular crusades of men like President Roosevelt and Governors Hughes and Folk. For the time being I simply give you these maxims: Think about them; talk them over with your friends, see if they do not after all, simply apply the standards of your own housekeeping common sense to the treatment of the things you eat before they enter your own house.

"And remember one thing—an unimpeachable kitchen floor and a sweet smelling ice chest do not prove you a good housekeeper, if your grocery store isn't what it should be.
