The Dorrance Milling company has a force of hands at work building a flume from the mill west of town to a point on the railroad. The water supply is not sufficient for fluming lumber at present but during the winter season it will be a great saving in horseflesh as well as in roads to let the water carry the lumber to market as it runs down hill. The company has bought a donkey engine for hauling logs to the mill which will be put into service this week.

C. H. Christenson, who has his father's farm rented says he harvested about one hundred tons of clover hay this season on thirty-eight acres. Such hay is selling readily at \$12 per ton baled, which, after allowing \$2.10 per ton for baling, shows a good margin of profit. Thirty head of stock are now being pastured on the second crop of clover at \$1 per head per month, and the soil is being made better all the time, instead of being impoverished as it was formerly by continued grain growing. This is what may be termed farming at a profit.

Meeting of W. C. T. U.

Newberg W. C. T. U. held a very profitable session August 14, at the home of Maria Bowerman. The subject, "Literature" was conducted by the literature superintendent, Mrs. Lorena Hodson, in an able manner by questions asked as follows: What papers are published by the W. C. T. U.? What papers published by the anti-saloon league? What papers are published by the prohibition party? How many denominational papers have a temperance department? What other religious papers show strong temperance articles? What effect is it having upon society? One member gained with good prospect for others.

PARKER MERC. CO.

LOOKS IMPOSSIBLE BUT ITS TRUE

CUTTING PRICES ON GOOD SHOES

In the face of existing conditions one would naturally look with distrust upon any kind of a cut price proposition in shoes. Shoe materials and labor almost "out of sight" and going higher all the time, and yet we are actually cutting the prices on certain numbers of Oxfords Ties and high top shoes to close out.

While these last you can secure bargains in the shoe line—if you come early.
