Complaint has been made in the past that Duncan's hall has not been properly warmed when entertainments have been given there, but for the Baraca Male Quartet Saturday night, the ladies promise that the hall will be made comfortable for the audience.

J. H. Douglas, the photo man, leaves this week for a visit with his parents at Pasadena, California, and expects to be gone a month or more. Besides visiting with relatives and friends he intends to take in the principal points of interest, this being his first visit to California.

Mr. and Mrs. I. E. Holt entertained the Epworth League at their home Tuesday evening. Refreshments were served and the evening was spent trying to solve the mysteries of a ring contest and telling stories around the fireplace. The League appreciates Mr. and Mrs. Holt's kindness and another invitation in the near future would be acceptable.

Mr. and Mrs. J. Weatherhead and family entertained their relatives on Christmas day. The guests present were Mr. and Mrs. Horton, Mr. and Mrs. Northup, Mr. and Mrs. Sykes, Mrs. Clayson, Albert Clayson, Lloyd Northup and Loren Sykes. The most interesting number on the programme was, "A story of a by-gone Christmas!" by Grandma Clayson, in which she painted a vivid word picture of her experiences on a Christmas day seventy years ago. The dinner, tree, and programme were enjoyed by all.

At Thanksgiving time Abe Cooke picked raspberries in sufficient quantities for canning, and on Christmas day he says he picked enough for dinner, despite the fact that the birds have been living fat from pickings in the berry patch. On New Years day the editor's dinner table was decorated with a bouquet of nice roses picked from bushes that have had no protection. And the story might be continued in serial form, space permitting, all of which goes to show that despite the few raw, chilly days we have had during the past week, Willamette valley winter climate has been doing the proper thing.

Allen S. Craven was up from Middleton Wednesday interviewing a tooth doctor.

J. L. Hoskins went to Dallas last week to attend the poultry show. He had on exhibition two coops of Minorcas that cleaned up the usual number of prizes. He says the exhibit was not a large one but very good.

Willard Satchell, who is located in the McMinnville railroad office, and who was married at Thanksgiving time to Miss Alpha Stearns, of Albany, was down with his bride a few days ago visiting at the home of his mother, Mrs. M. E. Satchell.

L. S. Otis was in town Monday soliciting subscriptions for a fund for building a church at Rex for the Friends. Since the church was organized there, and in fact ever since the new school building was erected, church services have been held in the school house, but recently objections were raised by some of the patrons of the school and the doors were closed against them. They are meeting with good success in the effort being made to secure funds and they expect to be able to begin to build at an early day.

Jesse Pressnall, the painter, is putting the finishing touches on the inside woodwork of the new hotel in the new Union Block, and it will be ready for the furnishings by the first of next week. Negotiations are on with a gentleman and his wife named Perkins who were up from Portland the first of the week looking the building over and there is little doubt but that it will be leased to them for a term of five years. Newberg now has one of the best hotel buildings in the Willamette valley and when under proper management the house will no doubt receive the patronage of our people as well as that of the traveling public.

Charley Crater, a young man of very steady habits and one who has seldom been known to wander far from his native heath, left home on Thursday of last week headed in the direction of McMinnville in tall reef and rigged fore and aft in his best store toggery. At the railway station he evaded all questions respecting dates, who the officiating clergyman was to be and minor details, but went away looking his best. Friday, Saturday, Sunday passed and as he failed to show up as expected his friends became alarmed and began to use the wires, but without avail. Tuesday morning however he came in on the train, bearing no marks of violence and saying he had been as far as Dallas. Moral—Just preceding the first days of leap-year our young men should be warned of the dangers of wandering about McMinnville, lest the fair damsels of that city, in their eagerness to make a good catch, chase the young things over into Polk.

Under the management of the ladies of the Friends church the Baraca Male Quartet will appear at Duncan's hall on Saturday night. Liberal patronage on the part of the public is solicited.

It appears that some errors were made in figuring results at the senior oratorical contest and changes were made that placed Miss Alice Hayes first, Harry Maxfield second and Arthur Wilson third.

The lower rooms of the Bristow building on First street have been fitted up with nice tables and chairs for the Y. M. C. A. reading room. It will be open on afternoons and of evenings as soon as an attendant can be arranged for.

During vacation the boys' rooms at the college boarding hall are being papered and the floors are being painted. The boys who remained in the hall have been spreading the paint and making things look as "good as new" for the other fellows when they return.

A "Basket Ball Carnival" is billed for Friday night when the awkward squad is to meet the college second team and the faculty team will face a team made up of members of the alumni. It is stated on the bills that none of these teams have been defeated this year. Admission ten cents.

J. A. Hicks died of pneumonia Wednesday evening after a few days illness. Being well along in years and being taken seriously ill from the start he was unable to throw off the disease. He was an old veteran of the civil war and followed the shoemaker's trade for a living. He leaves a wife who is almost totally blind. Funeral services will be conducted at 10:30 a. m. tomorrow by the Grand Army Post.

The Lopp-Peters Company is having blanks printed and Dr. Lopp expects to start out soon on a canvass of the territory within a radius of ten miles of Newberg, to get the names of farmers and dairymen, their location, the number of acres of land they have, the number of cows they are milking, the breed of the cows and number they will probably increase their herds to within a year, with the milk condenser in the market for milk. By the time he gets around and interrogates the cowmen in this circuit, and is interrogated in return by them, he ought to be in a position to write a very readable book on the pros and cons of the cow question.
