Local Events.

Douglas the photo man is expected home from his California visit this week.

Marvin Blair and a young friend of his were up from Portland over Sunday.

The father of W. A. King, in company with a friend who is out from the East, was up from Portland for a visit one day last week.

Prof. J. S. Carrick went to Portland last Friday evening where he appeared on the program as a soloist in exercises held in commemoration of the birth of Bobby Burns, the Scotch poet.

J. C. Smock and his son-in-law and daughter, Mr. and Mrs. Fitch, came up from Sherwood last Monday night to be present and hear the debate in which the son of the latter, Roy Fitch took a leading part.

C. F. Held, the harness man has rented the east room in the building formerly occupied by the Parker Mercantile Company where he will move with his harness business as soon as the necessary repairs can be made.

The David brothers have sold the farm on Chehalem mountain to a Portland party and they are disposing of their stock and farming implements at private sale. They have not decided what they will take up in the future.

The local oratorical contest will be held in the college chapel on Friday evening of this week to determine who shall represent the college at Monmouth where the state oratorical contest will be held. There will be six contestants for the honor and an evening of entertainment may be expected.

Prof. Harry N. Wright and wife, who were connected with Pacific College during the fall term of 1903, are now located at Whittier, California. Prof. Wright having been elected to the chair of mathematics in Whittier College. They left here on account of the health of the latter, which now seems to be good and he returns to the schoolroom for which he is well fitted. Whittier is to be congratulated on account of the selection made.

Miss Nellie Paulsen, who is handling the hazel persuader in the Peavine school district at the west end of Chehalem mountain, came down from the lofty heights last Sunday and attended church in Newberg. From the vantage ground of the location of Peavine she finds it easy to induce her pupils to aim high, since they are at all hours of the day several hundred feet above the valley, and besides, the hoary head of Mount Jefferson may be pointed to at any moment as an object lesson.

In the basketball game played in the college gymnasium on last Saturday night the big huskies of the Multnomah team were too much for the college boys. The latter have played against heavy odds this season, the team being made up of new men exclusively, and since they have repeatedly been pitted against teams composed of old seasoned players of years of experience, they have met with a number of defeats, and still they always come up smiling and do their best. This shows that they are made of the right kind of stuff and they will be heard from in the future. It has always been the policy of the students of P. C. to go in on any sort of contest, no difference what the prospect for winning may be, and get the benefits to be derived from the practice, and taken altogether the record made by them equals that of any college in the state.

Born to Mr. and Mrs. Charles Rittenhouse, on Wednesday of this week a nine pound son.

Will Wight is mounting a very fine specimen of grey fox, which was caught on the mountain last Sunday, for Mr. Rowland.

President Riley, of McMinnville College will occupy the pulpit at the Baptist church next Sunday morning and evening.

Mrs. Clinton Newhouse and daughter Lucille are here from Centralia, Washington, visiting for a month with Mr. Newhouse's parents, Mr. and Mrs. S. W. Newhouse.

As a result of a recent conference held by the head men of the different lodges of the Woodmen of the World in Yamhill county it was decided to hold a big picnic in Newberg on May 28.

James Duncan, who has been located at North Bend, Coos county for the past year, visited with his parents in Newberg the first of the week. He has been engaged in the manufacture of furniture but has recently taken to the road as a salesman for Coos county furniture.

It is now a foregone conclusion that the final game of the basketball league, if it turns out that it is necessary to play a game at the close to determine who the champions are, will be between Dallas and one of the Portland teams, and there has been some talk of trying to have this game pulled off on the Pacific College floor. Newberg is a halfway place between the two points and we have an excellent floor. It is also a sure thing that we could insure a big crowd.

So much interest is being taken in the banquet that is to be given at the formal opening of the Imperial hotel on next Saturday evening that all who have made calls for tickets cannot be accommodated. Senator Caldwell will act as toastmaster and local talent will be given an opportunity to show off their oratorical ability. Tom Richardson, manager of the Portland Commercial Club, with his assistant, W. L. Crissey, will also be present to take part in the speech-making which insures a full evening entertainment. This promises to be the event of the season. The banquet will be served at 8:30.

On Monday night a tryout was held at the college to determine who should make up the debating team to enter the league contest this year, when the contestants for the honors were, Miss Alice Hayes, Roy Fitch, Harry Maxfield and Arthur Wilson, who spoke on the affirmative of the question, resolved that "On the whole strikes have been beneficial." The speakers on the negative side of the question were the Misses Lillian Johnson and Leola Glass and Riley Kaufman. Ralph Rees, of the class of 1907 presided, while Attorney Clarence Butt, Principal R. W. Kirk and E. H. Woodward acted as judges. The debaters were pretty evenly matched all the way through, but the decision rendered gave places to Arthur Wilson, Roy Fitch and Riley Kaufman, with Miss Alice Hayes as alternate.

Rex Cleanings.

The work on the Friends church at this place is progressing nicely. The carpenters employed at present are Chas. Baldwin of Salem, Mr. Burke of Springbrook and John Pettengill of Rex.

Rev. Chas. Baldwin went to Middleton last Sunday where he preached in the Friends church.

Mr. J. Wilson has returned from the hospital in Portland of which he has been an inmate for a week or more.

Rev. Holmes and wife of Chehalem Center, are spending a few days in Rex visiting friends.

Fred Parrett has returned from an extended visit in the East. H. H. Peters spent Monday in Portland.

Our school has been closed on account of the sickness of Prof. Frank Deach for two weeks.

Springbrook Horticulturists Meet

The citizens of Springbrook met last Saturday afternoon to exchange ideas on the various needs of the community.

Since they are all interested in fruit and berry growing the subject uppermost in their minds just now is the winter spraying; so this was discussed in its various phases.

The following resolutions were then read and adopted:

Whereas fruitgrowing is the leading industry in this locality, and

Whereas our orchards have become infected with various fruit pests, and

Whereas our state laws relating to horticulture, if enforced, are equal to the emergency:

Therefore be it resolved, that it is the sense of this meeting that every person who owns or controls fruit trees in this community is in duty bound to spray them thoroughly with the best approved solutions:

Resolved that we uphold the county inspectors and the courts in enforcing our horticultural laws where the same may be found necessary.

Then the idea was advanced that our location on the map ought to be better known, and also the fact that we are doing something and what we are doing; so to this end a committee was appointed to collect facts concerning our products, resources and environments, and furnish them to the corresponding secretary, Willamette Valley Development League, to be used in advertising Oregon.

A committee on permanent organization was appointed to report to a meeting next Saturday evening.

J. H. REES.

A Matter of Interest.

It will be remembered that when J. B. Moran, the superintendent of the Weber-Bussell Canning Company spoke in Newberg recently, the question of planting asparagus for canning and the matter of obtaining roots in sufficient quantities was discussed.

A few days ago C. B. Wilson received a letter from Mr. Moran, in which was enclosed a letter from the California Fruit Canners Association, of San Francisco, which says:

Gentlemen:—We have about 700,000 "Palmetto" asparagus roots that we wish to offer you at a premium. They are first class roots, and were grown for our own use, but the yield exceeded our expectations, and we have not sufficient land to set them out. If you can make use of these we will deliver them F. O. B. cars Oakland, in sacks, for \$1.50 per thousand. This is subject to their being unsold and prompt response. This is much less than it costs to raise them, so if you can use any you ought to get in quickly. The terms are, of course, spot cash.

R. I. BENTLEY,
General Manager.

Mr. Moran says in his letter that Mr. Bussell is not in a position at the present time to take advantage of these cheap roots, but that if the growers about Newberg desire to take it up and grow asparagus they will take the entire output at about three cents per pound, which is about the average price paid in California.

Anyone desiring to consider the matter may confer with C. B. Wilson.

Cheaper Funerals.

The G. A. R. at its last meeting adopted the following resolution: Inasmuch as the expense of burying our comrades has become somewhat burdensome to us because of the excessively high price of caskets, etc.

Be it therefore resolved, 1st, that steps should be taken to organize a company to manufacture caskets and coffins in Newberg, and, that a committee of three be appointed to carry out the object of this resolution.

T. BROUILLETTE,
Post Adjutant.

Valves That Mean Something

We are making every effort to clean up our stock of all odds and ends, and we're backing our desire by prices that have the right jingle—the kind that really influences your buying.

For Two Weeks Only
