Gov. Folk on "Paramount Issue."

"State Prohibition will result in Missouri if the liquor men fight local option," declared Governor Folk in a recent address at Washington, Pennsylvania, as quoted in the Venango Daily Herald, and he continued, "if you leave it to the people they will vote out the liquor business. The worst thing that anti-liquor people have to contend with today is the federal law which permits the men to come in and do exactly what the people have voted they cannot do.

"The question in the minds of the people of the United States today is the liquor business. Wherever you go throughout the whole country you find the people talking, not tariff, insurance or corporation matters, but of the liquor business.

"I don't believe any one will deny that the saloon is an influence for evil, a breeder of crime, just as race track betting is, and this general moral movement in the land, what I call the Era of Conscience, is bringing out clearly the people's opposition to the liquor traffic."
