They advertise to pay the highest market price for all kinds of farm produce and they will also handle produce on commission. Their place of business will be on Main street. The commission business is not represented in Newberg and consequently it would appear that they have struck the proper gait in taking up this line of trade.

The Epworth League Bible study class which has been taught by Rev. Joseph Hall, held its last meeting for the season at the home of Mr. and Mrs. W. E. White on Tuesday evening. As a token of appreciation of the self-sacrificing work of Rev. Hall as teacher the class made up a purse and bought him an easy chair, the presentation speech being made by Miss Eleanor Satchwell. Light refreshments were served. Those present were Rev. and Mrs. Hall, Mrs. Lafond, Mrs. Bartlett, Miss Satchwell, Miss Finley, Mr. and Mrs. I. E. Holt, Wm. Allison, Mr. and Mrs. W. E. White.

Mrs. Mary E. Allen, who recently sold her property in town to Mr. Van Blaricom, is down from Eugene packing her household goods for shipment to Eugene where she resides with her daughter, Mrs. G. E. Metcalf. Among her household effects she has one piece that is well worth preserving. It is a heavy black walnut bedstead that was once a part of the house furnishings in the residence of General Wm. T. Sherman. The Allens lived near St. Louis at the time Gen. Sherman held a public sale of his personal property preparatory to his removal to Washington, back in the sixties, and the bedstead was bought by them at the sale.

John Rogers, of Detroit, Michigan, a member of the firm that the machinery for the milk condenser was bought of, arrived here on Monday and has taken charge of the work of installing the machinery for the plant. He will probably be here a couple of months.

Prof. J. S. Carrick has received an offer for a position as organist in the largest Congregational church at Bellingham, Washington, and he will probably accept. He has acceptably filled the position of music instructor in Pacific College for the past three years and he and his family have made many friends in Newberg who will regret to see them leave.

The Presbyterian church in Newberg is to have a new home. The property on First street is for sale and plans are being matured for a new church edifice which is to be built on a lot bought this week of A. P. Oliver, which is located across the street directly north of the skating rink. Rev. J. C. Blair, the pastor, says work will begin at an early day on the new building which is to be a modern structure.

W. C. Woodward, who is expected to arrive home from Berkeley tomorrow evening, received the degree of M. A. in History and Political Science from the University of California at the commencement exercises Wednesday. So far the month of May has failed to bring warm weather and during the past week cold nights with considerable frost prevailed. Some damage has been done in spots though how much it is too early to determine. The Italian prune crop will be light, though some orchards, especially on the higher ground are reported to be full of fruit. Some varieties of cherries are loaded but the Royal Ann variety is quite spotted, the amount of fruit set in some orchards being exceedingly light. The injury to prunes and cherries however was done prior to the cold weather of the past week.

Secretary Chas. E. Fuller, of the Newberg Brick and Tile Co., says the work of cleaning up about the grounds and other work on the plant is progressing nicely, and he thinks they will be in readiness to start up by the close of the present month.

Hon. J. W. Bailey came out from Portland the first of the week and bought out the entire dairy outfit of Porter Skinner, including his fine dairy herd and milking machines. Since buying the Soper farm on Chehalam mountain a few years ago Mr. Skinner has succeeded in building up one of the best dairy herds in the country and it is much to be regretted that circumstances are such that he has been compelled to part with it. His health broke down some time ago and while he seems to be improving of late he had to let go somewhere, hence the sale as indicated above. The demand for good dairy cows is so strong that Mr. Bailey, who is considered authority on dairy stock nearly always has orders waiting.

The domestic troubles of Dr. Snapp and wife, who recently took their departure from Newberg, seem to multiply rather than diminish, as the following item which appeared in Wednesday's Oregonian will show: "Dr. G. U. Snapp, a physician who has resided for a number of years in Newberg, was arrested last night in Ashland on a warrant issued by Judge Cameron of the Municipal Court in this city yesterday morning. Dr. Snapp will be brought back to the city today by an officer who was sent after him last night on the midnight train. He is charged with the embezzlement of \$1600. The complainant in the case is his divorced wife, formerly of Newberg, and now a resident of this city. She alleges that about two weeks ago she gave Dr. Snapp this sum of money with the understanding that it was to be used in buying her a home. According to her story, neither the property nor the money was given her.
