The End in View.

The Freewater Times states
that a schoolma'am in a country
district not a thousand miles
from Freewater found it neces-
sary to administer punishment
to one of the little shavers, so she
took him across her knee in the
old-fashioned way. Next day the
mother of the child swooped
down upon the teacher and de-
manded what end she had in
view in punishing her child in
that manner. The teacher replied
that she had the same end in view
that anybody has when they
spank a little boy.

An Insidious Danger.

One of the worst features of kid-
ney trouble is that it is an insidious
disease and before the victim real-
izes his danger he may have a fatal
malady. Take Foley's Kidney
Remedy at the first sign of trouble
as it corrects irregularities and pre-
vents Bright's disease and diabetes.
