

NEWS FROM THE NATIONAL CAPITAL

CHANGE IN COINS.

Mints Turning Out Gold Pieces of New Design.

Washington, Nov. 12.—The mints of Philadelphia, San Francisco and Denver have begun coining new \$5 gold pieces, struck on a different plan from any heretofore coined in the world. It follows an idea expressed to President Roosevelt by Dr. William S. Sturgis Bigelow, of Boston, that to permit the coins being piled to a uniform height, a higher or stronger relief might be obtained by depressing the design below the field or face of the coin, instead of raising it above, as usual in all coinage operations. This would provide a flat field and a uniform thickness, the flat surface taking the wear and protecting the relief, the shape of the depression following the outline of the relief.

The same design will be used on the new \$2.50 pieces and all will bear the "In God We Trust" motto.

FIGHT WILL BE CONTINUED.

Government to Take Octopus Rebate Case to Supreme Court.

Washington, Nov. 13.—It was stated at the department of justice that in view of the large amount of money involved, the important questions of law and the popular interest in the case, the government would not rest on the decision of the circuit court of appeals in the Standard Oil case, but that the case would be taken to the supreme court of the United States at the earliest possible date. This will be done by an application to the court for a writ of certiorari. The application to the court for a writ will be submitted November 30.

Attorney-General Bonaparte said that a conference of counsel would be held on Thursday to decide definitely on the steps that would be taken in bringing the case before the supreme court. He said that many important rate cases depended on the final decision of this case, among them being seven or eight on other counts against the Standard Oil company.

DENY SETTLERS MORE TIME.

Delinquent Minidoka Applicants Must Forfeit Lands December 1.

Washington, Nov. 14.—Secretary Garfield has announced that he will grant no extension of time to settlers on the Minidoka irrigation project in Idaho, who have been backward in making their first annual payment to the government. Many settlers who should have paid \$2.60 per acre on December 1 last have not yet paid up, and unless such payment is made before December 1 next, such settlers will become delinquent and their entries will be cancelled and all moneys they may have paid thereon will be forfeited. Settlers under the law have one year grace, but the secretary is unwilling to grant more time than the law allows.

Fight for Colonel Stewart.

Washington, Nov. 11.—The enforced retirement of Colonel William F. Stewart from the United States army five years before the age limit has brought powerful friends to the officer's aid, who announce they will lay the matter before congress at the next session. It is predicted that the hearing will result in the expense of such a personal feud as intensified the Miles-Corbin animosity. Friends of the Fort Grant exile declare that several distinct influences drove Colonel Stewart from the army. Retirement lost the officer at least \$10,000 in pay and the opportunity of retiring with higher rank and prestige.

Bids for Battleship.

Washington, Nov. 12.—The New York Shipbuilding company of Camden, N. J., has submitted the lowest bid for the construction of the new battleship Utah. The bids were opened Monday. The New York Shipbuilding company offered to fulfill the government's plans, installing turbine machinery and guaranteeing the completion of the warship within thirty-two months for \$3,946,000. The bid guarantees that the vessel will make a speed of 20 1/2 knots.

Water Okanogan Lands.

Washington, Nov. 14.—At the beginning of the next irrigation season the government will deliver water to 3,472 acres of the Okanogan irrigation project in Washington, and a charge of \$65 per acre will be made for the cost of bringing the water to the land. This will be divided into ten equal installments with \$1.50 per acre additional maintenance charge. Payments become due on May 1 of each year, the first payment becoming due in 1909.

Rush Work in Klamath.

Washington, Nov. 13.—The reclamation service has announced that the Klamath irrigation project is now 34 1/2 per cent completed. During October four sections of the Keno canal were completed and the south branch canal so far advanced that it will be completed before the opening of next year's irrigation season.

Bids for Baker's Postoffice.

Washington, Nov. 14.—Bids for the construction of the Baker City, Or., postoffice, for which \$20,000 has been appropriated, will be opened November 28. A total of \$5,000,000 provided for public buildings will be covered by bids to be opened this month.

To Recognize Paraguay.

Washington, Nov. 13.—The state department has announced the administration's decision to recognize the new government of Paraguay, which was established as the result of the successful revolution last spring.

FEW CHANGES OF SENATORS

Cummins Will Go From Iowa Kern From Indiana.

Washington, Nov. 10.—The present indications are that the Republicans will have about a two-thirds majority in the United States senate, as the result of the election last Tuesday, or virtually the same as at present. Of the 92 members of that body, 61 hold over, leaving only 31 places to fill. Of these 19 are held by Republicans and 12 by Democrats. Alabama, Arkansas, Louisiana and Maryland already have chosen Democrats, and Kentucky and Vermont Republicans. The other senators of whom successors are to be elected are:

Republicans—Allison, Iowa; Ankeny, Washington; Brandegee, Connecticut; Galliger, New Hampshire; Hasbrough, North Dakota; Heyburn, Idaho; Hopkins, Illinois; Kittredge, South Dakota; Long, Kansas; Penrose, Pennsylvania; Perkins, California; Platt, New York; Smoot, Utah; Stephenson, Wisconsin. All of these will be succeeded either by themselves or other Republicans.

Democrats—Clay, Georgia; Gary, South Carolina; Gore, Oklahoma; Milton, Florida; Overman, North Carolina. All of these will be succeeded by Democrats.

The only senatorships remaining in doubt are those in Ohio, Indiana and Oregon, which are now represented by Senators Foraker, Hemenway, and Fulton, Republicans, and Colorado, Missouri and Nevada, represented by Senators Teller, Stone and Newlands, Democrats.

Roosevelt Leads "Hike."

Washington, Nov. 11.—President Roosevelt yesterday led a party of 60, composed mostly of high officials of the army and students of the Army War college, in a five-mile tramp through Rock Creek park. A portion of the route was up and down hills and over rough roadways, the president frequently taking the small army of pedestrians over barbed wire fences. It was after dusk when the long walk ended, and not a few of the party were much fatigued, while the president was in high spirits and fine physical trim.

Banker to Be Sentenced.

Washington, Nov. 12.—The supreme court of the United States has affirmed the decision of the court of appeals of New Jersey sustaining the verdict of the Monmouth county court sessions which convicted President Albert C. Twining and Senator C. Carmel of the Monmouth Trust & Safe Deposit company, of deceiving a state bank examiner as to the condition of their institution. It was contended that the deception was practiced to cover up the misapplication of \$30,000.

Reputed Minister Comes.

Washington, Nov. 11.—Senator Joaquin Cassanus, who formerly represented Mexico in this country, and whose appointment to succeed Enrique Creel as ambassador to the United States, has for some time been anticipated, reached Washington last night, accompanied by his family. Senator Cassanus denied that he had received any notification of his appointment or that he had been sent to the United States by his government under any special mission.

Twin Sisters Win Court Honor.

Washington, Nov. 7.—Twin sisters, Misses Ethel A. and Florence M. Colford, of this city, have been admitted to practice in the United States Supreme court. They are the youngest women ever admitted to practice before that tribunal, and both are pretty. Their ability got for them an indorsement from the department of justice.

Bids on Eugene Building.

Washington, Nov. 11.—Bids were opened yesterday for the construction of a public building at Eugene, Or. The bidders were as follows: Cambell Building company, Salt Lake, \$55,000; W. O. Heckert, Eugene, \$62,580; Geo. C. Mourer, Salem, \$63,326; Welch Bros., Salem, \$54,957; Charles A. Gray, Portland, \$66,225. No award has yet been made.

Chosen on Fourth Ballot.

Washington, Nov. 12.—Rev. Dr. Alfred H. Harding, who for twenty-two years past has been rector of St. Paul's Episcopal church here, was Tuesday elected bishop of Washington to succeed the late Rev. Henry Y. Satterlee. Dr. Harding was chosen on the fourth ballot, up to which Dr. McGill, also of this city, had led in the balloting.

New Postoffice at Santa Rosa.

Washington, Nov. 14.—The contract for the construction of a new postoffice building at Santa Rosa, Cal., to replace the one shaken down by the earthquake of 1906, has been awarded to Hoyt by the treasury department. The contract price is \$55,550.

Forest Service Depository.

Washington, Nov. 13.—The forest service has chosen the First National bank of Portland depository for the funds of the forest service in Oregon.

MINE EXPLOSION FATAL.

Awful Disaster in Germany Claims 339 Known Dead.

Hamm, Westphalia, Germany, Nov. 13.—The greatest mine disaster in many years in Germany occurred yesterday morning at the Radbod mine, about three miles from this place. There was a heavy explosion at 4 A. M., and almost immediately the mine took fire. Of 380 miners working underground at the time, only six escaped without injury. Thirty-five men were taken out badly hurt and 37 dead were brought to the mouth of the pit. The remaining 302 had been given up for lost.

The explosion was unusually violent, destroying one of the shafts, which had to be partly repaired before the rescue work was begun. In addition the flames and smoke proved to be almost insurmountable obstacles in the efforts of the rescuing parties. A special corps, composed of the men who rendered such valuable aid in the terrible mine disaster at Courrières, France, in March, 1906, arrived upon the scene shortly before noon, but were unable to enter the mine, being forced to await the result of the efforts of the firemen to keep the flames in check.

Meantime heartrending scenes took place at the mine when the dead and injured were brought to the surface, and there were similar scenes in the town when the injured were transported through the streets to the hospitals.

At 1 o'clock the fire had made great headway, and later in the afternoon, after a consultation of the engineers, it was decided that any further attempts to rescue the entombed men would be in vain, owing to the impossibility of entering the galleries. At the same time an order was issued to flood the mine.

Fire reports indicated that the accident was the result of an explosion of coal dust, but the statements of the injured men rendered this improbable and it is not clear just what caused it.

FREIGHT RATES UP.

Railroads Gain \$10,000,000 Yearly by New Tariff.

Los Angeles, Nov. 13.—Ten million dollars a year will be added to the freight revenues of the railroads by the increase in west-bound transcontinental freight rates which become effective January 1, according to the estimate of Fred P. Gregson, traffic manager of the Associated Jobbers of Los Angeles.

Mr. Gregson has just received a press proof of the new tariff, which is issued by the Transcontinental Freight Bureau—the first copy of the new tariff to reach Los Angeles.

"The increase in rates is not nearly as bad as I feared it would be," said Mr. Gregson, after going through the tariff.

"One item which might work a hardship on our foundrymen and some manufacturers is the rate on certain kinds of iron, which has been raised from 75 to 80 cents and on which the rate is the same on the unfinished as on the finished product.

"Live poultry in carload lots is raised from \$2.00 to \$2.20 a hundred weight. Boots and shoes are raised from \$2.50 to \$2.75, plaster from \$7 to \$8 a ton, while hardware and structural iron men are touched up all along the line. Plumbers' supplies, building hardware, drugs and chemicals, glassware, electrical machinery and many other items are raised."

WAR AGAIN POSSIBLE.

All Depends on Note to the Powers From Austria.

St. Petersburg, Nov. 13.—Although an air of outward calm is maintained at the Russian foreign office, the Balkan situation has now reached an acute stage, where everything depends upon the nature of the note which is expected from Vienna today and the outcome of the mediation which Russia, France and Great Britain have undertaken at Belgrade, at Austro-Hungary's request, with a view to limiting the belligerent activity of Serbia.

If mediation is not successful, war is recognized as a possibility in authoritative circles. The Austro-Hungarian-Serbian relations are too strained, it is believed, to permit present conditions to continue indefinitely.

The Austrian note will definitely outline the attitude of that government regarding discussion of the annexation of Bosnia and Herzegovina and possible compensation to Serbia and Montenegro, and the nature of the note will determine whether or not an international congress can be held.

Chinese Emperor Dying.

Pekin, Nov. 13.—The condition of the emperor is so serious that the various legations here are sending cable dispatches thereon to their respective governments. There have been circumstantial rumors among the people of the death of the emperor and his little brother, the infant son of Prince Chun, has been brought into the palace. The emperor has been suffering for ten years past from chronic nephritis, a condition now complicated with diabetes and sciatica. It is admitted that his brain is affected.

To Improve Tennessee River.

Huntsville, Ala., Nov. 13.—The Tennessee River Improvement association met in convention in this city yesterday with a good attendance of delegates from the several states interested in the improvement of the waterway. The association purposes to put forth every endeavor to secure an appropriation from the coming session of congress to carry out the plans for the improvement of the river in order to make it navigable.

Prepares for Big Influx.

Butte, Mont., Nov. 13.—That the Northern Pacific expects travel into the northwest next year to exceed that of any previous year is indicated by the statement of President Elliott yesterday that the company has ordered 93 new passenger coaches, which will be placed in the transcontinental service next year. An increase in the service throughout the northwest will be made.

KING OF THROAT AND LUNG REMEDIES

DR. KING'S NEW DISCOVERY

FOR COUGHS AND COLDS CURES ALL THROAT AND LUNG DISEASES

SAVED HER SON'S LIFE

My son Rex was taken down a year ago with lung trouble. We doctored some months without improvement. Then I began giving Dr. King's New Discovery, and I soon noticed a change for the better. I kept this treatment up for a few weeks and now my son is perfectly well and works every day.

MRS. SAMP. RIPPEE, Ava, Mo.

50c AND \$1.00

SOLD AND GUARANTEED BY

C. F. MOORE

DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of

Chamberlain's Colic, Cholera and Diarrhoea Remedy

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success. Price 25 cents. Large size 50 cents.

ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate Cures Chronic Constipation, Stomach and Liver Trouble

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

Why ORINO is different.
ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs cannot act upon all of the digestive organs.

OUR GUARANTEE
Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded. Prepared only by FOLEY & CO., Chicago, Ill.

SOLD AND RECOMMENDED BY
C. F. MOORE

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Biliousness and Sick Headache.
Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Cleans the Complexion.
ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

Stimulation Without Irritation.
ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.
