An Insidious Danger.
One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Remedy at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes.

Newberg people who remove to other parts of the state maintain the Roosevelt policy to a marked degree, in the matter of multiplying and replenishing the earth. From North Bend, Coos County, comes the news that to Mr. and Mrs. James W. Duncan an eight and a half pound daughter has been born, Jamette Ellnora.

J. B. David was found dead in his bed in a Portland lodging house, where he had a room, on last Friday morning, death resulting from natural causes, although he had not been sick. The remains were buried at Oregon City on Sunday afternoon. For several years the deceased was a familiar figure about Newberg as he owned a farm on Chehalis mountain and was often about town. At this time he was in good circumstances but the financial crash back in the nineties swept everything away. For the past few years he has been doing contract work about Portland and it is understood he has been doing very well.

The death of Mrs. Melinda Craven, wife of Allen S. Craven, which was announced last week, came suddenly. She had arisen from her bed in the morning and was dressing when she fell to the floor on her face and never regained consciousness, death coming two hours later. She had suffered with severe pains at the base of the brain at times and this was the seat of the trouble. The deceased was born in Hendricks county, Indiana and was fifty-three years of age. She was an active member of the Friends church and was held in very high esteem by a large circle of friends. She was the last of a large family to go and only leaves a husband in her immediate family, their only daughter having died four years ago. Funeral services were conducted at the home at Middleton on Saturday morning by Mrs. Edwards, and the remains were laid to rest beside the grave of her daughter in Roselawn cemetery at Newberg.

At the meeting of the subscribers to the bonds of the Western Condensed Milk Company held on last Saturday, J. Carl Nelson was elected as a trustee to fill the vacancy caused by the resignation of N. C. Christenson.

The sale of the J. D. Gordon stock farm at Duudee to B. Her-ring of the Oak Hill farm, North Yamhill, is reported though the papers have not changed hands. The price is \$43,000. We understand Mr. Gordon intends to move to Newberg.

Rev. A. J. Weaver went to Champoeg Tuesday to conduct the funeral of Mrs. Mary Ellen Mendenhall. The Mendenhall family lived north of Newberg twenty years ago on the Free Hodges place which they owned at that time.

The car in which King & Bennett recently received a shipment of spray material will not likely be effected seriously for some time to come with San Jose scale or other pestiferous insects. Of the seventy barrels the car contained, ten barrels were bursted on the way, leaving a string of stink all along the line.

C. C. Smith has sold the property he has been occupying for several years, to A. P. Oliver and is looking for a location elsewhere when he vacates the building, which will be in the next two or three months. He has a special announcement in our advertising columns this week for those who may be wanting photo work done.

Oregon is not only a state of varied resources almost beyond ordinary speculation, but in the matter of climate the range is a wide one, running all the way from sunshine and flowers in the Willamette valley to zero and below in other parts on the same day. L. B. Charles writes from Lake county that they are having it twenty below the cipher mark, but owing to the dry atmosphere they are not finding it hard to endure. He also reports a good well of water dug on his claim at a depth of a little more than thirty feet.

If the order of the city council is carried out respecting the placing of an arc light at the Southern Pacific station, it will very materially abridge the element of danger now attached to the proceeding, when a loving husband undertakes to kiss his wife as she alights from the evening train. As it now is no prudent man will run the risk of future estrangement in the family by making a grab in the darkness of the night. Of course the S. P. people should furnish this light but the city dads are all family men and they could not afford to take any further chances. Let there be light.

Mr. and Mrs. C. A. Eldridge are up from Portland spending the holidays.

H. C. Greene, a friend of Miss Mabel Paulsen, is down from Hood River to spend the holidays.

The heating system at the public school building is to be torn out during the holiday vacation and a new one installed which will cost \$4000. Fans operated by electric motor will be used for forcing the hot air over the building.

Prunes have been the subject of many a boarding house joke, but as an article of diet they are not to be despised. Witness the fact that J. L. Haworth, of Springbrook, recently butchered a hog of the Durock Jersey stock that had cultivated such an appetite for Oregon prunes that his weight on foot had grown to 625 pounds, and when "undressed" the carcass tipped the beam at 513 pounds. During the closing days of his life he had been given some apples and a little Oregon corn, which if continued a little longer would have increased his weight another 100 pounds. Prunes, apples, corn, and hogs makes a pretty valuable combination on the farm.

Chehalis Center

Basketball Games.

On Friday night of last week a good sized crowd gathered at the college gymnasium where they were treated to a splendid exhibition of ball playing. The first game played was between the college second team and the High School team which resulted in a victory for the former.

The second game of the evening was more exciting as the visiting team has a record for fast playing and the score all through the game was close, and when time was called the home team was one point to the good.
