To School Teachers.

Dear Teacher:—I wish to call your attention to the coming County School Fair to be held at McMinnville this fall. The Fair last year was a great success, but we wish to make it this year even better than ever, and whether we succeed or not depends largely upon the teachers. If you are interested, it will be an easy matter to arouse the interest of your pupils. The work that is being carried on in these industrial fairs is strictly in line with the "New Education." At last we have reached the conclusion that boys and girls should learn how to do things. Cooking, sewing, manual training and gardening is as important as learning so much geography or arithmetic. "To work with the hand as well as to think with the head" is the educational motto of today. I am sure that you will note an added interest and pride in your school on the part of pupils and parents if you succeed in making a creditable exhibit. Do not wait another day to begin for it is important that this work be taken up at once in order to get the best results. Prize lists will be sent out later. If you have any questions to ask concerning the Fair, please feel free to write to me.

Yours sincerely,
H. H. BELT.

The Perfect Fence

If you want your farm to look neat, fence it with PITTSBURGH PERFECT FENCE. Why?

Because: the strands and stays are electrically welded. Because: it stretches up perfect and even. Because: it stays tight in summer. Because: it adjusts itself perfectly to uneven ground. Because: being electrically welded the stay wires cannot slip. Because: no top and bottom board required; and because it has no wraps to hold moisture and cause rust. Sold by
