Mrs. Evangeline Martin announces to her friends that with the close of the Dundee school this year, where she is teaching, she intends to retire from the profession of teacher, which she has successfully followed for a long term of years. While Mrs. Martin is not on the list of eligibles for the benefits coming from the Carnegie pension fund, she has a record that entitles her to a medal, at least, her strongest point as a teacher being her ability to inspire her pupils to greater effort in getting an education, as well as to stand for the best things in the communities in which they grow up.

Thomas Miles has had word from Scotts Mills to the effect that on last Saturday, the company that has been delving into the hills for coal with dogged determination for several months, was rewarded by striking a five foot vein of excellent coal and that as a consequence things up there are taking on a very rosy hue. Mr. Miles has an eighty acre tract of land in the coal belt which fact serves to increase his interest in the find.

The initial appearance Tuesday evening of the college students behind the footlights was a decided success. The fine audience present showed itself to be thoroughly entertained, while the receipts, amounting to eighty dollars, wiped out the debt on the gymnasium nicely with something left over for "fresh paint." In the Shakespearean presentation, Alexander Hull interpreted a real Shylock and he was ably supported by his student associates, who acted "to beat the Jews." The "Perplexing Situation" was less classical, but certainly no less enjoyed. It was a "problem play"—presenting the eternal problem of how to secure women's silence and in presenting it some unguessed stars were produced. The Riley readings of Prof. R. W. Kelsey added very materially to the success of the evening. His interpretation of the Hoosier bard's cheerful philosophy delighted his Newberg friends, many of whom heard Prof. Kelsey in this role for the first time.

P. N. Skinner has sold the store known as the Parker Mercantile Co. to Miller Bros., of McMinnville, and in the deal gets a farm in Lane county, of 460 acres, located a mile and a half from Junction City. S. G. Miller, who will retain the present force in the store. He says he considers the store room in the Union Block, where the business is conducted, one of the very best store rooms in the Willamette valley. The stock is to be materially increased. The advertising space on the local page of the Graphic, which the Parker Mercantile Co. has held for the past three years, has been contracted for by the new firm and attention is called to the announcement made this week.

Who Wants to Trade for A Dairy Farm Near Tillamook City?

We have one to sell or trade. The place has 105 acres of the finest kind of soil. 40 acres in cultivation, balance in pasture and timber. Located 3 miles north of Tillamook City, 1 mile from the bay, and on main macadamized road from Tillamook to Bay City. Large creamery and cheese factory on one corner of the place. Graded school about 1/4 of mile, and R. R. Station 1 mile from place.

Fine 8 room house, good barn and other out buildings, large orchard, good team of horses, wagon and harness, and all of the farm implements. 17 No. 1 dairy cows which will net a better income than 34 such cows would do in the Willamette Valley, because it requires no mill feed to net \$100 per head in Tillamook.
