## JAP EDITOR APPEALS.

Wants Mikado to Interfere in Labor Trouble in Hawaii

Honolulu, June 22.—In an editorial appearing in today's issue of the Nippu Jiji, the organ of the leaders of the Japanese strike movement, an appeal for interference in the Hawaiian strike situation is made to the Japanese government. The article alleged that the Japanese have been accorded unfair treatment by the courts and by the Federal and territorial officials of the islands.

The Jiji has supported the leaders of the higher wage movement ever since the strike of the Japanese sugar plantation hands was called. The offices of the paper were searched on June 11, and numerous papers were seized by the territorial authorities which, it is alleged, contained evidence of a widespread conspiracy among the Japanese on the islands.

Y. Soga, editor of the Jiji, was indicted twice by the territorial grand jury, following the seizure, once on a charge of conspiracy to incite riot and once on a charge of conspiracy to commit murder. He was released on furnishing \$2,250 bail bonds to cover both indictments.

The efforts of certain of the Japanese to give the Hawaiian situation an international aspect are apparently concentrating here, as evidenced by the Jiji's special to the Japanese government.

## HIGH DUTIES TO BE MET.

Canadian Manufacturers Plan Measures of Retaliation.

Ottawa, June 22.—Canadian manufacturers declare the American tariff revision will force Canada to make some radical changes in her customs tariffs also. That the adoption in its present form of the Aldrich tariff bill must result probably in a widening of the British preferential tariff by Canada is the opinion freely expressed by the officers of the tariff department of the Canadian Manufacturers' association, who are now here on business with the government.

That important tariff changes will be announced next spring is the opinion held by many, but the extent of them is depending much on the developments at Washington. There may be no general increase as affecting the importation into Canada of American commodities, although in many lines it will be vigorously urged, and a widening of the British preference at least is already being pressed upon the government and plans are being laid for more actively and aggressively agitating such a policy.

## END IS NOT YET IN SIGHT.

Hopes for Early Adjournment of Congress Disappearing.

Washington, June 22.—Although the senate made much progress during the week in considering the tariff bill, the date of the final vote is as indefinite as it was a week ago.

The possibility of sending the bill back to the house by July 1 is now considered remote. The discussion of a duty on hides will occupy the senate for possible a day or two. The wood pulp amendment offered by the finance committee, which practically doubles the duty on wood pulp, will then be taken up.

After these two schedules have been disposed of it is understood the tax on corporations, proposed by President Taft, will occupy the attention of the senate for several days. The lumber schedule and the rates on pig and scrap iron and wire nails remain to be disposed of.

The question of free cotton bagging and ties and binding twine are certain to result in an interesting discussion.

## Peary May Be At Pole.

Washington, June 22.—Friends of Commander Robert Edwin Peary, who left last July for the frozen North, said today they believed Peary, by this time, has planted the Stars and Stripes at the North Pole. No news has been received from Peary since he left Etah, North Greenland, August 17, 1908, for a dash as far into the ice bound seas as his vessel would carry him before being frozen in. If he has been successful the news of his discovery will not reach a point of telegraphic communication until August or September.

## ADVICE TO CONGRESS

### Taft Favors Corporation Tax and Income Tax.

### AMENDMENT TO CONSTITUTION

Urges Senate to Adopt Provision as House Has Already Done in Tariff Bill.

Washington, June 17.—President Taft yesterday sent the following message to congress:

"To the Senate and House of Representatives—It is the constitutional duty of the president, from time to time, to present to the consideration of congress such measures as he shall judge necessary and expedient.

"In my inaugural address, immediately preceding this present extraordinary session of congress, I invited attention to the necessity for a revision of the tariff at this session, and stated the principles upon which I thought the revision should be effected. I referred to the then rapidly increasing deficit, and pointed out the obligation on the part of the framers of the tariff bill to arrange duties so as to secure an adequate income, and suggested that if it was not possible to do so by import duties, new kinds of taxation must be adopted, and among them I recommended a graduated inheritance tax as correct in principle and as certain and easy of collection.

"The house of representatives has adopted the suggestion and has provided in the bill it passed for the collection of such a tax. In the senate, the action of its finance committee and the course of the debate indicate that it may not agree to this provision, and it is now proposed to make up the deficit by the imposition of a general income tax, in form and substance almost exactly the same character as that which, in the case of Pollock vs. Farmers' Loan & Trust company, 157 U. S. 429, was held by the Supreme court to be a direct tax, and therefore not within the power of the Federal government to impose unless apportioned among the states according to population.

"This new proposal, which I did not discuss in my inaugural address or my message at the opening of the present session, makes it appropriate for me to submit to congress certain additional recommendations.

"The decision of the Supreme court in the income tax cases deprives the national government of a power which, by reason of previous decisions of the court, it was generally supposed the government had. It is undoubtedly a power the national government ought to have. It might be indispensable to the nation's life in great crises.

"Although I have not considered a constitutional amendment as necessary to the exercise of certain phases of this power, a mature consideration has satisfied me that an amendment is the only proper course for its establishment to its full extent. I therefore recommend to the congress that both houses, by a two-thirds vote, shall propose an amendment to the constitution conferring the power to levy an income tax upon the national government without apportionment among the states in proportion to population.

"This course is much to be preferred to the one proposed, of re-enacting a law once judicially declared to be unconstitutional. For congress to assume that the court will reverse itself and to enact legislation on such assumption will not strengthen popular confidence in the stability of the judicial construction of the constitution. It is much wiser policy to accept the constitution and remedy the defect in due and regular course.

"Again, it is clear that by the enactment of the proposed law, the congress will not be bringing money into the treasury to meet the present deficiency, but by putting on the statute book a law already there and never repealed will simply be suggesting to the executive officers of the government their possible duty to invoke litigation.

"If the court should maintain its former view, no tax would be collected at all. If it should ultimately reverse itself, still no taxes would have been collected until after protracted delay.

"It is said the difficulty and delay in securing the approval of three-fourths of the states will destroy all chance of adopting the amendment. Of course,

## Bonilla May Lead Revolt.

New Orleans, June 17.—Dispatches received by local business houses say that La Ceiba and the Northern coast provinces of Honduras are in open revolt and have sent emissaries to New Orleans to persuade Manuel Bonilla to return and take possession of the government. Davillas has applied to the United States, and the United States gunboat Paducah is patrolling Ceiba harbor to prevent sanguinary outbreaks. General Bonilla is in New Orleans now. He denies that there is anything significant in his departure.

## Illinois Primary Law Invalid.

Springfield, Ill., June 17.—The Supreme court of Illinois today declared unconstitutional the state primary law, and as a result the state is without a legal method of nominating candidates for office. It is thought a special session of the legislature will be called to enact a new law. The decision of the Supreme court is the result of an attack made upon the primary law by candidates defeated in the state primaries last summer.

no one can speak with certainty upon this point, but I have become convinced that a great majority of the people of this country are in favor of vesting the national government with power to levy an income tax.

"Second, the decision in the Pollock case left power in the national government to levy an excise tax which accomplishes the same purpose as a corporation income tax, and is free from certain objections urged to the proposed income tax measure.

"I therefore recommend an amendment to the tariff bill imposing upon all corporations and joint stock companies for profit, except national banks, otherwise taxed, savings banks and building and loan societies, an income tax measured by 2 per cent of the net income of such corporations. This is an excise tax upon the privilege of doing business as an artificial entity and of freedom from a general partnership liability enjoyed by those who own the stock.

"I am informed that a 2 per cent tax of this character would bring into the treasury of the United States not less than \$25,000,000.

"The decision of the Supreme court in the case of the Spreckles Sugar Refining company against McClain seems clearly to establish the fact that such a tax as this is an excise tax upon privilege, and not a direct tax on property, and is within the Federal power without apportionment according to population.

"The tax on net income is preferable to one proportionate to a percentage of the gross receipts, because it is a tax upon success and not failure. It imposes a burden at the source of the income at a time when the employer is well able to pay and when collection is easy.

"Another merit of this tax is the Federal supervision which must be exercised in order to make the law effective over the annual accounts and business transactions of all corporations. While the faculty of assuming a corporate form has been of the utmost utility in the business world, it is also true that substantially all of the abuses and all of the evils which have aroused the public to the necessity of reform will be made possible by the use of this very faculty.

"If now, by a perfectly legitimate and effective system of taxation, we are incidentally able to possess the government and the stockholders and the public of the knowledge of the real business transactions and the gains and profits of every corporation in the country, we have made a long step toward that supervisory control of corporations which may prevent a further abuse of power.

"I recommend then, first, the adoption of a joint resolution by two-thirds of both houses, proposing to the states an amendment to the constitution granting to the Federal government the right to levy and collect an income tax, without apportionment among the states, according to population; and second, the enactment as part of the pending revenue measure, either as a substitute for or an addition to, the inheritance tax, of an excise tax upon all corporations, measured by 2 per cent of their net income."

## OFFERED HUMAN SACRIFICE.

Russian Police Probe Sect That Worships Blood-Stained Idol.

St. Petersburg, June 16.—Dispatches from Perm, European Russia, say the local police have begun an investigation into the sect of the Crimson God, the members of which are accused of human sacrifices and other horrible practices.

Repeated disappearances of persons in the district where the sect dwells throw suspicion on the organization, which worships a red wooden idol, colored, it is said, with human blood.

The police have located a secret grave containing the mutilated body of a man supposed to have been sacrificed, and they expect to find others.

The rural region, of which Perm is the center, is a breeding ground for many fanatical cults. It is a meeting place for the pagan tribes of Asia, as well as of persons who flee from Russia on account of religious persecution. Refugees of this type have lived for centuries in the dense forests of the district, and their beliefs have developed along the most fanatical lines.

## Tax Unearned Increase.

Berlin, June 16.—The reichstag re-assembled today. Among the official communications laid before the house was one from the government concerning the proposal to tax the unearned increase in real estate values. The government has decided that it is inexpedient to do this for imperial purposes, inasmuch as there are seemingly unsurmountable difficulties in the way of an equitable adjustment of the taxes on city and county values, but it approves as just the taxing of the unearned increase for local purposes.

## Plan Buffalo Roundup.

Butte, June 16.—One of the most unique roundups in the history of the West will start tomorrow at Ronan, on the Flathead Indian reservation, in Western Montana, when the Pablo herd of buffaloes will be corralled and driven to the stockade at Ravilla. The animals will be loaded on specially constructed cars, a number of the finest specimens going to the Canadian National park. Others of the animals will be shipped to Western parks.

## Hadley Turns Down Fair.

Kansas City, June 17.—Governor Hadley today vetoed the bill providing for an expenditure of \$20,000 for a Missouri exhibit at the Seattle fair. The governor said the state needed the money more for educating its citizens and for the poor.

The buildings will be finished by December 1. There will be a main building 172x105, with a white pressed brick front; a dormitory 90x45 and a boiler house 37x37. The new home of the institution is on the Oregon Electric and the company will build a new station near the school.

Albany—Albany college has realized its \$50,000 endowment. Announcement was made by President Crooks at the annual meeting of the board of trustees of the college that the \$25,000 needed in Oregon has all been raised and this insures an additional \$25,000 from the national college board, of the Presbyterian church. Eleven thousand dollars of this amount was subscribed in Albany, \$10,000 in Albany Portland.

### College Catalogue Out.

University of Oregon, Eugene—The university of Oregon catalogue, with announcements for 1909-10, has just been published. ### Strike Reported Near Gates.

Albany—President R. F. Shier, of the Black Eagle Mining & Milling company, has left for the mines near Gates. He reported that he had just received word of a rich strike of copper ore. The ore is a cuprite, consisting of 80 per cent copper, with some gold and silver, and he claims will assay at \$200 per ton.

### FARMERS WANT RAILROAD.

Believe Umatilla County Trolley Line Would Help Shippers.

Pendleton—Believing that with an independent electric railroad extending across the wheat belt of Umatilla county and connecting with the boats on the Upper Columbia river they would be able to sell their wheat to better advantage, the farmers of the county are again talking of building the proposed line. Though no plans have yet been worked out, the proposition is to be fully discussed at a meeting of the County Farmers' union, which is to be held in this city June 26.

Two plans for the building of the road have so far been proposed. One is for the farmers to build and operate the line themselves, while the other is to induce someone who is in the railroad building business to construct it. If undertaken, this will be the second co-operative movement fostered by the Farmer's union, the building of a string of warehouses in the northern part of the county being the first.

### Would Arouse Interest.

Salem—Governor Benson has appointed John H. Lewis, state engineer, Jay Bowerman, president of the state senate, C. N. McArthur, speaker of the house, F. S. Stanley, of the Portland chamber of commerce, and Tom Richardson, of the Portland Commercial club, as an executive committee of five to arouse interest in the National Irrigation congress at Spokane on August 9 to 14. It is the purpose of this committee to interest commercial clubs and other organizations entitled to representation at the congress. Governor Benson will soon announce the names of the twenty honorary delegates from the state at large. Commercial organizations, county courts, incorporated cities and irrigation companies are all entitled to representation. It is the purpose of the executive committee to arouse state wide interest in the Spokane congress to the end that Oregon may have the largest and most representative delegation in attendance. The committee will hold a meeting in a few days when it will organize and adopt plans for its work.

### Thirty Claims Staked.

North Powder—A large deposit of high grade ore, running largely to copper, gold and silver, has been uncovered near here. Thirty claims have been staked off within five miles of town and the location work is being vigorously prosecuted under the direction of George H. Downs, who has cornered the labor market by employing all available men. It is understood here that the enterprise is being backed by Portland people.

### Sumpter Extension Announced.

Sumpter—That the Sumpter Valley railroad will be extended to the Thomas ranch, and perhaps to Susanville, this summer is announced practically officially. The route will not be from Austin to Prairie City, as has been planned for some months, but will be down the middle fork of the John Day river, a distance of 22 or 23 miles.
