"A healthy youngster does like good things to eat. . . . The easiest way to bake good things—to bake successfully—is by using **OLYMPIC FLOUR**

It is an aid to rather than a test of your ability."

—Mother.
Infinite care is employed in the production of every sack. Chosen from selected Northwestern wheat every grain is thoroly cleaned and scoured by the best modern methods—that's why Olympic reaches you so clean, so pure, so healthful, so nutritious—that's why it makes such good things to eat.

Insist upon Olympic
—there isn't any just as good."

Portland Notes.

Oregon dairymen will meet in Portland December 9 and 10 and plans already under way for the gathering indicate it will be one of the most interesting conventions in the history of the association. There will be a large attendance of dairymen from both Washington and Oregon and a fine lot of exhibits of dairy products.

One prominent creamery will exhibit over 50 kinds of cheese gathered from all over the world. This showing is bound to be of very great interest.

T. B. Wilcox, president of the Portland Flouring Mills, has offered prizes of \$65 and \$35 for the best exhibits of dairy products at the convention and competition for the prizes will be keen.

The programme as now planned is an excellent one. Among the most prominent speakers will be Mr. Rawl, of Washington, D. C., chief of the dairy division of the Department of Agriculture, who will be in attendance. Others of note will speak.

The convention will be held in the W. O. W. hall on Eleventh street, near Alder. Attendance promises to be unusually large because of the fact that the Oregon State Horticultural Society holds its annual meeting just before the dairymen's convention and many will attend both gatherings.

Manchurian larks, entirely new songbirds for this country, will be liberated in Oregon next Spring, being the first of this species ever brought to America. Mrs. Fred D. Fisher, wife of the American consul at Miu-Chwang, Manchuria, who returned to America last week with her husband, brought back 15 of the birds. She will keep them through the winter and liberate them in the spring. The important songsters are rated as among the best song birds in the world. They are about the size of the native lark but are the color of the wren. The Chinese keep them in cages in their homes.

Oregon's chief city is going ahead as never before in its history. Portland is growing because the state at large is prosperous and is constantly increasing its wealth. Plans to beautify the city by following a comprehensive scheme of city building are now receiving a great deal of attention. Mayor Simon announces that during the coming year 90 miles of hard surface pavement will be put down, making the streets of the metropolis equal, if not superior, to any other city in the West. At present Portland has a total of 60 miles of hard surface pavements.

Apples grown in Oregon and Washington will grace the tables of European royalty this winter, through the plan of James J. Hill, the great Northern magnate, who has ordered 100 boxes of the best apples displayed at the Spokane apple show. He has wired his Spokane agent to pay \$10 a box if necessary. He says he wants the apples for Christmas presents to the following: "Royal and titled heads of Europe holding stock in the Hill roads, the Queen of Denmark, the King of England, the Emperor of Germany, titled members of the British parliament and German and Swedish personages of royal blood." Apples will be selected from fruit grown along the Hill lines from the Deschutes Valley.

A distinguished pioneer of the state was laid to rest during the past week. Joseph H. Lambert was widely known as the originator of the famous Lambert cherry and his services to advance the horticultural interests of the state were very valuable. He died at the advanced age of 83 years.

The genius who grafted a milkweed on a strawberry vine and produced a plant yielding strawberries and cream, needs only to graft this marvel on sugar-cane to outdo Burbank.

Miller Mercantile Co.

Desire to express their thanks to the public for their liberal patronage and good will of the past year. We realize that the success of this business depends wholly and solely upon the generous support of the good people of Newberg and surroundings. As evidence of our appreciation we will continue in the future as we have in the past, striving at all times to build up a business by fair and square dealings to all.

Yours truly thankful,

High School Items.

Professor Hodson was a visitor of the High School Wednesday.
Miss Louise Robinson entered the Freshman class last week.
Miss Clarice Newlin was a visitor of the High School Friday.
Both the boys and the girls have begun basketball practice.

We have hopes of turning out two winning teams this year.

The football team went to Forest Grove last Saturday to play the High School team of that city. During the first half Omer Gause made a touch down for Newberg. A goal was kicked. At the end of the first half the score stood 6-0 in favor of Newberg. In the last half Frank Moore made another touch down and a goal was kicked. Toward the last of the half our team kicked off to Forest Grove. They returned the punt. Ralph Otis caught it and ran forty yards for a touch down. This touch down was made in the last half minute. The kick of goal failed. Thus leaving the score 17-0. Open plays were used the most of the time. The boys played a fast game.

Ten Days and \$100 Fine.

On Wednesday of last week Marshal Woods arrested Jack St Germain, of Chehalem Center and took him before Justice Brouillette where he was arraigned on a charge of violating the local option law. Deputy District Attorney Roswell Conner appeared for the state, but St. Germain did not employ an attorney. He entered a plea of guilty and was given a sentence of ten days in jail and fined \$100.

The liquor was sold to Roy Phipps, Roscoe Ellis and the Hodges boy, all of whom are minors and a number of prosecutions may follow later, though no one will be inclined to press the cases further if Mr. St Germain shows a disposition to profit by his experience and respect the law.

This case was worked up by Marshall Woods and he deserves credit for the interest taken in the matter.
