## IS CALIFORNIA ENTRANCE TO EARTH'S LABORA- TORY.

Science Discovers that Paso Robles Hot Springs Are Really  
the Marvels of Health.

Today the great American and  
foreign authorities assert that  
the famous Paso Robles springs  
bring from the interior of the  
earth waters which make cures  
that medicine and surgery do  
not perform.

Such wonderful results have  
been made upon certain diseases  
by the Paso Robles Hot Springs  
that scientists are unable to ac-  
count wholly for the real reason  
and to exactly determine what  
causes the really great chemical  
virtues of these waters.

The wonderful waters of Paso  
Robles have performed so many  
really remarkable cures of late,  
upon persons from all over the  
world, to such an extent that  
medical men and scientists are  
making an investigation into  
what really is the cause of such  
chemical purity of water and its  
consequent action upon health.

The waters at Paso Robles are  
both hot and cold when they ar-  
rive at the surface of the earth.  
Here are mineral mud baths,  
vapor, steam and other modes of  
water treatment.

The only diseases barred at  
Paso Robles are tuberculosis and  
unclean maladies.

Cases of chronic stomach  
trouble, alcoholism, nervous  
prostration, especially in women,  
worn out business men, rheuma-  
tism, gout, kidney and other  
troubles too numerous to men-  
tion, succumb to these waters as  
though they were but a slight in-  
disposition. One may spend  
hours in the streets of the town  
listening to the convalescents tell  
of their former ill health and  
their cures. It sounds almost  
like a romance. Every luxury is  
here for the rich, while those who  
desire may bring a tent and camp  
out in the delightful meadows or  
along the river banks and be  
treated and cured at little ex-  
pense. Boarding houses and  
private homes are also open to  
health seekers.

The air at Paso Robles is said  
to be the purest of any health re-  
sort in the world, and many  
claim as much for it as they do  
for the waters.

Truly it is interesting to know  
just what science will determine  
to be the solution of the question  
of Paso Robles' great cures and  
what its waters can really do.

A small book, neatly illus-  
trated, has been recently pub-  
lished by the management tell-  
ing the story of the Hot Springs  
in a most interesting manner and  
giving complete information.  
Send for it, either to Wm. Mur-  
ray, General Passenger Agent of  
the O. R. & N., Portland, Ore., or  
Dr. F. W. Sawyer, manager, Pa-  
so Robles, Cal.

### SUNDAY SCHOOL LESSON

Suggestive Questions on the Sunday  
School Lesson by Rev. Lincoln  
for the International Newberg  
Bible Study Club.

JANUARY 25, 1910.

True Blessedness. Matt. 5:1-16.  
Golden Text: Blessed are the pure in  
heart for they shall see God. Matt.  
5:8.

Verses 1, 2—How much do you re-  
member of the last sermon you heard?  
To what extent is the modern style of  
taking a text and preaching a sermon  
from it, a success as a teaching exer-  
cise?

Did Jesus use a pedagogical, or an  
oratorical style in his addresses, and  
would it be better for the extension of  
the kingdom of God if the modern pul-  
pit would adopt his method?

Verses 3—What, in the last analysis,  
is the essential qualification of being a  
subject of the kingdom of heaven on  
earth?

If a person is a subject of the king-  
dom of heaven on earth, what other  
qualifications are necessary for the  
kingdom in heaven?

Verses 4—If "blessed" means happy,  
how is it possible to mourn and be  
happy at one and the same time?

Which Christian reaches the highest  
altitudes of bliss and enjoys the sweet-  
est comforts of God, one who has had  
great sorrow or one who has been free  
from sorrow, and why is it so?

Verses 5—Give some examples of well-  
to-do men, and then say which class as  
a rule, get the best things on earth, the  
"mask," that is the modest, unselfish,  
and generous, or the boastful, self-  
assertive, and selfish?

Verses 6—What is your definition of  
righteousness?

What are the conditions for such soul  
health, as to "hunger and thirst" to be  
righteous? Is this state under the  
control of every man's will?

If a person really desires it, may he  
be sure of being "filled with righteous-  
ness," that is of being perfectly right  
with God?

Verses 7—From the suggestions in this  
verse, if a person is not merciful, what  
does that indicate as to his standing  
with God?

If a man has been grievously injured,  
and we find out that he has fully for-  
given his enemy, what does that in-  
dicate as to the man's standing with  
God?

Verses 8—Are there those who always  
have a perpetual vision of God, and  
what conditions do they observe to keep  
the experience?

What does it imply to be pure in heart,  
and may all attain that experience?

What was Jesus' experience as to his  
realization of the constant presence of  
God?

Verses 9—Mention some reasons which  
you think would justify a Christian in  
being the plaintiff in a law suit?

What is it to be a "peace maker"  
after the pattern that Jesus here means?

Verses 10-12—Are really good people  
persecuted in these days because of their  
goodness?

Why did the religionists of those  
days persecute Jesus, and finally put  
him to death?

Verses 13-16—Of what use in the  
world is a so called, "cold Christian?"  
Can a person be a real Christian who  
is not aggressively engaged in doing  
good, Why or why not?

Lesson for Sunday, Jan. 30th, 1910.  
Some Laws of the Kingdom. Matt.  
5:17-26, 28-48.

### Pacific College Notes.

Mrs. Douglas has taken the  
college freshmen English on ac-  
count of the shifting of other  
school interests to Prof. Reagan.

The senior academy class, hav-  
ing finished the study of Tenny-  
son's 'Idylls of the King' are tak-  
ing up Shakespear's study of self-  
ambition in Macbeth.

Some very live and interesting  
subjects are being considered in  
the orations. The final contest  
occurs on the evening of January  
28.

Friday morning Rev. F. C.  
Stannard talked to us about the  
ever increasing entanglement of  
habits shown and fostered by  
our thoughts and deeds.

Prof. Weesner gave us an ex-  
cellent chapel talk Wednesday  
about the terrible destruction  
and loss a nation receives from  
war, and the progress Inter-  
national Peace has been making  
in the last few years.

In spite of the wreckage of  
P. C.'s team work by the Dallas  
skilled giants some very credit-  
able defensive work was done by  
individual players. Fally Ras-  
musson was noticeable for his  
speed in securing the ball. Claude  
Lewis threw the first goal, of  
this season, over Fenton, the  
Dallas center. Dallas's center did  
one thing that is a disgrace to  
the game of basketball—tripping.

It isn't safe to buy eye-glasses  
of peddlers. If your eyes need  
glasses, go to a reputable oculist  
or optician in some near-by town  
or city. Economy is false wisdom  
when it comes to eye troubles.
