HOUSEWIVES

Do you want to know about a
wonderful new time, health and
money-saving kitchen convenience?

Then you should see the complete line of "1892"
Pure Spun Aluminum Cooking Utensils now on exhibition
at your dealers.

This ware is guaranteed by the makers for 25 years.
It is absolutely pure, wholesome and thoroughly hygienic,
will not crack, scale, peel, break, rust, tarnish, scorch
or burn.

It is light weight, easy to handle and easy to clean;
makes kitchen work a delight instead of drudgery; saves
your money, time, fuel; protects your health against
metal poisoning and serious troubles resulting from chip-
ping of small particles into the food, which is one of the
dangers from the use of the old style enameled wares.

You buy patent carpet sweepers, egg-beaters, dish-
washers, clothes-wringers and many other time and labor
saving conveniences, but there is nothing that will prove
a greater practical household blessing than the "1892"
Pure Spun Aluminum Ware.

Lose no time in seeing for yourself what it will do.
Your money back if this ware fails to do what is claimed
for it. Allen-Reynolds Hardware Co.

If the ends of the hair seem to
split easily they should be trim-
med once in every three months,
at least.

A few drops of any good toilet
water in the last rinse water
gives a faint suggestion of per-
fume to the hair.

Let the nursery be a large, sun-
shiny room, one which can be
well ventilated, and be sure to
air it night and morning.

Bathing the face, neck and
arms with hot new milk morn-
ing and evening will give a
plumpness and bloom to the flesh.

For the stinging sensation
caused by sunburn apply water
as hot as can be borne, then
bathe with cream or buttermilk.

PANAMA HATS.

The Best Are Made From Whole
Straw and Are Not Stiffened.

Ecuador is the real home of the
hats wrongly designated under the
name of "panama." This industry
afterward extended to Peru and
other countries, even to Yucatan,
in Mexico. Everywhere in Latin
America the hat is known by the
name of "jipijapa," in honor of the
city where its manufacture was first
started. It is only outside of the
producing countries that this hat
receives the name of a city which
does not make it.

The finest hats are made in Jipi-
japa and Monte-Cristi, in the pro-
vince of Manabi, this industry being
one of the greatest resources of the
country. The toquilla, or leaf of a
small plant, is used for this pur-
pose. It grows abundantly in the
country, the leaves coming up in
the shape of a fan. The plant is
the Carludovica palmata.

There are jipijapas of all quali-
ties, from those costing a few centi-
mos, or American cents, to those
worth several hundred sucres, or
American dollars. The merit of
these last, real marvels of fineness,
consists as much in the scarcity of
the straw as in the difficulty of
weaving, and therefore it is excep-
tional to find these hats on the
general market. The hats of current
sale cost a few sucres, the finest not
exceeding 50 to 60 sucres in price.

In buying a panama it is neces-
sary to learn two things—if the
straw is whole and if it is not stiff-
ened. It is not easy to recognize
the first condition. The weavers
split the straw with such perfec-
tion that unless a person is accus-
tomed to such examinations it is al-
most impossible for him to distin-
guish the difference. Of equal fin-
eness, the hat made from whole
straw is worth three or four times
the one manufactured from the
straw that has been split. The sec-
ond condition is recognized easily,
for the hats are stiffened to make
the straw firmer and whiter. Good
toquilla is white and stiff enough
not to need any gum, and only or-
dinary panamas are stiffened.—Ex-
change.

A poultice should never be
placed to the eye.

Sweet cream is an excellent skin
food to use for massaging.

If the skin is inclined to be scaly
the face should not be steamed.

Powdered charcoal is a good
tooth powder as well as a breath
purifier.

Injudicious eating and drink-
ing will make the pores of the
skin large.

Persons suffering from excessive
perspiration should not take hot
baths.

Walking barefoot is a simple
and natural means of hardening
the system.

Apply cold when the eye has
been injured and when merely
painful apply heat.

If your nose is shiny use almond
meal instead of soap and powder
lightly with starch.

It is found necessary to wash
the face shortly before going for
a drive, omit the use of soap.

Massaging the scalp has a good
effect upon the muscles of the
face, giving them new life and
vigor.

Add a little powdered borax to
the wash water to keep the skin
soft and prevent excessive per-
spiration.

A splendid and simple shampoo
for the hair is the beaten yolk of
an egg diluted with twice its
bulk of water.

OF MEN'S FINE SHOES IN THE WORLD.

"SUPERIOR TO OTHER MAKES."

"I have worn W. L. Douglas shoes for the
past six years, and always find they are far
superior to all other high grade shoes in style,
comfort and durability." W. G. JONES.

110 Howard Ave., Utica, N. Y.

If I could take you into my large fac-
tories at Brockton, Mass., and show you
how carefully W. L. Douglas shoes are
made, you would realize why they hold
their shape, fit better, wear longer, and
are of greater value than any other make.

CAUTION—See that W. L. Douglas name and price
is stamped on the bottom. Fake shoes are
made, and you cannot tell them from the real ones
unless you know the name and price. If you
want to be sure, get the name and price stamped
on the bottom. W. L. Douglas, Brockton,
