Colonist Rates to Oregon and the Great Northwest

The management of the Southern Pacific Co. (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon will prevail again this Spring DAILY from March 1 to April 15, inclusive.

People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

Fares Can Be Prepaid at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

Remember the Rates—From Chicago, \$33. from St. Louis, \$32. from Omaha and Kansas City \$25. This reduction is proportionate from all other cities.

TEN REASONS Why You Should Carry a Bank Account.

- It helps your credit.
- It stimulates your courage.
- It guards you against extravagance.
- It gives you confidence in your judgment.
- It helps to hold you up when you are out of work.
- It furnishes the best receipt for all bills paid.
- It creates business habits that will increase your savings.
- It protects you against loss by robbery, and personal injury by robbers. (They know the people who carry their money in their sock or on their person)
- It enables you to pass over periods of sickness without embarrassment.
- It makes you able to run your business, instead of your business running you.

THE FIRST NATIONAL BANK

Newberg, Oregon

If it's a Deere it's Right

JOHN DEERE
MOLINE, ILL.

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

**Standard of the World
For Over 60 Years**

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first slab of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburg, in 1846. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"If it's a Deere, it's Right."

We make over 1000 styles of plows, each as good as it can be made,—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.
