**Colonist Rates
to Oregon and the
Great Northwest**

The management of the Southern Pacific Co. (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon will prevail again this Spring DAILY from March 1 to April 15, inclusive.

People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

Fares Can Be Prepaid at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

Remember the Rates—From Chicago, \$33. from St. Louis, \$32. from Omaha and Kansas City \$25. This reduction is proportionate from all other cities.

Great Horse Show at Salem.

President Chas. L. Dick of the Salem Horse Show Association announced today that they were fairly swamped with entries for horses to be sold during the great sale which will be conducted on the second day of the Horse Show. This is a new feature for the Horse Show Day in Oregon, and was made possible by holding a two day show, and the management now feel certain that it will be the biggest success of anything of the kind ever attempted.

Buyers and sellers will be brought together from all parts of the state. The main sale will be Public Auction where all horses that are listed for that purpose will be sold, and for this service the horse owners are to be charged 5 per cent of the selling price, but those people who do not care to put their horses up at auction have the privilege of listing them for private sale. These horses will be listed in the catalogue and in the programs with the announcement at what barn they can be found.

Ten thousand Souvenir programs are being printed which will be distributed free on the streets of Salem during the Horse Show. The problem of how to feed and house 50,000 people which will be in attendance at the Show has been a troublesome one for the committee, but the people of Salem have agreed to open their homes for lodging, and the restaurants and hotels of the city, the churches and fraternal organizations are going to serve special dinners so that all will be properly cared for.

There will be a great many more horses on exhibition this year than ever before. Among the new exhibitors just entered for the first time is J. D. Gordon, a Newberg Banker who is coming over with a car load of his splendid Stallions and Mares recently imported from France. Last Saturday being Horse Show Day at Mount Angel a large delegation of Salem business men drove over in the afternoon in automobiles to visit that fair, and help boost for a great Salem fair, April 8, and 9.

C. L. Dick, president of the Horse Show Association, who is the moving spirit in making this show a success was signally honored by being selected as a delegate to represent the state of Oregon at the National Convention of the Travelers Protective Association which meets June 10 at Chattanooga, Tenn. He and his fellow delegates are going back to make the fight of their lives for the 1911 Association to be held in Portland, Oregon.

All Oregon is invited to Salem to attend the great Salem Horse Show, April 8 and 9.

If it's a Deere it's Right

JOHN DEERE
MOLINE, ILL.

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

**Standard of the World
For Over 60 Years**

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first slab of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburg, in 1846. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"It's a Deere—It's Right."

We make over 1000 styles of plows, each as good as it can be made,—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.
