Womanly Wisdom.

Always keep your flour cool, dry and securely covered.

You can generally save money by avoiding the dead-sure things.

Love what is good, support the feeble, flee the wicked, but hate no one.

To distribute spice evenly through a cake or pudding, carefully mix it with part of the granulated sugar to be used.

When frying potatoes, drippings, if they have been carefully saved, are equally as good as utter and much less expensive.

It is not generally known that candles, as well as soap, will last much longer by being exposed to the air for some time to harden before using.

When you wish to separate eggs, break them, one at a time, into a small-sized funnel. The whites will pass through into the bowl below and the yolks will be left in the funnel.

Stiffly-starched muslin bags in which to put woollens in the spring will keep them unharmed by moths, if they are free from them when put in and if the bags are tightly closed.

A penny lies on our breakfast table each morning for the child who is there first, neatly washed, dressed and combed. It works better than a scolding for the one who is late.

In looking over a lot of discarded clothing, I found a suit of men's clothes. I ripped it up, pressed it carefully, and dyed it a pretty dark red. I found I had plenty of goods to make a warm spring jacket for a girl nine years old.

Last year we had excellent success in keeping hams in good condition through the warm weather. Before the flies had a chance to deposit their eggs in them, we dusted some cayenne pepper into the hock end, wrapped the whole ham closely in brown paper, then in coarse muslin sewed to fit closely. Lastly we gave them a coat of thick whitewash and hung them where it was cool, dry and dark, and they did not even mold on the outside.

From April Farm Journal.

McMinnville.

Officials of the Oregon Electric met with the city council last week and were granted a 25 years franchise by the city for the building of their line into town on "B" street. Bonds were given for completion before April 15, 1912, but right-of-way agent McDowell says they expect to

have cars running within a year.

The handsome new First Presbyterian church is being completed and will be dedicated next Sunday. Dr. William Hiram Foulks, of Portland, will be the principal speaker.

Three new automobiles arrived in town this week, one a large, seven passenger Oldsmobile, the property of Attorney F. W. Fenton.

Supt. Belt's County spelling match last Saturday was a decided success, more than 200 pupils participating. Medals were awarded winners in the various classes, the prizes going to representatives of the Sheridan, Whiteson, Oak Ridge and McMinnville schools.

The Fault With the People.

Governor Herrick of Ohio told the truth when he said, in a recent speech: "We must regulate the men who are running the government. Throughout the country, from the municipalities and states on up to the capital at Washington, there is the grossest extravagance." As Vice-President Fairbanks said in a recent speech: "We are spending money like a drunken sailor." And yet the people of the country go on crying out for more battleships, more public buildings, more army posts; more canals, more river and harbor improvements, and retiring congressmen to private life if they fail to get them.—Marion (Ind.) Chronicle.
