"Speaking of Flies."

A physician who was in attendance one June at a medical convention was asked why the meeting had not been called in cooler weather. The reply was "This is our slack season. It is this way you see; In cold weather people shut themselves up in close, poorly ventilated houses and get pneumonia, influenza, bronchitis, and all sorts of diseases which affect the lungs and throat. That keeps us busy in winter and spring. In the latter part of the summer come the flies. They carry from one person to another all kinds of diseases which affect the intestines (dysentery, typhoid fever) and then we are busy again. But just now when people are living in the fresh air and there are no flies we are free to go to conventions."

The inference from this remark is that we could almost put doctors out of business—the business of curing diseases at least—if we could get rid of bad air and flies.

WHAT TO DO TO GET RID OF THE FLIES.

Screen your windows and doors. Do it early before fly time and keep screens up until snow falls. Screen the baby's bed and keep flies away from the baby's bottle, the baby's food and the baby's "comforter." Keep flies away from the sick, especially those ill with typhoid fever, scarlet fever, diphtheria, and tuberculosis. Screen the patient's bed. Kill every fly that enters the sick-room. Immediately disinfect and dispose of all the discharges.

Use liquid poisons, sticky fly papers and traps.

Place either of these fly poisons in shallow dishes throughout the house:

(a) Two teaspoonfuls of formaldehyde to a pint of water.

(b) One dram of bi-chromate of potash dissolved in two ounces of water sweetened with plenty of sugar.

To quickly clean rooms of flies, burn pyrrhrom powder or blow powdered black flag into the air of the room with a powder blower. This causes the flies to fall to the floor in a stunned condition. They must be gathered up and destroyed.

ELIMINATE THE BREEDING PLACES OF FLIES.

Sprinkle chloride of lime or kerosene over contents of privy vaults or garbage boxes. Keep garbage receptacles tightly covered and clean them every day.

Sprinkle chloride of lime over manure piles and other refuse. Keep manure screened if possible. It should be removed at least once a week.

Pour kerosene into the drains. Clean cuspidors every day. Keep a 5 per cent solution of carbolic acid in them. Don't allow dirt to accumulate in corners, behind doors, back of radiators, under stoves, etc. Allow no decaying matter of any sort to accumulate on or near your premises.

L. T. L. Contest.

Last Sunday, at 3, the Loyal Temperance Legion held another successful contest at the Baptist church. The legion marched to the platform singing "We're coming, we're coming, a brave little band. On the safe side of temperance we now take our stand." A large audience greeted them. The music and recitations were finely rendered. The names of the contestants are Mildred Shirley, Hazel Youngs, Agatha Potter, Huldah Morrison, Anita

THE conservative banker, in making loans, must know to a certainty that his applicants or sureties are responsible and worthy of credit. Likewise, the prudent depositor will know the character and standing of the bank with which he is to deal. Therefore, before inviting your confidence and soliciting your patronage, we wish to call your attention to the personnel of our Officers, Board of Directors, and Stockholders:

You are no doubt aware that every stockholder of a NATIONAL BANK is personally responsible for twice the amount of stock he holds. The Stockholders of

THE FIRST NATIONAL BANK

OF NEWBERG, OREGON

are conservatively estimated to be worth \$755,000.00—Over THREE QUARTERS of a MILLION.

All but \$6000.00 of the bank's capital stock is owned by townspeople and men living in the vicinity of Newberg.

The officers of this bank endeavor to promote the interests of their customers along whatever lines it is practicable for them so to do.

INCORPORATED under the laws of the UNITED STATES.

Like all other NATIONAL Banks, this bank is under Government inspection thus throwing around it every possible safeguard to its substantiality.

A National Bank is not allowed to loan to any one person, firm or corporation more than ten per cent. of the amount of its capital stock and surplus.

The most this bank will loan to any one person, firm or corporation, providing securities will warrant, is \$5,000.

We invite you to become identified with this bank. Your financial and fiduciary matters will be given the careful, consistent attention, which they require—handled conservatively, and in strict confidence.

Kelsey, Alberta Langton, Nelson Baker, Dean Wright, Lorenzo Crumly, Earl Pinney. Allspoke well. The judges decided after most careful consideration that the medal should be awarded Dean Wright and Anita Kelsey was second. A small token was given each one in most beautiful language. Prof. Wiest presented the medal after a stirring speech, one of the ideas expressed being that receiving the medal was not the main object, but the good which would be affected by these recitations, and that the saloon of tomorrow is the one which we must direct our best energies against. The name of the winning recitation is "New Recruits."

Although it was a hot afternoon this earnest band of children held the attention of the audience for nearly two hours. A good free will offering was received. The L. T. L. wishes to thank each one who helped in the exercises and by their presence and collection. It is a true saying, "A little child shall lead them."

High School Items.

(By Priors Press Committee.)

Rev. Ritchie exhibited to the High School pupils Wednesday some curios from Africa.

Miss Marie King was a visitor at N. H. S. last week.

The county field meet was not as successful as was wished for, there being only three high schools represented. These were Newberg, Dayton and McMinnville. Newberg and Dayton were very evenly matched, while McMinnville's showing was poor. Dayton out did our boys on the weights and the distance runs but we showed our superiority when it came to sprinting and jumps. Otis, Gause and Fendall were the principal point winners for Newberg while Mabey, Baxter and Taylor made the majority of Dayton's points. Bell of McMinnville, was their winner, taking second place in the half mile. Our boys still show a lack of training but this is mostly due to the bad weather.

Ernest Thun read a very interesting essay on "Oregon Territory" before the Assembly on Tuesday.
