The Man Who Starts In Business To-day

must have money or credit—to be successful he should have both.

The real starting point of any business is: The time at which one begins a systematic saving.

If he begins right he opens a bank account, and gradually builds up both his account and his credit.

If YOU begin NOW it will bring YOUR day for starting just that much the nearer.

BRING in your pay checks, milk and butter checks, egg checks, or checks received from whatever business you are in, and open an account.

We will cash checks at par, no matter where or on what bank they were issued.

Pay your help by check, pay your store bills by check—it is systematic to pay by check.

Your bank book will show your income, and what it costs you to run your business. Your checks will be your receipts for accounts paid, and probably the means of saving you, at some time, a costly lawsuit on account of some dispute.

This bank does a general commercial banking business—we co-operate with and assist our customers in the upbuilding of their business.

Your account, whether large or small, will be appreciated.

We invite you to come in and inquire about our SAVINGS DEPARTMENT for old and young. \$1.00 or more will start an account.

Our CUSTOMERS have the privilege of keeping their DEEDS, INSURANCE POLICIES, VALUABLE PAPERS, and LOCK-BOXES in our spacious, fire-proof VAULT—without cost to them.
