### Items of Interest Concerning the Northwest.

The outcome of an experiment to be tried with burned-over timber in Coos County by the Santa Fe Railroad will be watched with interest throughout the Pacific Northwest. If successful, it will mean that large areas of forest, formerly considered useless, will become valuable for the burned-over timber yet remaining. The Santa Fe has contracted for 1200 cedar piling from such a tract in Coos County. If the charred piling proves a success, much more of the same material will be bought by the Santa Fe and a wide market will be found for this now apparently worthless timber.

Portland ends the cereal shipping year, May 31, holding second place in the entire country as a wheat exporting city. New York alone has a greater volume to its credit. During the past 12 months Portland has sent away 6,350,033 bushels of wheat, valued at \$5,791,304.

Large appropriations for Oregon waterway improvements are available by the passage of the rivers and harbors bill by the recent congress. More than \$1,000,000 will be spent in perfecting the jetty at the mouth of the Columbia River and additional funds are provided for dredging the Lower Willamette and Columbia rivers. The improvement of the upper Willamette and Columbia is provided for, as is the Celilo Canal, which gets \$600,000.

Together with the Great Northern, the Northern Pacific will carry on a work of exploitation of Oregon. Writers and publicity men are now being enlisted by the line to work up material to be used throughout the country in spreading the knowledge of Oregon broadcast. With the Hill lines actively engaged in the work of publicity, large results can be expected.

Attention is called by The Oregonian to the growth of the livestock industry in the Pacific Northwest. On one day of last week it says ten carloads of wheat were received at Portland and 40 carloads of livestock. It is maintained that the stock grower will become a more important factor in the prosperity of the state than the wheat grower within the coming ten years. Then there will be more wheat grown than at present but the livestock industry will have expanded to a remarkable degree by that time, due to Portland having the greatest stockyards and packing plant on the Pacific Coast. This means much to the city's future, it is believed.

Salem, the capital city, will hold its annual cherry fair on July 7, 8 and 9. The event promises to be a big affair and is being widely advertised. People from the entire valley will attend and unusual preparations are being made to entertain them. There will be keen competition between the valley counties for prizes in the cherry exhibits and amusement features of the fair will be better than ever.

That high prices for food products are driving many people back to the farm is the belief of those who have given the matter attention. It is contended that not for years has the movement been so noticeable as now. All parts of the Pacific Northwest are being benefitted, it is said, by this desertion of the cities and return to the soil. Confidence is expressed that this will balance production and consumption and bring prices of farm products down to lower levels.

"And so you have not put on your black dress as I particularly wished?" said the husband angrily as his wife appeared garbed décolleté for the ball.

"No. I told you I would wear my pink or nothing."  
"And which are you supposed to be doing?"

Inquirer—Did Miss Howell's voice fill the hall? Critic—Well, it filled the lobby. Nearly everybody went out there when she sang.

"Why do you make that patient wait three hours every day in your anteroom?" "He needs rest," explained the doctor, "and that is the only way I can compel him to take it."
