Parties who come into Newberg over the road from the northwest, say the road in front of the G. W. Carry the news to the road supervisor and ask him to get busy at once while the lamp holds out to burn.

L. S. Otis has sold the five acre tract laying west of the Myers' fish pond out east of town on the Portland road, to a gentleman named Chamberlain who is planning to make an apple orchard of it. For the first game of the season it was a fine exhibition of football under the new rules, given on the college grounds on last Saturday afternoon, between the college and high school teams, which finally resulted in a victory of 6 to 11 in favor of the latter. The college boys put up a line that was almost invincible and up to near the close of the game they had things going their way, when a few costly fumbles lost them the game. The teams are pretty evenly matched and they will doubtless give some fine games before the season is over.

Mit Cady came across a bullsnake near Newberg Tuesday evening which he captured and took home to his farm on Chehalem mountain in a gunny sack, to turn loose on the moles and gophers that are burrowing about the place. He said his custom had always been to kill these snakes whenever opportunity offered, but on finding one some years ago that was badly puffed up in the stomach he made a post mortem examination and found a good sized pocket gopher partly digested. Since then he says he always gives them full license to hunt on his premises and finds that they follow the mole and gopher holes and catch the burrowing pests. All of which is doubtless more satisfactory than to have snakes in one's boots.

M. G. Oakley who has a fruit and berry farm half way up the side of Chehalem mountain north of Newberg, is just beginning to ship his late crop of strawberries. He put in a new system for watering his vines this season, and as it required some time to get it working well he was late in getting the ground well watered, and this has made his crop come on a little later than usual.

Rev. G. E. Kienle, the father of the Kienle brothers, arrived here from Webster, South Dakota, last Sunday with his family and has located in the Fortune cottage on Main street. He has retired from active pastoral work but in order to assist the German Methodist churches at McMinnville and Sheridan he has consented to take the work in those places for the present.

Perry Jones who was working on the new brick at the corner of First and College streets, fell down the shaft this, Thursday, forenoon and was picked up in an insensible condition. One wrist was broken and one finger dislocated, besides being badly bruised, but Dr's Rankin and Doolittle, who dressed his wounds, think he is not otherwise seriously injured.

It is with sincere regret that we announce that Dr. Nelson Morrison has decided to locate for practice at Selwood in the office of Dr. Lehman, a well established dentist in that city of 9,000 inhabitants. Besides being a careful and painstaking dentist, Dr. Morrison is a christian gentleman and an all round good citizen, such as we can ill afford to lose. He and Dr. Lehman have been close friends for several years, and it is at the earnest solicitation of the latter that he goes to take a place in his office. In fact the offer by Dr. Lehman was such that he could not afford to turn it down. He will go at once to begin work in his new location but the family will remain in Newberg for the present. His many Newberg friends wish him the greatest measure of success in his new field.

Elson Co., of Boston, will be placed on exhibition. These pictures consist of large carbon photographs, photo-gravures, engravings, etchings, and copper plate paintings. They are reproductions of the great masterpieces and the exhibit will prove of very great educational value as well as being very interesting. Various Schools of Art will be represented and the pictures so arranged as to show the development of art from the art of the early Egyptians to the modern American art. The fine old classic architecture and sculpture can be studied as well as Italian painting, Flemish Art and the modern productions of Germany, Spain, France, England and America.

Catalogues will be on hand which give the history of each painting and of the artist. A small admission fee will be charged and the proceeds used to purchase some of the pictures for the Public School and High School rooms.

Details will be announced later. Watch for the posters.

The Poultry Yard.

The fowls that are small for their age should go now. Their room is of more value than their company.

Hens dread to get into dirty nest boxes. They won't do it if they can help it. Why don't you see to this, right off?

No one can consistently be a fancier and a marketman at the same time. The branches are antagonistic to each other.

It is a too common practice to inbreed. Don't do it. It is easier to secure good cockerels now than it will be later in the season. Get them now and you will have them when needed.
