**PACIFIC STATES WILL HOLD A CONGRESS**

**California Governor Issues a Call for Meeting in San Francisco.**

San Francisco—Governor Gillette decided to issue a proclamation for the holding in this city of a Pacific Coast congress, which is to be attended by delegates from every part of the Pacific Coast and from Hawaii, who will consider merchant marine legislation and the advisability of maintaining a battleship fleet in the Pacific ocean as well as matters relating to the Panama-Pacific International Exposition and such other exhibitions as are to be held on the Pacific Coast.

It is designed to have a Pacific Coast congress every year, so that the needs of the Coast may be impressed on the congress of the United States.

Invitations will be sent to officials and commercial bodies in Oregon, Idaho, Washington, Nevada, New Mexico, Arizona, Utah and Hawaii, as well as California. Governors, lieutenant-governors, senators, congressmen and presiding officers of the two executive houses of each state will be invited to come as guests and they will be under no expense. The mayors of cities on the Coast will be requested to attend the congress and to appoint delegates.

**COMMONER VS. COLONEL**

**Bryan Will Trail Roosevelt for One Week.**

Indianapolis—Col. Theodore Roosevelt vs. Col. William J. Bryan, is the program of the rival party organizers of Indiana for the week. The former comes first and will make a dozen speeches from a special train.

Colonel Bryan will follow Roosevelt. He will answer Colonel Roosevelt and will attempt to show that the republicans were extremely inconsiderate of their own platform in bringing Roosevelt to Indiana.

**Portugal Expelling Monks.**

Lisbon—The expulsion of the monks from Portugal has begun. No time will be lost in driving them across the frontier. Several hundred nuns have been assembled and will be deported. Cardinal Neto, ex-patriarch of Lisbon, the Bishop of Beja, and other prominent ecclesiastics already have been expelled.

**KING MANUEL**  
The Youthful Sovereign of Portugal Who Lost His Throne.

Lisbon—Though it is but a short time since the first shot was fired in the revolution that swept a king from his throne, Portugal is rapidly approaching normal conditions. No serious obstacle in the way of the new government is expected in the immediate future.

The suddenness of the sweeping change and the ease with which the people adapted themselves to the new regime have had few parallels.

**COLORADO MINERS ENTOMBED IN MINE**

Starkville, Colo.—At least 52 men are entombed in the Starkville mine of the Colorado Fuel & Iron Co., while, in the approaches to the mine, hundreds of their fellows, with oxygen helmets, movable rotary fans and picks and shovels are striving simultaneously to open the living tomb and to draw from it the poisonous gases with which it is at least partly filled.

The men have been imprisoned and the rescuing parties have toiled since 10:50 p. m. Saturday, when an explosion, probably caused by coal dust, shook the earth for a radius of seven miles, destroying the main entrance to the mine and sealed the hapless toilers within it.

Because of the vast ramifications of the mine and its connections with other mine-workings it is hoped that perhaps half the men may be rescued.

**Bible Declared Inaccurate.**

Cincinnati—That the scriptures are so full of inaccuracies that to place any reference to the Bible in the constitution of the Protestant Episcopal church would make it unreliable, was the statement made here by the Rev. A. A. Morrison, of Portland, Oregon. He made the assertion in reply to an appeal made by the Rev. J. H. McIlvaine, of Pittsburg, to prefix a preamble to the church constitution. The preamble was voted down.

**WOULD REORGANIZE ARMY**

Defense of Seaboard Will be Principal Feature.

Washington—A comprehensive plan for an entire reorganization and re-assignment of the federal military forces to be known as the Taft-Dickinson military policy is to be submitted to congress when that body convenes in December. It will mean a great deal to the Pacific Coast.

It is the purpose of the plan to mobilize large commands at all strategic coast centers where batteries have been emplaced or are proposed. This will insure the entire continental coast line against attack.

**Geranium Big as Saucer.**

San Francisco—Richard Diener, a gardener at Colma, a suburb of San Francisco, where Croftoth used to hold his fights, who has been experimenting secretly with all kinds of flowers in order to ascertain how to enlarge their size, has perfected a geranium six inches in diameter, which has been pronounced by experts one of the most extraordinary achievements in floriculture.

The investigation into the immigration of Chinese which has been going on at Vancouver for three weeks, has disclosed the fact that Canada has lost over \$1,000,000 in head tax and the United States has gained several thousands of Chinese residents via the underground route.

**Explosion Due to Dynamite.**

Los Angeles—The investigation committee appointed by Mayor Alexander to inquire into the cause of the explosion which destroyed the building and plant of the Los Angeles Times on the night of October 1, reported that the explosion was that of dynamite.

**FOREST FIRES BURN MINNESOTA TOWNS**

Winnipeg—Scores of lives have been lost in a great forest fire which raged along the Canadian border in the Rainy River country and in Northern Minnesota. The towns of Beaudette, Spooner, Gracetown and Pitt, Minn., have been wiped out and refugees from the burning district who fled into Rainy River report seeing many charred corpses along the roadside in the burned district and the loss of millions of dollars worth of property.

The fire was entirely unexpected. In the last summer there were many great fires in this same region, but the fighters had about subdued them when out of the northwest of the Rainy River country there appeared a great fire which swept through the dried timber, carried in its onward rush by a heavy gale, and soon beyond control, it caught the unwarned settlers in its path of death and destruction.

Estimates of the loss of life place the number between 1000 and 2000. More than 2000 persons are missing, 5000 are homeless and all these are destitute.

Stories of wild animals, fleeing for safety side by side with human beings, of mothers burned to death with babies on their breasts, and of men cremated while endeavoring to shield their children, were among the tales of horror brought in by refugees.

Never change to a new breed simply because extravagant claims are given. It is better to try to improve the old ones.

This is a good reason for disposing of all the surplus old hens. Better get rid of them while they will fetch a good price as roasters. The prices are good up to about November 20th.

Start the trapnets so it can be known which are the best winter layers. Almost any old hen will lay in spring and summer; it takes a good hen to lay in late fall and winter.
