HANNON MILLINERY CO., NEWBERG, ORE.

WEST CHEHALEM

Omer Fendell was out from Newberg to spend Sunday with his parents.

The Misses Evans were out from Newberg last week visiting with Mr. and Mrs. W. F. Evans.

Miss Mabel Christenson spent Sunday with Mr. and Mrs. Geo. Christenson.

Mrs. C. N. Marsh, of Newberg, and Miss Marsh, of Vermont, visited with Mrs. S. M. Calkins Sunday.

Miss Cecile Christenson came out from Portland Friday, to spend a few days with her parents.

Rev. F. C. Stannard came out to see Mr. and Mrs. Geo. Christenson one day last week.

Services next Sunday morning at the West Chehalem church by Rev. Boughton, of McMinnville. Sunday School at ten o'clock.

Children's Day will be observed at West Chehalem church, third Sunday in June.

Born to Mr. and Mrs. Frank Rowland, a girl.

Sam McVey's rock crusher is busy crushing rock, which will be used on the roads in district No. 5.

John Whities, road supervisor, is having the hill in front of A. A. Noble's home graded down.

Lewis Amoth made a business trip to Forest Grove last week.

Rev. Boughton took Sunday dinner with Geo. Christenson.

Mrs. Yates came out from Newberg to visit her brother, A. A. Noble.

Mr. and Mrs. Ross Allumbaugh visited with Mr. and Mrs. Wood Monday.

Mr. Myers, of North Yamhill, spent Sunday at the Christenson home.

The infant son of Mr. and Mrs. Joe Rogers was buried Monday afternoon in the West Chehalem graveyard.

S. M. Calkins and S. Cummins are busy looking after the roads in this part of the county.

Dick Wood spent Sunday with his brother, W. H. Wood.

DUNDEE

A. C. Goodrich, of North Yamhill, was in Dundee on business on Monday.

Miss Bertha Reed, of Portland, came up Saturday to plant garden and to make arrangements about the erection of her summer home on her Otterbrook orchard tract.

Work was begun last week on the new real estate office which will occupy the corner opposite the Groth hardware store.

Misses Christopher and Young, who had a new telephone installed last week, think it significant of the spirit of the Red Hills that the first message over the new wire was an offer of choice cabbage plants from one of the neighbors, the second message was about another unexpected kindness, and the third was a joke. They are right; the Red Hills neighborhood stands for brotherhood of man and cheer along the way.

Rev. Julian Alford and H. B. Powell have plowed and scraped the road leading west past the church and their homes. A few days of dry weather will put it in fine condition.

Frank Keyes has finished his contract on the new road from the main road through the Greer farm to the Otterbrook orchard tracts. It is a beautiful drive and a road of which the neighborhood is justly proud.

Mrs. Jannsen and daughter, Merle, of Dayton, and Miss Carmen Wall, of Newberg, were Sunday guests at the Kepes home.

MUST THE TROLLEY GO?

From the Boston [Mass.] Herald.
Hardly has the word "trolley" been well domesticated in

popular speech when Mr. Edison predicts that the thing itself must shortly give way before his storage battery. Men whose hair is not yet gray have seen in many communities the steam-driven cable displace the horse in street car traction, and the cable give way before the trolley, and perhaps the inventive genius of Edison is going to give us still another mode of traction before the airship shall have taught us all to scorn the earth. Nothing in the history of the practical application of inventive genius to the problem of local transportation is fuller of lessons for municipalities and larger units of government than the rapid coming and going of various traction methods. When we were just upon the eve of the trolley, several cities went on putting in costly and cumbersome traction cables, and New York has until the current year endured some scores of slow and unsanitary horse cars. It is not surprising that corporations hesitate to adopt a new system, however excellent, if it involves the costly sacrifice of an effective plant, but the history of "pocketed" inventions contains its warning for municipalities for other communities, larger or smaller, charged with the duty of granting and regulating franchises for the administration of public utilities.

SAVE BIRDS FOR LOCUST YEAR

(From the Brooklyn Standard Union.)
Unless tradition is to be upset, next year will be marked in the United States by a visit from the seventeen-year locust, and anticipating the coming of this harmful insect the National Association of Audubon Societies has sent out a warning against making too free use with the gun in hunting wild birds. Certain birds, notably English sparrows, robins, woodpeckers, orioles, scarlet tanagers, cuckoos and goldfinches, are the greatest natural enemies the cicadas have,

and those citizens who wish to have the swarms of expected locusts diminished will spare all wild birds.

Perhaps the injury to fruit trees and other vegetation will not be so great as past experience leads many people to fear, nevertheless there is ample justification for the belief that the ravages of locust will seriously affect the interests of the farmer. But aside from the wisdom of protecting insect-eating birds in order to safeguard as far as possible against depredations of cicadas, there is a growing appreciation of the value of the feathered tribe in keeping down the number of all harmful worms and insects.

MOTHERS DAY

In compliance with orders from National Headquarters Shiloh Post No. 77 Department of Oregon Grand Army of the Republic, and Shiloh Corps W. R. C. will observe Mothers Day, attending divine services on Sunday, May 14th, 1911.

The post and corps will meet at the Post hall at 10:30 A.M. and proceed to the Christian church where Rev. Ritchey will deliver a discourse appropriate to the occasion.

The general idea of Mothers Day is a simultaneous observance in every country of the love and reverence men, women and children owe to a good mother. The second Sunday in May is observed as Mothers Day throughout the United States. The movement is not denominational. Every society and organization is asked to unite in making the observance universal.

Do some distinct act of kindness to the sick or unfortunate, in loving remembrance of your mother.

The white carnation is the Mothers Day special flower.
