A Public Confession.

The pastor of a country church, a middle aged widower, was credited with having courted every eligible woman in his flock. One Sunday morning the good parson, having occasion to admonish specially the feminine membership, was amazed at the very audible titter that ran through the congregation when, with an inclusive wave of his arm, he exclaimed, "Sisters, I have addressed you in public and in private!"—Judge's Library.

The young ladies of the Presbyterian church gave a spicy evening's entertainment Friday night in the presentation of "Our Busy Ladies Aid." The Christian Endeavor room with elevated stage neatly curtained, gave ample space for the setting. The scene presented a ladies' aid society in full action, busily engaged in a piano contest inaugurated by a smooth agent in which other churches competed, and the trickery and disappointments incident to such contests were clearly brought to light. Solos, duets and choruses were cleverly given at intervals during the play, and withal, the ladies gave an evening's entertainment that merited a better patronage than was given.

The county court seems to have a rather puzzling time to determine on a course to be followed out in building the bridge over the creek on East First street. First it was decided to build a low bridge over the creek with long fills at either end. Later wooden approaches were decided on and work of this kind is being put in, but the latest is that the steel for the span over the creek has been ordered taken to some other part of the county, and the wood trestle is to take its place. The Graphic will not undertake to voice all the comments that have been made regarding the job.
